You can try the Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) exam dumps demo before purchasing. If you like our Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) exam questions features, you can get the full version after payment. DumpsTests Oracle 1z0-1042-24 Dumps give surety to confidently pass the Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) exam on the first attempt.

Oracle 1z0-1042-24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Testing, Monitoring, and Troubleshooting Integrations: This section assesses candidates abilities in testing, monitoring, and troubleshooting integrations within the OIC.
Topic 2	<ul style="list-style-type: none">• Creating Orchestrated Integrations: This part of the exam evaluates the candidate's skills in creating and managing orchestrated integrations using OIC. Candidates should be able to manage OIC lookups, use the OIC Data Mapper, and incorporate custom JavaScript libraries into their integrations.
Topic 3	<ul style="list-style-type: none">• Using OIC Connections & Adapters: Candidates must demonstrate their ability to create and configure OIC connections, including trigger and invoke connections. They should be familiar with the Connectivity Agent, which facilitates on-premises connectivity to OIC services.
Topic 4	<ul style="list-style-type: none">• Creating Scheduled Integrations: In this section of the exam, candidates are evaluated based on their skills in managing scheduled integrations. This includes converting scheduled integrations to app-driven integrations and understanding the scheduling options within the OIC.
Topic 5	<ul style="list-style-type: none">• Getting Started with OIC Integrations: This section tests the ability of IT professionals and integration specialists to understand the fundamental components and concepts of Oracle Integration Cloud (OIC). Candidates are expected to describe the key features of OIC integration and explain core integration concepts.

Oracle 1z0-1042-24 Reliable Exam Bootcamp, Valid 1z0-1042-24 Exam Prep

You don't need to enroll yourself in expensive 1z0-1042-24 exam training classes. With the Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) valid dumps, you can easily prepare well for the actual Oracle 1z0-1042-24 Exam at home. Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) practice test software is compatible with windows and the web-based software will work on many operating systems.

Oracle Cloud Infrastructure 2024 Application Integration Professional Sample Questions (Q85-Q90):

NEW QUESTION # 85

You are an Oracle Integration Cloud (OIC) specialist responsible for integrating two enterprise applications.

Recently, you noticed that your integration instance is processing messages much slower than expected, causing a significant delay in data synchronization between the applications. What is the best course of action?

- A. Immediately increase the number of instances to handle the increased load.
- B. Reactivate the integration to clear any temporary issues that might be causing the slowdown.
- C. Analyze the performance metrics of the instance, identify bottlenecks, and optimize the integration accordingly.
- D. Delete and re-create the integration to start with a clean slate.

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

Performance issues require systematic resolution:

* Option B: Analyzing metrics (via Monitoring > Instances or Dashboards) identifies bottlenecks (e.g., slow external calls, large payloads), enabling targeted optimization (e.g., batching, caching). This is the best practice.

* Option A: Deleting and recreating loses history and is inefficient without diagnosis.

* Option C: Reactivation might reset transient issues but doesn't address root causes.

* Option D: Scaling instances increases cost without guaranteeing resolution if the bottleneck is elsewhere.

Data-driven optimization ensures effective synchronization.

NEW QUESTION # 86

Oracle Integration (OIC) is available in two editions, Standard and Enterprise. Which two OIC Enterprise Edition capabilities are also available in OIC Standard Edition?

- A. Visual Builder
- B. Enterprise Application adapters (such as EBS, JDE, SAP, and Siebel)
- C. Process Automation
- D. File Server
- E. B2B Trading Partner Agreements

Answer: A,D

Explanation:

Comprehensive and Detailed Explanation:

Editions:

* C, D: True-File Server, Visual Builder in both.

NEW QUESTION # 87

You can group one or more Oracle Integration Cloud (OIC) integrations into a single structure called a package. Which statement is not true about OIC packages?

- A. All packages must include at least one integration.
- B. Integrations do not need to be part of a package.
- C. New packages can be created by clicking the Create button on the packages page in the OIC console.
- D. You can import packages directly from the Oracle Marketplace.
- E. Packages cannot be locked to deny other users access to your integrations.

- F. Packages enable you to easily import and export a group of integrations to and from OIC.

