## Quiz 2026 2V0-11.25: VMware Cloud Foundation 5.2 Administrator Authoritative Test Preparation

You can also use the VMware Cloud Foundation 5.2 Administrator PDF format using smartphones, tablets, and laptops. Since the PDF format of real dumps questions is portable, you can access it from any place in free time. The VMware Cloud Foundation 5.2 Administrator web-based practice exam can be easily taken from every browser and operating system without installing additional software. The desktop VMware Cloud Foundation 5.2 Administrator practice exam software comes with all specs of the VMware 2V0-11.25 web-based version but it works offline only on Windows computer or laptop.

## VMware Cloud Foundation 5.2 Administrator Sample Questions (Q49-Q54):

### NEW QUESTION # 49

What is the recommended method for IP address allocation for the management interface of VMware ESXi hosts in a VMware Cloud Foundation (VCF) environment?

- A. Static IP address assigned using VMware NSX IP Pools
- B. **Static IP addresses assigned manually**
- C. Dynamic IP addresses assigned via DHCP without any reservations
- D. Dynamic IP addresses assigned via DHCP with a reservation based on MAC address

**Answer: B**

Explanation:

As per the VMware Cloud Foundation 5.2 official documentation (Design and Configuration Guides), it is a best practice and requirement to configure ESXi management interfaces in the management domain with static IP addresses and host names.

Automated or dynamic methods-such as DHCP, even with reservations-are not supported for this purpose. Instead, each ESXi host's management network (i.e., the VMkernel management interface) must be manually assigned a unique and consistent static IP. Here is the exact extract from the official VMware technical documentation:

"Allocate statically assigned IP addresses and host names across all ESXi hosts in the default management cluster. Ensures stability across the VMware Cloud Foundation instance, makes it simpler to maintain and track, and to implement a DNS configuration."

**NEW QUESTION # 50**

What is the first step to take when updating the vSAN database in a VMware Cloud Foundation environment?

- A. Place the vSAN cluster in maintenance mode
- B. Download the latest HCL database from VMware
- C. Check the VMware Compatibility Guide for supported versions
- D. **Backup the vSAN database**

**Answer: D**

Explanation:

The first step when updating the vSAN database (or performing any update to the vSAN environment) is to back up the vSAN database. This ensures that if any issues arise during the update process, the administrator can restore the environment to a previous state. This step is crucial to ensure data protection and prevent data loss.

**NEW QUESTION # 51**

A company plans to enhance its DevOps practices by implementing Kubernetes as part of a VMware Cloud Foundation (VCF) environment.

Which three steps must an administrator perform to achieve this integration? (Choose three.)

- A. **Enable IaaS control plane on existing vSphere clusters.**
- B. Deploy HCX to migrate existing VMs to Kubernetes.
- C. Configure Aria Automation to automate the deployment of Kubernetes clusters.
- D. **Deploy NSX to manage the networking for Kubernetes clusters.**
- E. **Configure storage policies for Kubernetes cluster namespace consumption.**

**Answer: A,D,E**

Explanation:

You must enable the IaaS control plane (Workload Management/vSphere Supervisor) on your vSphere clusters via SDDC Manager to provide the Kubernetes control plane.

Defining storage policies ensures that your Kubernetes Namespaces can consume persistent storage that meets application requirements.

NSX must be deployed (and an Edge cluster available) to provide networking, load balancing, and security services for the Kubernetes Pods and control plane.

**NEW QUESTION # 52**

What is the primary purpose of configuring VM storage policies in a VMware vSphere environment?

- A. **To enforce specific storage requirements such as performance, availability, and redundancy.**
- B. To configure CPU and memory reservations for VMs.
- C. To automate the backup of virtual machines.
- D. To manage network traffic between VMs.

**Answer: A**

Explanation:

The primary purpose of configuring VM storage policies in a VMware vSphere environment is to enforce specific storage requirements such as performance, availability, and redundancy. These policies help ensure that virtual machines are placed on datastores that meet the desired service levels and characteristics.

### NEW QUESTION # 53

An organization is planning to manage a diverse set of databases across multiple VMware Cloud Foundation environments.

Which three capabilities of Data Services Manager would help in managing these databases efficiently?

(Choose three.)

- A. Automated database provisioning and deployment.
- B. Integration with vSAN for optimized storage management
- C. Policy-based backup and recovery for databases.
- D. Centralized monitoring and alerting for all managed databases.
- E. Automated VM migration between on-premises and cloud environments.

**Answer: A,C,D**

Explanation:

Centralized monitoring and alerting for all managed databases: Data Services Manager enables centralized monitoring and alerting for databases across multiple environments, providing visibility and proactive management.

Policy-based backup and recovery for databases: Data Services Manager allows for the implementation of backup and recovery policies to ensure the safety and availability of databases.

Automated database provisioning and deployment: With Data Services Manager, administrators can automate the deployment and provisioning of databases, streamlining the management process.

### NEW QUESTION # 54

.....

With our 2V0-11.25 exam materials, you will have more flexible learning time. With our 2V0-11.25 practice prep, you can flexibly arrange your study time according to your own life. You don't need to be in a hurry to go to classes after work as the students who take part in a face-to-face class, and you also never have to disrupt your schedule for learning. Just use your computer, IPAD or phone, then you can study with our 2V0-11.25 Practice Questions.
