GAQM CASPO-001 (Certified Agile Scrum Product Owner) Certification Exam is an industry-recognized certification designed for product owners, product managers, business analysts, and anyone who is responsible for building, managing, and delivering products in an Agile environment. Certified Agile Scrum Product Owner (CASPO) certification is based on the Agile Scrum framework, which is a popular methodology used for software development, project management, and other business operations. Certified Agile Scrum Product Owner (CASPO) certification is an excellent way to validate your knowledge and skills in Agile Scrum and enhance your career prospects.

GAQM CASPO-001 certification exam is designed to help individuals who are interested in becoming a Certified Agile Scrum Product Owner (CASPO). CASPO-001 Exam is intended to assess an individual's knowledge of the Agile Scrum methodology and how it can be applied to product ownership. Certified Agile Scrum Product Owner (CASPO) certification is recognized globally and is a great way to demonstrate your expertise in Agile Scrum methodologies.

The CASPO-001 exam measures a candidate's comprehension of Agile principles, Scrum framework, Agile planning, product backlog management, stakeholder engagement, and product delivery. CASPO-001 exam consists of 100 multiple-choice questions that must be completed in 120 minutes. The passing score for the examination is 70% or 56 questions. CASPO-001 exam fee for the certification is USD 300 for members and USD 350 for non-members. CASPO-001 exam can be taken online or at a testing center.

TestValid guarantee the best valid and high quality CASPO-001 study guide which you won't find any better one available. CASPO-001 training pdf will be the right study reference if you want to be 100% sure pass and get satisfying results. From our CASPO-001 free demo which allows you free download, you can see the validity of the questions and format of the CASPO-001 actual test. In addition, the price of the CASPO-001 dumps pdf is reasonable and affordable for all of you.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions

(Q23-Q28):

NEW QUESTION # 23

Who must do all the work to make sure Product Backlog items conform to the Definition of "Done"? (Choose the best answer)

- A. The Scrum Team
- **B. The Developers**
- C. The Scrum Master
- D. The Product Owner
- E. QA Specialists

Answer: B

Explanation:

The Scrum Guide clearly assigns the responsibility for delivering a "Done" Increment to the Developers: "The Developers are the people in the Scrum Team that are committed to creating any aspect of a usable Increment each Sprint." This includes all work-development, testing, integration, etc.-needed to meet the Definition of "Done," a shared commitment that ensures quality. Option A (Scrum Team) is too broad; while the Scrum Team collaborates, only the Developers perform the hands-on work. Option C (Product Owner) is incorrect- they manage the Product Backlog, not the execution. Option D (QA Specialists) introduces a role not defined in Scrum; quality is the Developers' collective responsibility. Option E (Scrum Master) is wrong-they facilitate, not build. Thus, B is correct.

NEW QUESTION # 24

What is the tactic a Scrum Master should use to divide a group of 100 people into multiple Scrum Teams? (Choose the best answer)

- A. Create teams based on their skills across multiple layers (such as database, UI, etc.).
- B. Ask the Product Owner to assign the people to teams.
- **C. Ask the Developers to divide themselves into teams.**

Answer: C

Explanation:

The Scrum Guide emphasizes self-organization and self-management as core principles for the Scrum Team, particularly the Developers: "They are self-managing, meaning they internally decide who does what, when, and how." When forming multiple Scrum Teams from a large group, the Scrum Master's role is to facilitate and coach, not dictate. Option C aligns with this by empowering the Developers to self-organize into teams, fostering ownership and collaboration. Option A (skill-based division) is too prescriptive and risks creating component teams rather than cross-functional ones, which Scrum favors. Option B shifts responsibility to the Product Owner, whose role is Product Backlog management, not team formation. Thus, C is the best tactic.

NEW QUESTION # 25

Why is it imperative that the Scrum Master attend the Daily Scrum?

- A. To document impediments
- B. To get the information to update the burndown chart
- **C. They don't have to attend - they just have to ensure that the team has it**
- D. To facilitate the meeting

Answer: C

Explanation:

The Daily Scrum is the Developers' event, not the Scrum Master's. The Scrum Guide states: "The Daily Scrum is a 15-minute event for the Developers of the Scrum Team... The Scrum Master ensures that the Developers have the meeting, but the Developers are responsible for conducting the Daily Scrum." The Scrum Master's role is to ensure it happens and is effective, not to attend mandatorily.

* A: Documenting impediments is a support task, not a Daily Scrum requirement.

* B: Facilitation is optional, only if requested.

* C: Burndown charts aren't mandated; this isn't their purpose.

NEW QUESTION # 26

Who updates work remaining during the Sprint? (Choose the best answer)

- A. Product Owner
- **B. Developers**
- C. Scrum Master
- D. Senior Executives

Answer: B

Explanation:

The Developers own the Sprint Backlog and update it as work progresses. The Scrum Guide states: "The Sprint Backlog is a plan by and for the Developers... As new work is required, the Developers add it to the Sprint Backlog. As work is performed or completed, the estimated remaining work is updated."

* A: The Scrum Master facilitates, not updates.

* B: Correct-the Developers manage it.

NEW QUESTION # 27

Which statement is least accurate when providing a definition of "Done"? (Choose the best answer)

- A. It may vary depending on the project
- **B. It is defined by the Scrum Master**
- C. It becomes more complete over time
- D. It is the exit criteria to determine whether a Product Backlog item is complete

Answer: B

Explanation:

The Definition of "Done" is a team or organizational standard, not the Scrum Master's sole responsibility. The Scrum Guide states: "If it is not an organizational standard, the Scrum Team must create a Definition of Done appropriate for the product."

* A: Accurate-it defines completion.

* B: True-it can differ by context or product.

* C: Least accurate-the Scrum Team or organization defines it, not just the Scrum Master.

NEW QUESTION # 28

.....

With CASPO-001 study engine, you will get rid of the dilemma that you work hard but cannot improve.
