D-PDD-DY-23 Latest Exam Questions - Reliable D-PDD-DY-23 Test Vce

A certification is not only an affirmation to your ability but also can help you enter a better company and improve your salary. D-PDD-DY-23 exam cram can help you get your certification successfully. We have a professional team to collect and research the latest information for the exam, and we offer you free update for 365 days after payment, so that you can obtain the latest information. In order to build up your confidence for D-PDD-DY-23 Exam Braindumps, we are pass guarantee and money back guarantee if you fail to pass the exam.

EMC Dell PowerProtect Data Domain Deploy 2023 Sample Questions (Q121-Q126):

NEW QUESTION # 121

What are the steps to configure the Retention Lock Compliance?

Answer:

Explanation:

The correct order for configuring Retention Lock Compliance on a PowerProtect DD system is as follows:

- * Configure the system to use DD Retention Lock Compliance
- * Enable DD Retention Lock Compliance on the system
- * Enable the security officer authorization
- * Add one or more security officer users
- * Create iDRAC users

To set up Retention Lock Compliance on a PowerProtect DD system, each step must be followed carefully to ensure compliance and security. Here's a breakdown of each step:

- * **Configure the System to Use DD Retention Lock Compliance:** Start by configuring the system settings to enable Retention Lock Compliance. This step establishes the system's capability to enforce data retention policies and ensure that data is protected according to regulatory requirements.
- * **Enable DD Retention Lock Compliance on the System:** Once the system is configured, activate the Retention Lock Compliance feature on the DD appliance. This step enforces write-once, read-many (WORM) compliance, ensuring that data cannot be altered or deleted during the retention period.
- * **Enable Security Officer Authorization:** Security officers play a critical role in managing and monitoring Retention Lock Compliance. Enabling security officer authorization provides an additional layer of control, where only authorized personnel can perform sensitive tasks related to compliance settings.
- * **Add One or More Security Officer Users:** Designate users as security officers who have the authority to manage retention policies and handle compliance-related tasks on the system. This setup helps in managing roles and access control effectively.
- * **Create iDRAC Users:** Finally, create iDRAC (Integrated Dell Remote Access Controller) users if needed. iDRAC users can help manage the system remotely, especially in larger environments where remote management of compliance settings is beneficial. This ordered process ensures that Retention Lock Compliance is correctly configured, aligning with regulatory requirements for data protection and management.

NEW QUESTION # 122

An administrator recognizes poor network performance when using CIFS shares from a PowerProtect DD system. The network link utilization is under 100%. What is the most likely cause of this issue?

- A. TCP window size too large
- **B. TCP window size too small**
- C. TCP timeout too small
- D. TCP timeout too large

Answer: B

Explanation:

Explanation: A small TCP window size can restrict data throughput, leading to suboptimal performance in CIFS-based file transfers. Adjusting the TCP window size can help maximize network bandwidth utilization and improve transfer speeds.

NEW QUESTION # 123

What is the maximum number of cloud units that Cloud Tier consists of to enable multiple cloud providers per protection system?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

In a PowerProtect DD environment, Cloud Tier allows the integration of multiple cloud providers to optimize data storage and management. By supporting up to three cloud units, administrators can leverage various cloud services for backup and storage, enhancing flexibility and resource allocation while maintaining efficient data protection strategies.

NEW QUESTION # 124

What is the maximum backup speed of PowerProtect DD Virtual Edition using Boost

- A. 9.0 TB/h
- B. 7.0 TB/h
- C. 2.5 TB/h
- D. 4.2 TB/h

Answer: B

NEW QUESTION # 125

Which expansion rack supports 8 TB disk drives in the PowerProtect DD appliance?

- A. ES30
- B. FS25
- C. ES40

Answer: A

Explanation:

The ES30 expansion shelf is designed to support larger disk drives, including 8 TB drives, enabling the PowerProtect DD appliance to scale up its storage capacity effectively. The ES40 and FS25 racks do not support 8 TB drives, making ES30 the correct choice for this requirement.

NEW QUESTION # 126

.....

Both practice tests simulate the EMC D-PDD-DY-23 real exam environment and produce results of your attempts on the spot. In this way, you will be able to not only evaluate your progress but also overcome mistakes before the D-PDD-DY-23 actual examination. Windows computers support the Dell PowerProtect Data Domain Deploy 2023 D-PDD-DY-23 desktop practice exam software. The Dell PowerProtect Data Domain Deploy 2023 D-PDD-DY-23 web-based practice test needs an active internet connection.
