PRINCE2 Practitioner Certification Exam Syllabus	
Unit	Content
Overview, Principles and Tailoring PRINCE2 to the Project Environment	
Understand terms and concepts relating to the overview, principles and tailoring PRINCE2 to the project environment, and explain how these are applied across projects with a project. Specifically to identify the:	- Difference between embedding and tailoring PRINCE2 - Context of a customer/supplier environment and how it affects the application of the themes, processes and management products within a project
Business Case (BC) Theme	
Understand how the Business Case theme relates to the principles, the approach to the treatment of this theme, how it is applied throughout the project life-cycle and the responsibilities involved. Specifically to identify:	- The recommended composition of a: 1. Business Case, and in which process(es) it is developed, verified, maintained and confirmed and which roles are responsible for this 2. Benefits Review Plan, and in which process(es) it is developed, used and reviewed and which roles are responsible for this - The relationship between a program's business case and a project's Business Case
Organization (OI) Theme	
Understand how the Organization theme relates to the principles, the approach to the treatment of this theme, how it is applied throughout the project life-cycle and the responsibilities involved. Specifically to identify:	- How the four levels of the project management structure apply to the process model - The relationship between the Communication Management Strategy and other products and themes - The recommended composition of a Communication Management Strategy, in which process(es) it is developed, used and reviewed and which roles are responsible for this
Be able to apply and tailor the relevant aspects of the Organization theme to a project scenario, when creating products or making decisions related to this theme, in any or all of the processes. Specifically to:	- Identify an appropriate project management team structure and role descriptions, including acceptable role consolidations or sharing - Identify appropriate information, using the recommended composition, for inclusion in a Communication Management Strategy
Be able to identify, analyse and distinguish between appropriate and inappropriate application of the Organization theme throughout the life-cycle of a project scenario. Specifically to analyse:	- Whether the following products, using the recommended composition, are fit for purpose, with reasons, and whether the correct roles have been involved in their development and maintenance throughout the life of a project, including: 1. Project management team structure

201. Frage

Which of the following risk responses can be used for either an opportunity or a threat?

- A. Reject
- B. Enhance
- C. Reduce
- **D. Share**

Antwort: D

202. Frage

The Work Package has been in progress for four weeks and has four weeks remaining. The Information Technology Team Manager is concerned that he has no idea what the service provider is doing about preparing to accept the transfer of Information Technology equipment and staff. He is uncertain about what should be happening.

Which 2 initial actions should the Team Manager take in response to this concern?

- A. Check the Communication Management Strategy to ascertain what records of communications with the service provider are required.
- **B. Raise an issue to notify the Project Manager of this concern.**
- C. Notify the Project Manager by raising an Exception Report.
- **D. Check the Information Technology Work Package for development interfaces to see whether the service provider Team Manager should have been liaising with the Information Technology team during development.**
- E. Raise this concern in the next fortnightly Checkpoint Report.

Antwort: B,D

Begründung:
Explanation

203. Frage

Extract from the Project Product Description (with errors)

□ Which 2 statements apply to the Customer's quality expectations section?

- **A. Delete entry 20 because this is an expected benefit and should be recorded in the Business Case.**
- B. Delete entry 16 because this should be shown on the Product Description for the photos.
- **C. Delete entry 17 because this is beyond the scope of this project.**
- D. Delete entry 19 because this should appear in the Product Description for the calendar and not the Project Product Description.
- E. Delete entry 18 because standards should NOT be shown here.

Antwort: A,C

204. Frage

Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager
