**Answer: B**

**NEW QUESTION # 105**
Which three things must an admin keep in mind when creating Action Plan Templates'5

- A. An Action Plan is a run-time instance of the template that allows you to automate the sequence of the tasks you defined in the template.
- B. When creating Action Plan Templates with the UI. you can designate a plan owner different from the plan creator.
- C. The Action Plan Template permission set must be added to all users that want to use Action Plans.
- D. When you create an Action Plan from a template for a specific target record, item deadlines are calculated using the start date and date offset " defined in the Action Plan Template
- E. When you create an Action Plan from a template for a specific target record, the plan creator can choose whether the date calculation is based on calendar or working days.

**Answer: A,D,E**

Explanation:
Explanation
The following things must be kept in mind when creating Action Plan Templates:
When creating Action Plan Templates with the UI, you can designate a plan owner different from the plan creator. The plan owner is the user who is responsible for executing the tasks in the Action Plan.
The plan creator is the user who creates the Action Plan Template or the Action Plan from the template.
You can assign a different plan owner for each Action Plan Template or Action Plan.
An Action Plan is a run-time instance of the template that allows you to automate the sequence of the tasks you defined in the template. An Action Plan Template is a reusable blueprint that defines the tasks, owners, and deadlines for a common business process or service request. An Action Plan is a specific implementation of the template that applies to a particular target record, such as an account, contact, or opportunity.
When you create an Action Plan from a template for a specific target record, item deadlines are calculated using the start date and date offset defined in the Action Plan Template. The start date is the date when you create the Action Plan from the template. The date offset is the number of days before or after the start date when each task is due. You can specify different date offsets for each task in the template. Verified References: : Salesforce Help Article 2 : Salesforce Help Article 3 : Salesforce Help Article 4

**NEW QUESTION # 106**
A major Japanese bank is expanding geographically and opening additional branches in Asia. As such, they hired a regional consulting firm to implement Financial Services Cloud (FSC) locally.
What are the two expectations from implementing multi language features in FSC?

- A. In Seoul, South Korea, the branch managers will be reviewing their FSC dashboards every morning in Korean, while their

colleagues in " Shanghai, China, will be doing so in Chinese.
- B. Bankers in Japan have been accessing FSC in Japanese, but the new bankers in China will be accessing FSC in Chinese.
- C. In Tokyo branches, the names of the Account, Prospect & Contact are in Japanese, but the package Advisor, Personal Banker, D Relationship Manager, and Client Associate profiles are in English.
- D. Referrals in Singapore and Hong Kong will be shared in English, but in Macau, referrals will be shared in Portuguese.

**Answer: A,B**

Explanation:
Explanation
The following expectations are from implementing multi language features in FSC:
Bankers in Japan have been accessing FSC in Japanese, but the new bankers in China will be accessing FSC in Chinese. This expectation means that FSC supports multiple languages and allows users to choose their preferred language for their user interface and data display.
In Seoul, South Korea, the branch managers will be reviewing their FSC dashboards every morning in Korean, while their colleagues in Shanghai, China, will be doing so in Chinese. This expectation means that FSC supports multiple languages for reports and dashboards and allows users to view them in their preferred language.
