- A. Lead
- B. Campaign
- C. Contact
- D. Case
- E. Opportunity

Answer: C,D,E

NEW QUESTION # 164

A Financial Services Cloud (FSC) administrator is assigning permission set licenses to users, including personal bankers. Which permission set license is recommended for this set of users?

- A. FSC Standard permission set license
- B. FSC Basic permission set license
- C. FSC Extension permission set license
- D. FSC Foundations permission set license

Answer: A

Explanation:

Reference: Financial Services Cloud Permission Set Licenses - Salesforce Explanation: Permission set licenses are a way to grant additional permissions and access settings to users based on their job function or role. Permission set licenses can extend the functionality of the user's existing license type without changing it. Financial Services Cloud provides four permission set licenses that correspond to different user personas and use cases:

FSC Foundations: This permission set license grants access to basic Financial Services Cloud features, such as Client Segmentation, Relationship Groups, Relationship Map, Financial Accounts, Financial Goals, and Financial Summary. This permission set license is suitable for users who need to view and manage client data and relationships, such as personal bankers or service representatives.

FSC Basic: This permission set license grants access to advanced Financial Services Cloud features, such as Action Plans, Interaction Summaries, Interaction Participants, Financial Deals, Financial Deal Participants, and Record Alerts. This permission set license is suitable for users who need to track and execute client interactions and transactions, such as advisors or specialists.

FSC Extension: This permission set license grants access to additional Financial Services Cloud features that are not included in the other permission set licenses, such as Household Rollups and Compliant Data Sharing.

This permission set license is suitable for users who need to perform complex calculations or comply with data regulations, such as analysts or compliance managers.

FSC Standard: This permission set license grants access to all Financial Services Cloud features that are included in the other permission set licenses. This permission set license is suitable for users who need full access and functionality of Financial Services Cloud, such as super users or administrators.

NEW QUESTION # 165

What 2 considerations should the Salesforce Admin review before implementing Lightning Flows?

- A. Lightning flow for FSC is not available for the Individual Object Model
- B. Flow screen input components can only be used in FSC Lightning Flow Templates
- C. The Flow users require a flow permission set license
- D. The Flow users must have access to the underlying objects and fields that are included in that process

Answer: A,D

NEW QUESTION # 166

When importing data, what happens if some records do NOT met the data validation criteria?

- A. Import process ignores the data validation criteria
- B. Import process aborts when it encounters the first invalid record
- C. Import process requires user authorization to import the invalid records
- D. Import process fails only for the records with invalid data.

Answer: D
