P.S. Free & New PDII dumps are available on Google Drive shared by Test4Sure: <https://drive.google.com/open?id=1k6grE4Wn59NLex2NuIK0I5I6y9q8IcnY>

It is a matter of common sense that pass rate of a kind of PDII exam torrent is the only standard to testify whether it is effective and useful. I believe that you already have a general idea about the advantages of our PDII exam question, but now I would like to show you the greatest strength of our PDII Guide Torrent --the highest pass rate. According to the statistics, the pass rate among our customers who prepared the exam under the guidance of our PDII guide torrent has reached as high as 98% to 100% with only practicing our PDII exam torrent for 20 to 30 hours.

Salesforce PDII Exam is a challenging yet rewarding certification that validates advanced knowledge and skills in Salesforce development. It is a key credential for developers who want to advance their careers in Salesforce and work on complex projects that require advanced skills and knowledge. With the right preparation and dedication, candidates can pass the exam and join the ranks of certified Salesforce experts.

If there is any issue while using our PDII updated exam product, contact our customer support. We will resolve your issues related to the PDII practice material as soon as possible. For quick and successful Platform Developer II test preparation, download PDII Real Exam dumps today.

Salesforce Platform Developer II Sample Questions (Q67-Q72):

NEW QUESTION # 67

Customer billing data must be added and updated into Salesforce from a remote system on a weekly basis.

Additionally, customer activity information must be extracted from Salesforce and put it into an on-premises data warehouse on a weekly basis.

Which approach should be used to import data into Salesforce and export data out of Salesforce, taking into consideration that these imports and exports can interfere with end-user operations during business hours and involve large amounts of data?

- A. Salesforce Connect to push data to and pull data from the remote systems
- B. Batch Apex, where Salesforce pushes data to and pulls data from the remote systems
- **C. Replication via third-party ETL to push data into Salesforce and pull data out in batches**
- D. Call-in directly from each remote system to Salesforce APIs to push and pull the data

Answer: C

NEW QUESTION # 68

Universal Containers uses a custom Lightning page to provide a mechanism to perform a step-by-step wizard search for Accounts. One of the steps in the wizard is to allow the user to input text into a text field, ERP Number_c, that is then used in a query to find matching Accounts.

```
erpNumber = erpNumber + '%';  
List<Account> accounts = [SELECT id, Name FROM Account WHERE  
ERP_Number__c LIKE :erpNumber]
```

Which step should be taken to resolve the issue?

- **A. Move the SOQL query to within an asynchronous process.**
- B. Mark the ERP_Nuncker = field as an external ID.
- C. Perform the SOQL query as part of a for loop.
- D. Mark the ERP_Number__c field as required.

Answer: A

Explanation:

If a SOQL query is causing performance issues due to a non-selective query on a large data volume, moving the query to an asynchronous process such as a Batch Apex or Queueable Apex can help resolve the issue.

This allows the query to run in the background without affecting the user's experience.

NEW QUESTION # 69

Universal Containers needs to integrate with a Heroku service that resizes product images submitted by users.

What are two alternatives to implement the integration and protect against malicious calls to the Heroku app's endpoint? Choose 2 answers

- **A. Create a trigger that uses an @future Apex HTTP callout passing JSON serialized data and some form of pre-shared secret key, so that the Heroku app can authenticate requests and store the resized images in Salesforce.**
- B. Create a trigger that uses an @future Apex HTTP callout passing JSON serialized data; therefore the Heroku app can automatically reply back to the callout with the resized images in Salesforce.
- C. Create a Workflow Rule with an Outbound Message allowing the Heroku app to automatically store the resized images in Salesforce
- **D. Create a Workflow Rule with an Outbound Message and select Send Session ID so that the Heroku app can use it to send the re images back to Salesforce.**

Answer: A,D

NEW QUESTION # 70

A company notices that their unit tests in a test class with many methods to create many records for prerequisite reference data are slow.

What can a developer do to address the issue?

- A. Move the prerequisite reference data setup to the constructor for the test class.
- **B. Move the prerequisite reference data setup to a @testSetup method in the test class.**
- C. Turn off triggers, flows, and validations when running tests.
- D. Move the prerequisite reference data setup to a TestDataFactory and call that from each test method,

Answer: B

Explanation:

@testSetup method improves test performance. It allows data sharing across test methods within a class, reducing redundant data creation. References: Using the testSetup Method

NEW QUESTION # 71

A developer is tasked with ensuring that email addresses entered into the system for Contacts and for a Custom Object called Survey_Response__c do not belong to a list of blocked domains. The list of blocked domains will be stored in a custom object for ease of maintenance by users. Note that the Survey_Response__c object is populated via a custom Visualforce page. What is the optimal way to implement this?

- A. Implement the logic in the Custom Visualforce page controller and call that method from an Apex trigger on Contact
- **B. Implement the logic in a helper class that is called by an Apex trigger on Contact and from the Custom Visualforce page controller**
- C. Implement the logic in an Apex trigger on Contact and also implement the logic within the Custom Visualforce page controller
- D. Implement the logic in a Validation Rule on the Contact and a Validation Rule on the Survey_Response__c object

Answer: B

NEW QUESTION # 72

.....

If you are curious or doubtful about the proficiency of our PDII preparation quiz, we can explain the painstakingly word we did behind the light. By abstracting most useful content into the PDII exam materials, they have helped former customers gain success easily and smoothly. The most important part is that all contents were being sifted with diligent attention. No errors or mistakes will be found within our PDII Study Guide.
