

FCP_FCT_AD-7.4 Pdf Exam Dump - Valid Exam

FCP_FCT_AD-7.4 Vce Free

With over a decade's business experience, our FCP_FCT_AD-7.4 test torrent attached great importance to customers' purchasing rights all along. There is no need to worry about virus on buying electronic products. For we make endless efforts to assess and evaluate our FCP_FCT_AD-7.4 exam prep' reliability for a long time and put forward a guaranteed purchasing scheme, we have created an absolutely safe environment and our FCP_FCT_AD-7.4 Exam Question are free of virus attack. If there is any doubt about it, professional personnel will handle this at first time, and you can also have their remotely online guidance to install and use our FCP_FCT_AD-7.4 test torrent.

ValidDumps is a website that can provide all information about different IT certification exam. ValidDumps can provide you with the best and latest exam resources. To choose ValidDumps you can feel at ease to prepare your Fortinet FCP_FCT_AD-7.4 exam. Our training materials can guarantee you 100% to pass Fortinet certification FCP_FCT_AD-7.4 exam, if not, we will give you a full refund and exam practice questions and answers will be updated quickly, but this is almost impossible to happen. ValidDumps can help you pass Fortinet Certification FCP_FCT_AD-7.4 Exam and can also help you in the future about your work. Although there are many ways to help you achieve your purpose, selecting ValidDumps is your wisest choice. Having ValidDumps can make you spend shorter time less money and with greater confidence to pass the exam, and we also provide you with a free one-year after-sales service.

High Pass-Rate FCP_FCT_AD-7.4 Pdf Exam Dump offer you accurate Valid Exam Vce Free | Fortinet FCP - FortiClient EMS 7.4 Administrator

Our FCP_FCT_AD-7.4 real dumps was designed by many experts in different area, they have taken the different situation of customers into consideration and designed practical FCP_FCT_AD-7.4 study materials for helping customers save time. Whether you are a student or an office worker, we believe you will not spend all your time on preparing for FCP_FCT_AD-7.4 Exam. With our simplified information, you are able to study efficiently.

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q29-Q34):

NEW QUESTION # 29

An administrator configures ZTNA configuration on the FortiGate. Which statement is true about the firewall policy?

- A. It uses the access proxy.
- B. It only uses ZTNA tags to control access for endpoints.
- C. It defines ZTNA server.
- **D. It redirects the client request to the access proxy.**

Answer: D

Explanation:

"The firewall policy matches and redirects client requests to the access proxy VIP"<https://docs.fortinet.com/document/fortigate/7.0.0/new-features/194961/basic-ztna-configuration>

NEW QUESTION # 30

What action does FortiClient anti-exploit detection take when it detects exploits?

- A. Blocks memory allocation to the compromised application process
- B. Deletes the compromised application process
- **C. Patches the compromised application process**
- D. Terminates the compromised application process

Answer: C

Explanation:

The anti-exploit detection protects vulnerable endpoints from unknown exploit attacks. FortiClient monitors the behavior of popular applications, such as web browsers (Internet Explorer, Chrome, Firefox, Opera), Java /Flash plug-ins, Microsoft Office applications, and PDF readers, to detect exploits that use zero-day or unpatched vulnerabilities to infect the endpoint. Once detected, FortiClient terminates the compromised application process.

NEW QUESTION # 31

A company must integrate the FortiClient EMS with their existing identity management infrastructure for user authentication, and implement and enforce administrative access with multi-factor authentication (MFA).

Which two authentication methods can they use in this scenario? (Choose two answers)

- **A. SAML**
- B. TACACS
- C. LDAPS
- **D. RADIUS**

Answer: A,D

Explanation:

According to the FortiClient EMS 7.4 Administration Guide, for an organization to integrate with an identity management infrastructure while enforcing administrative access with Multi-Factor Authentication (MFA), the primary supported methods for remote administrator authentication are RADIUS and SAML.

1. RADIUS (Answer B)

* Identity Integration: FortiClient EMS allows administrators to add RADIUS servers as an authentication source under the Administration > Authentication Servers section.

* MFA Support: RADIUS is a standard protocol for enforcing MFA. In this scenario, FortiClient EMS acts as a RADIUS client to an external MFA provider (such as FortiAuthenticator, RSA Authentication Manager, or Duo).

* Workflow: When an administrator attempts to log in to the EMS console, EMS sends an Access-Request to the RADIUS server. If the provider requires MFA, it can challenge the user (via push notification or token code) before sending an Access-Accept back to EMS.

2. SAML (Answer D)

* Modern Identity Management: SAML (Security Assertion Markup Language) is the preferred method for integrating with modern cloud and on-premises Identity Providers (IdPs) like Microsoft Entra ID (formerly Azure AD), Okta, AD FS, or FortiAuthenticator.

* Native MFA Enforcement: By using SAML SSO, the authentication and MFA process are handled entirely by the IdP. The EMS server acts as the Service Provider (SP). When an admin logs in, they are redirected to the IdP, where the company's existing MFA

policies (Conditional Access, etc.) are enforced before the user is granted access back to the EMS console.

