## CHFM Lab Questions - Knowledge CHFM Points

IT exam become more important than ever in today's highly competitive world, these things mean a different future. Medical Professional CHFM exam will be a milestone in your career, and may dig into new opportunities, but how do you pass Medical Professional CHFM Exam? Do not worry, help is at hand, with GuideTorrent you no longer need to be afraid. GuideTorrent Medical Professional CHFM exam questions and answers is the pioneer in exam preparation.

## Medical Professional Certified Healthcare Facility Manager (CHFM) certification exam Sample Questions (Q51-Q56):

### NEW QUESTION # 51

According to NFPA 70, what is the minimum working clearance required for enclosed electrical equipment with 600 volts or less?

- A. 36 in.
- B. 48 in.
- C. 24 in.
- D. 18 in.

Answer: A

Explanation:

NFPA 70 (NEC) Article 110.26(A)(1) establishes the depth of working space in front of electrical equipment.

For systems 0-150 volts to ground, the minimum depth is 3 ft (36 in.); for 151-600 volts, the required depth is 3-4 ft depending on the condition (exposed live parts and grounded surfaces). In healthcare facilities, unless a more stringent "condition" applies, the baseline minimum clearance encountered for 600 V or less is 36 inches.

References:

NFPA 70, National Electrical Code, Article 110.26(A)(1) Working Space-Depth.

American Hospital Association (AHA), CHFM Candidate Handbook - Compliance domain (electrical code application).

### NEW QUESTION # 52

Which of the following types of injuries is most likely to occur during an MRI scanning process?

- A. missile projection
- B. radiation overexposure
- C. permanent hearing loss
- D. visual impairment

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

MRI (Magnetic Resonance Imaging) scanners do not use ionizing radiation; instead, they use powerful magnetic fields and radiofrequency energy. The primary safety hazard is the projectile effect (missile effect), where ferromagnetic objects are pulled violently into the scanner bore. This is one of the most well-documented risks in MRI safety and is a leading cause of MRI accidents.

\* Correct Answer (D. missile projection): Strong magnetic fields can accelerate ferromagnetic objects, causing serious patient/staff injury or equipment damage.

\* Incorrect Options:

\* A. visual impairment: Not a recognized risk from MRI scanning itself.

\* B. radiation overexposure: MRI does not use ionizing radiation, unlike CT or X-ray.

\* C. permanent hearing loss: While MRI noise can be damaging without ear protection, the most likely injury of those listed is projectile accidents.

Relevance to CHFM: This falls under Compliance and Safety domains. Facility managers must ensure MRI safety zones, access control, ferromagnetic detection systems, and staff training to prevent accidents.

References:

ACR (American College of Radiology): MRI Safety Guidelines - Projectile/missile effect identified as the greatest risk.

NFPA 99: Health Care Facilities Code, Chapter 15 - MRI safety environment requirements.

CHFM Candidate Handbook - Compliance with clinical safety codes and standards.

### NEW QUESTION # 53

Which of the following must be included in a written fire procedure or plan?

- A. posted evacuation routes
- B. locations of fire extinguishers
- C. listing of the pull-station locations
- D. method for notifying the fire department

**Answer: D**

Explanation:

Written fire procedures must include the method for promptly notifying the fire department or emergency response agency, ensuring immediate response to protect life and property. Evacuation routes and equipment locations are important operational elements, but the mandatory code requirement is a defined notification procedure.

References: NFPA 101, Section 4.7; Joint Commission Environment of Care Standards, EC.02.03.01.

### NEW QUESTION # 54

The Resource Conservation and Recovery Act (RCRA) was enacted to protect public health from

- A. improper disposal of used needles.
- **B. improper management of hazardous wastes.**
- C. hospital incinerator emissions.
- D. improper medical waste management.

**Answer: B**

Explanation:

The RCRA (1976) governs the proper management of hazardous waste from generation to disposal ("cradle to grave"). While healthcare organizations often think of sharps or medical waste, RCRA is broader, addressing hazardous chemicals, solvents, and pharmaceuticals. Medical waste is regulated under other federal and state rules.

References: U.S. Environmental Protection Agency, RCRA Overview; CHFMM Handbook - Compliance domain.

#### **NEW QUESTION # 55**

Engineering controls required by the CDC for TB isolation rooms include

- A. respirator fit testing of engineering employees.
- B. engineering departmental policies and procedures.
- C. use of personal protective equipment.
- **D. negative air pressure of rooms.**

**Answer: D**

Explanation:

CDC Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health-Care Facilities (1994, reaffirmed in later updates) require negative pressure isolation rooms as a primary engineering control.

This ensures airflow moves into the room and is exhausted to the outside or through HEPA filtration. PPE and respirator fit testing are administrative or personal controls, not engineering.

References: CDC Guidelines for TB Control; NFPA 99; ASHRAE 170.

#### **NEW QUESTION # 56**

.....

As we all know, famous companies use certificates as an important criterion for evaluating a person when recruiting. The number of certificates you have means the level of your ability. CHFMM practice materials are an effective tool to help you reflect your abilities. We also hire a team of experts, and the content of CHFMM question torrent is all high-quality test guidance materials that have been accepted by experienced professionals. CHFMM practice materials will be the most professional and dedicated tutor you have ever met.

**CHFMM Lab Questions:** <https://www.guidetorrent.com/CHFMM-pdf-free-download.html>

So we create the most effective and accurate CHFMM exam braindumps for our customers and always consider carefully for our worthy customer, You can totally rely on our CHFMM learning material for your future learning path, Medical Professional CHFMM Exam Practice Our Product will help you not only pass in the first try, but also save your valuable time, The CHFMM is not very difficult with our practice material.

Their salary also increases many folds, Timelines with One Event, So we create the most effective and accurate CHFMM Exam Braindumps for our customers and always consider carefully for our worthy customer.

### **How GuideTorrent will Help You in Passing the CHFMM Exam?**

You can totally rely on our CHFMM learning material for your future learning path, Our Product will help you not only pass in the first try, but also save your valuable time.

The CHFMM is not very difficult with our practice material, Therefore, you can have enough time to make a full preparation for the IT Medical Professional Exams CHFMM examination.
