## How to Prepare for PRINCE2-Foundation: PRINCE2 Foundation Exam

### Preparation Guide for PRINCE2-Foundation: PRINCE2 Foundation Exam

#### Introduction

PRINCE2 is one of a structured technique of project management and certification program for practitioners. It highlights the division of tasks into controlled and achievable steps. In several places PRINCE2 is highly popular and is accepted internationally including the United Kingdom, the countries of Western Europe and Australia. It also offers its training in various languages. The accreditation of the PRINCE2 Foundation expires after 3 years. To keep your certificate, either you may take the PRINCE2 Foundation Exam before the expiry date or retain your certificate with a CPD points and digital inscription. Project management has enormous worldwide market needs and became a PRINCE2 certified expert with a variety of project management technology and know-how. In this guide, all parts of the PRINCE2-Foundation practice examinations and **PRINCE2-Foundation exam dumps** will be covered.

Free4Torrent provides the most accurate and real PRINCE2 PRINCE2-Foundation Exam Questions. These PRINCE2 PRINCE2-Foundation practice test questions will assist you in better preparing for the final PRINCE2 PRINCE2-Foundation exam.

## PRINCE2 7 Foundation written Exam Sample Questions (Q200-Q205):

### NEW QUESTION # 200

According to the 'defined roles and responsibilities' principle, how many categories of stakeholder interest need to be represented in the project management team?

- A. One
- B. Two
- **C. Three**
- D. Six

**Answer: C**

Explanation:

According to the 'defined roles and responsibilities' principle in PRINCE2, three categories of stakeholder interest need to be represented in the project management team: business (represented by the Executive), user (represented by the Senior User), and supplier (represented by the Senior Supplier). This ensures that the key perspectives on the project's outputs, outcomes, and processes are fully integrated into decision-making and governance structures.

PRINCE2 Foundation Manual

#### **NEW QUESTION # 201**

Who does the Team Manager report to and take direction from?

- A. Project Support
- B. Project Assurance
- **C. Project Manager**
- D. Project Board

**Answer: C**

#### **NEW QUESTION # 202**

Where should individual quality control activities, such as testing and reviews, be scheduled within a PRINCE2 project?

- A. As acceptance criteria in the project product description
- **B. In stage or team plans to allow more accurate scheduling**
- C. In the quality management approach to define quality standards
- D. As quality tolerances in product descriptions

**Answer: B**

Explanation:

The correct answer is B because individual quality control activities, such as tests, inspections, reviews, demos, or quality checks, need time, resources, dependencies, and dates. Therefore, they should be scheduled in the relevant stage plan or team plan so the project manager and team manager can manage the work accurately.

Option A is incorrect because quality tolerances define allowable variation, not the timing of individual quality activities. Option B is incorrect because the quality management approach defines the overall approach, standards, techniques, roles, and responsibilities, but it is not the detailed schedule for each individual test or review. Option C is incorrect because acceptance criteria define what must be met for acceptance; they do not schedule the quality control work.

PRINCE2 planning guidance includes identifying activities and dependencies after defining products, and quality-checking activities should be considered when identifying activities. PRINCE2 also recognizes that quality checking, such as reviews, demos, or tests, can significantly affect how a project is planned.

#### **NEW QUESTION # 203**

Which is a responsibility of the project board?

- **A. To ensure effective communication with external stakeholders**
- B. To ensure production of the project's outputs
- C. To manage the team managers and project support
- D. To implement the change control approach

**Answer: A**