* EMS Configuration: The curriculum details specific SAML SSO configurations for various IdPs under the SAML SSO section of the Administration Guide.

3. Why Other Options are Incorrect/Insufficient

* A. LDAPS: While FortiClient EMS supports importing users from Active Directory (ADDS) via LDAP

/LDAPS for endpoint management and basic admin login, standard LDAPS does not natively support or enforce an MFA challenge-response workflow in the same integrated way that RADIUS or SAML does for administrative console access.

* C. TACACS: TACACS+ is primarily used for device administration on networking equipment (like FortiGate) and is not a listed or standard method for administrative authentication within the FortiClient EMS software documentation.

NEW QUESTION # 32

Which three features does FortiClient endpoint security include? (Choose three.)

- A. DLP
- B. L2TP
- C. Vulnerability management
- D. Real-time protection
- E. IPsec

Answer: C,D,E

Explanation:

* Understanding FortiClient Features:

* FortiClient endpoint security includes several features aimed at protecting and managing endpoints.

* Evaluating Feature Set:

* Vulnerability management is a key feature of FortiClient, helping to identify and address vulnerabilities (B).

* IPsec is supported for secure VPN connections (D).

* Real-time protection is crucial for detecting and preventing threats in real-time (E).

* Eliminating Incorrect Options:

* Data Loss Prevention (DLP) (A) is typically managed by FortiGate or FortiMail.

* L2TP (C) is a protocol used for VPNs but is not specifically a feature of FortiClient endpoint security.

References:

FortiClient endpoint security features documentation from the study guides.

NEW QUESTION # 33

Which two statements are true about ZTNA? (Choose two.)

- A. ZTNA manages access through the client only.
- B. ZTNA provides a security posture check.
- C. ZTNA manages access for remote users only.
- D. ZTNA provides role-based access.

Answer: B,D

Explanation:

ZTNA (Zero Trust Network Access) is a security architecture that is designed to provide secure access to network resources for users, devices, and applications. It is based on the principle of "never trust, always verify," which means that all access to network resources is subject to strict verification and authentication.

Two functions of ZTNA are:

ZTNA provides a security posture check: ZTNA checks the security posture of devices and users that are attempting to access network resources. This can include checks on the device's software and hardware configurations, security settings, and the presence of malware.

ZTNA provides role-based access: ZTNA controls access to network resources based on the role of the user or device. Users and devices are granted access to only those resources that are necessary for their role, and all other access is denied. This helps to prevent unauthorized access and minimize the risk of data breaches.

NEW QUESTION # 34

.....

We are aware that taking the Fortinet FCP_FCT_AD-7.4 certification exam may be quite expensive. To save you money, we provide you with up to 1 year of free FCP_FCT_AD-7.4 exam questions updates. Moreover, you can check out the features of our ValidDumps's FCP_FCT_AD-7.4 practice exam material by downloading a free demo. We provide you with a Free FCP_FCT_AD-7.4 Exam Questions demo to assist you in making a decision that is well-informed. We are sure that by preparing with updated our Fortinet FCP_FCT_AD-7.4 exam questions you can get success and save both time and money.

Valid Exam FCP_FCT_AD-7.4 Vce Free: https://www.validdumps.top/FCP_FCT_AD-7.4-exam-torrent.html

The answer is using FCP_FCT_AD-7.4 practice materials, They provide strong backing to the compiling of the FCP_FCT_AD-7.4 exam questions and reliable exam materials resources, The company is preparing for the test candidates to prepare the FCP_FCT_AD-7.4 exam guide professional brand, designed to be the most effective and easiest way to help users through their want to get the test FCP_FCT_AD-7.4 certification and obtain the relevant certification, With FCP_FCT_AD-7.4 exam dumps from ValidDumps, we provide guaranteed success rate for the Fortinet FCP_FCT_AD-7.4 exam.

Fireworks At Work: Creating and Saving a Custom FCP_FCT_AD-7.4 Button Effect, Chapter XX Data Center Network Architectures, The answer is using FCP_FCT_AD-7.4 practice materials, They provide strong backing to the compiling of the FCP_FCT_AD-7.4 Exam Questions and reliable exam materials resources.

FCP_FCT_AD-7.4 perp training & FCP_FCT_AD-7.4 testking vce & FCP_FCT_AD-7.4 valid torrent

The company is preparing for the test candidates to prepare the FCP_FCT_AD-7.4 exam guide professional brand, designed to be the most effective and easiest way to help users through their want to get the test FCP_FCT_AD-7.4 certification and obtain the relevant certification.

With FCP_FCT_AD-7.4 exam dumps from ValidDumps, we provide guaranteed success rate for the Fortinet FCP_FCT_AD-7.4 exam, We are never complacent about our achievements, so all content of our FCP_FCT_AD-7.4 exam questions are strictly researched by proficient experts who absolutely in compliance with syllabus of this exam.
