Free PDF 2026 C_TS414_2023: High Pass-Rate Reliable SAP Certified

Associate - SAP S/4HANA Cloud Private Edition, Quality Management Dumps Ppt

Because the C_TS414_2023 exam simulation software can simulator the real test scene, the candidates can practice and overcome nervousness at the moment of real C_TS414_2023 test. Yes. We have this style of questions. Both of our soft test engine of C_TS414_2023 exam questions have this function. You can feel free to choose them. You set timed practicing. Also if you want to write on paper, you can choose our PDF format of C_TS414_2023 training prep which is printable. The online test engine is compatible for all operate systems and can work on while offline after downloading if you don't clear the cash.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q15-Q20):

NEW QUESTION # 15

You must assign a certificate profile for outgoing certificates to a key combination. What key combination can be used without additional settings?

- A. Material/Customer, Material, Material Type
- B. Material, Customer, Material Group
- C. Customer, Material, Material Group
- D. Material/Customer, Material, Material Group

Answer: A

NEW QUESTION # 16

You post a goods receipt for a purchasing document and inspection type 01 is active in the material master.

The supplier has not provided the mandatory quality certificate. Which of the following process steps is possible? Note: There are 2 correct answers to this question.

- A. Confirmation of certificate receipt after usage decision
- B. Recording of defects
- C. Recording of inspection results
- D. Posting of the usage decision

Answer: B,C

Explanation:

For inspection type 01 (Goods Receipt) with a missing mandatory certificate (set in the quality info record, transaction QI01):

* Recording of Inspection Results (B): The inspection lot is created (status CRTD), and you can record results (transaction QE51N) even without the certificate, as this step precedes the usage decision (UD).

* Recording of Defects (D): Defects can be recorded (e.g., via QE51N or QF01) during inspection, regardless of certificate status, to document issues found.

* Confirmation of Certificate Receipt After Usage Decision (A): Certificate receipt must be confirmed before UD if mandatory (controlled by the "Certificate Check" setting); this option is not possible post- UD.

* Posting of the Usage Decision (C): UD (transaction QA11) is blocked if the certificate is mandatory and missing, as the system sets a status (e.g., CCRQ) until resolved.

Thus, "Recording of inspection results" and "Recording of defects" are the correct answers. References: SAP Help Portal - "Certificate Processing in Procurement"; SAP S/4HANA QM User Guide - "Inspection Lot Processing".

NEW QUESTION # 17

During the production inspection, which elements does the system use to determine the layout of results and defects recordings?

Note : 3 correct answer

- A. Code groups
- B. Partner profiles
- C. Report type
- D. Status profiles
- E. Confirmation profiles

Answer: A,C,E

NEW QUESTION # 18

You can assign objects to the item of a quality notification. Which of the following object categories are supported in the SAP S/4HANA standard system? Note: There are 3 correct answers to this question.

- A. Serial number
- B. Delivery item
- C. Batch
- D. Material
- E. Purchase order item

Answer: A,C,D

NEW QUESTION # 19

Which of the following can you set up in a certificate profile for outgoing quality certificates? Note: There are 2 correct answers to this question.

- A. The print sequence of characteristics
- B. The inspection operations to be executed
- C. The characteristics to be inspected
- D. The print layout

Answer: A,D

Explanation:

Certificate profiles for outgoing certificates (transaction QC01) define certificate content:

- * The Print Sequence of Characteristics (A): In the certificate profile, you set the order of characteristics (e.g., MICs or class characteristics) to appear on the certificate (SPRO > QM > Quality Certificates > Outgoing > Define Certificate Profiles).
- * The Print Layout (C): The profile links to a form (e.g., via SAPscript or Smart Forms), defining the layout of the printed certificate.
- * The Characteristics to be Inspected (B): Characteristics are selected, not inspected, within the profile; inspection occurs in lots.
- * The Inspection Operations to be Executed (D): Operations are part of plans, not certificate profiles.

Thus, "The print sequence of characteristics" and "The print layout" are the correct answers. References: SAP Help Portal - "Certificate Profiles for Outgoing Certificates"; SAP S/4HANA QM User Guide - "Quality Certificates".

NEW QUESTION # 20

.....

The C_TS414_2023 quiz torrent we provide is compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value.
