ISO-14001-Lead-Auditor 시험유효덤프 & ISO-14001-Lead-Auditor 시험대비 덤프공부문제

인터넷에 검색하면 PECB ISO-14001-Lead-Auditor 시험덤프공부자료가 헤아릴수 없을 정도로 많이 검색됩니다. 그중에서Pass4Test의PECB ISO-14001-Lead-Auditor제품이 인지도가 가장 높고 가장 안전하게 시험을 패스하도록 지름길이 되어드릴수 있습니다.

PECB ISO-14001-Lead-Auditor 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> Managing an ISO 14001 audit program: This section of the exam evaluates the ability of EMS auditors to manage a complete audit program. It includes planning, implementing, monitoring, and continually improving the audit program to align with organizational and compliance goals.
주제 2	<ul style="list-style-type: none"> Fundamental principles and concepts of an environmental management system: This section of the exam measures the foundational knowledge of EMS auditors and covers key principles such as environmental sustainability, continual improvement, and the process approach. It assesses understanding of how environmental management systems contribute to overall business performance and regulatory compliance.

주제 3	<ul style="list-style-type: none"> • Fundamental audit concepts and principles: This section of the exam assesses the grasp EMS auditors have on core audit principles such as integrity, fair presentation, due professional care, and evidence-based evaluation. It ensures auditors can apply these principles consistently in the audit process.
주제 4	<ul style="list-style-type: none"> • Environmental management system requirement: This section evaluates the ability of audit consultants to interpret and apply the specific requirements of ISO 14001. It focuses on understanding the structure of the standard, including context of the organization, leadership, planning, support, operations, and performance evaluation.

최신 ISO 14001 ISO-14001-Lead-Auditor 무료 샘플문제 (Q19-Q24):

질문 # 19

An organisation (ABC) plans to carry out a second-party audit of the environmental management system of a supplier (XYZ). Both, ABC and XYZ, have a certified Environmental Management System (EMS) to ISO 14001 by the same certification body.

Which one of these statements is correct?

- A. ABC should not ask permission from the certification body to carry out the audit to XYZ.
- B. ABC should request to see a copy of the last certification body audit report from XYZ.
- C. ABC should inform the certification body that it is planning to audit XYZ.
- D. ABC should invite, as an observer, an auditor of the certification body when it carries out the audit to XYZ.

정답: A

설명:

According to ISO 19011:2018 Clause 3.5 (Second-party audit):

Second-party audits are conducted directly by customers on their suppliers for contractual or commercial purposes.

There is no obligation to inform or involve the certification body in such audits unless contractually required.

Certification body audit reports are confidential to the certified organization and the certification body.

Reference: ISO 19011:2018 Clause 3.5; ISO 14001 Lead Auditor Course Guide.

질문 # 20

Whistlekleen is a national dry cleaning and laundry organisation with 50 shops. You are conducting an EMS surveillance audit of Head Office and are sampling environmental performance measurement. You find that

80 per cent of failures to meet performance criteria originate from five shops in the same region. Most of these failures relate to the release of volatile organic compounds (VOCs) that exceeds regulations. The Environmental Manager tells you that these are the oldest shops in the organisation. The cleaning equipment needs replacing but the organisation cannot afford it at the moment.

On raising the matter with senior management, you are told that there are plans to replace the equipment in these shops over the next five years.

Select two options that apply to how you should respond to the information given.

- A. Recommend that staff in the five shops should have medical check-ups due to air pollution
- B. Extend the audit plan to include the five shops
- C. Criticise the equipment replacement period as being too environmentally damaging for too long
- D. Raise an opportunity for improvement (OI) to reduce damaging emissions
- E. Determine if the local authority has been informed that the organisation is exceeding VOC emissions
- F. Evaluate whether the process for measuring environmental performance is effective

정답: E,F

질문 # 21

ABC is a large lubricant oils manufacturer located in country A. Due to tax exemption and other economic issues, they decided to move the whole plant to a neighbouring country B. They moved every single piece of the plant (equipment, systems); the new plant has the same layout, the same dimensions, the same suppliers of raw materials and the same customers. Even more, most personnel accepted to move to country B.

They operate a third-party certified EMS; the certificate was transferred to the new plant after a half-day audit from the certification

body. You are auditing ABC's EMS in the new location, representing ABC's largest customer. When interviewing the Environmental Manager (EM), you ask:

You: Can I see the plan you developed to keep under control the impact of the EMS due to the change of site?

EM: We listed all elements and processes of the EMS that might need to be changed and selected those that we considered needed a careful review and probably a revision.

Below you will find that list; select six that you consider will need to be revised.

- A. Emergencies from external conditions
- B. ABC's Environmental policy
- C. Process for assessing risks
- D. Legal requirements
- E. Maintenance of infrastructure
- F. Environmental conditions
- G. Requirements ABC chooses to comply with
- H. Roles and their responsibilities
- I. Significant environmental aspects
- J. External issues related to the context of the organisation
- K. Personnel competence

정답: A,D,F,I,J,K

질문 # 22

You are leading a recertification audit of XM, a manufacturer of cosmetics products. After the initial certification, XM moved to another site.

After the opening meeting, you are visiting the new site with the production manager (PM). The dialogue is as follows:

You: It seems that you are doing some work in the right-hand corner of the site.

PM: Yes, when we moved to this site, there was a very old, three-stories high building; it was almost empty, and we decided to demolish it and to build a new office for the administrative personnel. DEMO services are doing the job, which is almost over.

You: Do you know what the old building was used for?

PM: I was told that it was a warehouse for chemical storage, including a laboratory and toilets for the personnel. It had also a chimney, I do not know what for.

You: Did you consider it necessary to refer to some parts of the EMS for this work?

PM: No, we were busy moving all equipment and materials to the new site, we did not have time to care about something that was going to disappear.

Which four audit trail issues would you follow?

- A. Business information on DEMO
- B. DEMO's environmental policy
- C. XM's supervision of DEMO when doing the work
- D. XM's contract with DEMO to conduct the work
- E. Environmental impacts related to the demolition
- F. DEMO's quality policy
- G. Audit DEMO's head office personnel
- H. Regulatory approval for DEMO's activities

정답: C,D,E,H

설명:

According to ISO 14001:2015:

Clause 6.1.2 & 6.1.4 (Environmental aspects and planning actions): demolition impacts must be identified and controlled (C).

Clause 8.1 (Operational planning and control): control of outsourced processes (supervision and contract requirements) (B, E).

Clause 9.1.2 (Compliance obligations): regulatory approvals for demolition (H).

The subcontractor's internal policies (A, D, F, G) are generally not part of XM's EMS obligations.

Reference: ISO 14001:2015 Clauses 6.1.2, 6.1.4, 8.1, 9.1.2.

질문 # 23

Which one of the following conclusions in the audit report is not required by the certification body when deciding to grant certification?
