NEW QUESTION # 31
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have an Azure Active Directory (Azure AD) tenant that syncs to an Active Directory forest.
You discover that when a user account is disabled in Active Directory, the disabled user can still authenticate to Azure AD for up to 30 minutes.
You need to ensure that when a user account is disabled in Active Directory, the user account is immediately prevented from authenticating to Azure AD.
Solution: You configure conditional access policies.
Does this meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:
Azure Active Directory (Azure AD) Pass-through Authentication allows your users to sign into both on-premises and cloud-based applications using the same passwords. It uses a lightweight on-premises agent that listens for and responds to password validation requests. If disabled user can not login.

Task 9

You need to ensure that when users in the Sg-Operations group go to the My Apps portal a tab named Operations appears that contains only the following applications:

* Unkedln

* Box

Answer:

Explanation:

See the Explanation for the complete step by step solution

Explanation:

To ensure that users in the Sg-Operations group see a tab named "Operations" containing only LinkedIn and Box applications in the My Apps portal, you can create a collection with these specific applications. Here's how to do it:

Sign in to the Microsoft Entra admin center:

Make sure you have one of the following roles: Global Administrator, Cloud Application Administrator, Application Administrator, or owner of the service principal.

Navigate to App launchers:

Go to Identity > Applications > Enterprise applications.

Under Manage, select App launchers.

Create a new collection:

Click on New collection.

Enter "Operations" as the Name for the collection.

Provide a Description if necessary.

Add applications to the collection:

Select the Applications tab within the new collection.

Click on + Add application.

Search for and select LinkedIn and Box applications.

Click Add to include them in the collection.

Assign the collection to the Sg-Operations group:

Select the Users and groups tab.

Click on + Add users and groups.

Search for and select the Sg-Operations group.

Click Select to assign the collection to the group.

Review and create the collection:

Select Review + Create to check the configuration.

If everything is correct, click Create to finalize the collection.

By following these steps, when users in the Sg-Operations group visit the My Apps portal, they will see a new tab named "Operations" that contains only the LinkedIn and Box applications1.
