If you want to change your job it is also good for you.

HP Selling HPE Aruba Networking Solutions Sample Questions (Q34-Q39):

NEW QUESTION # 34

A senior IT manager tells you that she wants IT staff members to spend less time troubleshooting issues so they have more time to focus on new initiatives. How can HPE Aruba Networking deliver the senior IT manager's desired outcome?

- A. HPE Aruba Networking ClearPass monitors network devices' performance and automatically notifies IT admins of performance issues.
- **B. HPE Aruba Networking Central with AI for Networking accelerates troubleshooting by providing insights and recommendations that help remedy issues.**
- C. HPE Aruba Networking Edge-to-Cloud solutions rely on AI to automate the onboarding of devices.
- D. HPE Aruba User Experience Insight (UXI) helps IT determine why data center applications are not performing as well as they should.

Answer: B

Explanation:

The correct answer is B because Aruba Central with AI for Networking leverages machine learning and AI-powered insights to accelerate troubleshooting, provide root-cause analysis, and deliver prescriptive recommendations. This reduces the time IT staff spends on manual problem-solving, freeing them to focus on innovation and strategic initiatives.

Relevant extracts from official HPE Aruba Networking documentation:

* "Aruba Central with AI Ops accelerates troubleshooting by automatically identifying anomalies, pinpointing root causes, and providing prescriptive recommendations."

* "By reducing mean time to resolution (MTTR), Aruba Central enables IT teams to shift focus from reactive firefighting to proactive innovation."

* "AI Insights and AI Assist capabilities within Central simplify operations by automating repetitive tasks and providing contextual recommendations to resolve issues quickly."

* "This ensures that network performance issues are addressed before they affect users, minimizing downtime and IT overhead."

Why the other options are incorrect:

* A ClearPass focuses on access control and policy enforcement, not AI-driven troubleshooting acceleration.

* BUXI provides valuable end-user experience monitoring but does not deliver AI-driven root cause analysis across the infrastructure.

* C Automated onboarding is not the primary driver of reducing troubleshooting time—it's about operational AI for problem detection and resolution in Central.

NEW QUESTION # 35

What is one way that HPE Aruba Networking Central Client Insights helps customers minimize risks?

- A. It integrates with HPE Aruba Networking Fabric Composer to automatically configure the correct distributed firewall policies for a particular customer's environment.
- B. It acts as a central repository for security events, logs, metrics, and other information collected by HPE Aruba Networking devices and third-party security solutions.
- C. It enables zero trust security for a remote workforce by replacing the traditional virtual private network (VPN).
- **D. It helps customers implement a ZTNA strategy by applying least-privilege access controls to each device, based on high confidence in device.**

Answer: D

NEW QUESTION # 36

What is a primary advantage of cloud-managed networking?

- A. Eliminates wireless networking
- B. Prevents automation
- **C. Centralized management**
- D. Requires more hardware

Answer: C

Explanation:

Cloud platforms like Aruba Central allow management of networks from a single dashboard.

NEW QUESTION # 37

Which business outcome is a high priority for most Chief Information Security Officers (CISO)?

- A. Planning network security so that they can assume no breach will ever occur.
- B. Ensuring that employees can only access resources from within the corporate campus.
- C. Allowing network admins to use their preferred security monitoring tools.
- **D. Improving operational continuity by minimizing risks and attack surfaces.**

Answer: D

Explanation:

The correct answer is C because CISOs are primarily focused on reducing business risk, minimizing the attack surface, and ensuring operational continuity. Instead of assuming that breaches will never occur, modern security strategies such as Zero Trust and SASE aim to mitigate risks, contain breaches, and protect critical business operations to maintain availability and resilience.

NEW QUESTION # 38

Which Aruba solution is targeted primarily at small businesses?

- A. Aruba Central
- **B. Aruba Instant On**
- C. Aruba CX
- D. Aruba EdgeConnect

Answer: B

Explanation:

Aruba Instant On is designed for small businesses needing simple deployment and cloud-based management.
