NEW QUESTION # 222

DreamHouse Realty (DR) wants to ensure that its data is protected. There have been several recent attempts to phish employees. What should DR do to help ensure that the user that is logged in is the right user when the running user is trying to view reports and dashboards?

- A. Require MFA when users need to view and export dashboards and reports.
- B. Set up an authentication provider for reports and dashboards.
- C. Require a Username, Password, and Security Token when logging in.
- **D. Require a high assurance session when exporting or printing reports and dashboards.**

Answer: D

Explanation:

To help ensure that users who are viewing reports and dashboards are who they say they are, DR should require a high assurance session when exporting or printing reports and dashboards. A high assurance session requires users to verify their identity using multi-factor authentication before accessing sensitive data or functionality in Salesforce.