Answer: E

Explanation:

Comprehensive and Detailed Explanation:

OIC packages are logical containers for grouping related integrations, facilitating management, export/import, and deployment. Let's dissect each option with in-depth analysis:

* Option A: All packages must include at least one integration.

* True: A package in OIC is meaningless without integrations. When you create a package, it's a prerequisite to associate at least one integration with it, either during creation or afterward. For example, if you're building a payroll processing suite, the package would include integrations for employee data sync, payment processing, etc. An empty package serves no purpose and isn't allowed in practice.

* Option B: You can import packages directly from the Oracle Marketplace.

* True: The Oracle Marketplace offers prebuilt integration packages (e.g., for connecting Oracle ERP to third-party apps). These can be imported into your OIC instance, saving development time. For instance, a Salesforce-to-Oracle HCM package could be downloaded and customized.

This aligns with OIC's ecosystem approach to accelerate adoption.

* Option C: Packages cannot be locked to deny other users access to your integrations.

* False (Not True): Packages can be locked in OIC to restrict editing or access by other users, enhancing security and version control. Locking prevents unintended modifications, especially in collaborative environments. For example, a production-ready payroll package might be locked to ensure stability. The ability to lock is a feature in the OIC console under package management, making this statement incorrect and thus the answer.

* Option D: New packages can be created by clicking the Create button on the packages page in the OIC console.

* True: In the OIC console, navigating to the Packages page reveals a "Create" button. Clicking it initiates the package creation process, where you define a name, identifier, and optionally add integrations. This user-friendly interface simplifies grouping—for example, creating a

"CustomerSyncPackage" for CRM integrations.

* Option E: Integrations do not need to be part of a package.

* True: Integrations can exist independently in OIC without being packaged. This flexibility suits standalone workflows, like a one-off file transfer integration, versus grouped processes like an end-to-end order management suite.

* Option F: Packages enable you to easily import and export a group of integrations to and from OIC.

* True: Packages streamline migration by exporting multiple integrations as a single PAR (Package Archive) file. For instance, exporting a package with five HR integrations to another OIC instance ensures consistency and reduces manual effort compared to exporting individual IAR files.

Why C is the answer: The ability to lock packages contradicts option C, making it the only untrue statement.

Locking is a critical feature for governance, especially in enterprise settings where multiple developers work concurrently.

Use Case Example: Imagine a team deploying a locked "OrderProcessingPackage" to production—locking prevents accidental changes, ensuring reliability.

NEW QUESTION # 88

Your organization has a number of active integrations in Oracle Integration (OIC). Your advice is sought out on the consequences of deactivating integration instances. Which statement concerning integration deactivation is NOT valid?

- A. You can choose to retain the event subscription, where events are resent if the integration is reactivated within six hours.
- **B. All existing history, monitoring, and runtime data will be lost.**
- C. You will not be able to observe any failed instances occurring after the deactivation request.
- D. Processing of any new messages will be immediately stopped.

Answer: B

Explanation:

Comprehensive and Detailed Explanation:

Deactivation effects:

* A: True—stops processing instantly.

* B: False—data is retained, not lost.

* C: True—event retention is an option.

NEW QUESTION # 89

You are an Oracle Integration Cloud (OIC) specialist working on a project to integrate two systems using OIC. During the project, you notice that the integration instance fails to execute and returns an error. Which step would you take first to troubleshoot the issue?

- A. Immediately restart the integration instance.
- B. Increase the log level to get more detailed logs.
- C. Check the instance logs for specific error messages and details.
- D. Contact Oracle Support and wait for a response.

Answer: C

Explanation:

The first step in troubleshooting is to check the instance logs for error messages. These logs provide details about the failure, helping to identify and resolve the issue.

NEW QUESTION # 90

.....

Our company enjoys good reputation in the field of providing certificate exam materials. We are dedicated to providing good and efficient 1z0-1042-24 study guide for candidates. You can pass the exam by using the 1z0-1042-24 questions and answers of us, therefore we are pass guarantee. If you fail to pass the exam, we will money back guarantee, and the money will return to your payment account. We are confident with our 1z0-1042-24 Study Guide, you can trust us.
