

Reliable VMware 2V0-17.25 Test Labs | 2V0-17.25 Latest Exam Book

What's more, part of that Itcertmaster 2V0-17.25 dumps now are free: <https://drive.google.com/open?id=1GGCKJZc5ZQ2MCfkU6rDHgczfNF-Vkli7>

We are so proud that we own the high pass rate of our 2V0-17.25 exam braindumps to 99%. This data depend on the real number of our worthy customers who bought our 2V0-17.25 exam guide and took part in the real exam. Obviously, their performance is wonderful with the help of our outstanding 2V0-17.25 Exam Materials. We have the definite superiority over the other 2V0-17.25 exam dumps in the market. If you choose to study with our 2V0-17.25 exam guide, your success is 100 guaranteed.

VMware 2V0-17.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Plan and Design the VMware by Broadcom Solution: This section of the exam measures the skills of Solution Designers and emphasizes the ability to plan and design VMware by Broadcom solutions. Although no testable objectives are defined here, it reinforces the importance of architectural planning and design considerations for large-scale cloud deployments.

Topic 2	<ul style="list-style-type: none"> IT Architectures, Technologies, Standards: This section of the exam measures the skills of Cloud Architects and focuses on understanding the broader context of IT architectures, common technologies, and industry standards. While it does not have testable objectives, it sets the foundation for how VMware Cloud Foundation aligns with enterprise cloud strategies.
Topic 3	<ul style="list-style-type: none"> VMware Cloud Foundation Fundamentals: This section of the exam measures the skills of Private Cloud Engineers and covers the basic building blocks of VMware Cloud Foundation. It includes the vision and use cases for private cloud, along with the value it provides to businesses. Candidates are expected to understand compute fundamentals such as deploying and managing vCenter, ESXi, clusters, and virtual machines. Storage fundamentals include configuring vSphere storage, setting up vSAN clusters, applying storage policies, and understanding resilience options. Networking fundamentals are also assessed, with a focus on configuring connectivity, fabrics, routing, and network services in a VMware environment.
Topic 4	<ul style="list-style-type: none"> Deploy, Configure, and Operate VMware Cloud Foundation (VCF): This section of the exam measures the skills of VCF Administrators and goes in-depth into deploying, configuring, and managing VMware Cloud Foundation. The deployment portion covers identifying deployment models, configuring private cloud environments, and setting up workload domains and networking. The management objectives focus on lifecycle operations such as fleet management, identity and role-based access, licensing, certificate handling, and importing existing vCenters. Operations are assessed through capabilities like monitoring health, logs, networks, and storage, along with creating dashboards, configuring alerts, and ensuring compliance. The automation portion evaluates skills in using VCF Automation for multi-tenancy, provider networking, content libraries, governance policies, and extensibility to automate business processes. It also includes knowledge of deploying Supervisor-based services within Cloud Foundation.

How Itcertmaster Make its VMware 2V0-17.25 Exam Questions Engaging?

In order to serve you better, we have a complete system if you buying 2V0-17.25 exam bootcamp from us. You can try the free demo before buying 2V0-17.25 exam materials, so that you can know what the complete version is like. If you are quite satisfied with the free demo and want the complete version, you just need to add them to card, and pay for them. You will receive your download link and password for 2V0-17.25 Exam Dumps within ten minutes after payment. We have after-service for you after buying 2V0-17.25 exam dumps, if you have any question, you can contact us by email, and we will give you reply as soon as possible.

VMware Cloud Foundation 9.0 Administrator Sample Questions (Q94-Q99):

NEW QUESTION # 94

An administrator is responsible for managing a VMware Cloud Foundation (VCF) solution. A 3-node vSAN Express Storage Architecture (ESA) cluster currently runs workloads using a storage policy configured with RAID-5. The administrator has been tasked with enabling auto-policy management in vSAN ESA.

Given the scenario, what is the minimum number of hosts required for running workloads with RAID-5?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

NEW QUESTION # 95

In VMware storage design for a vSphere environment, which of the following are commonly used datastore types?

- **A. vSAN datastores across cluster nodes**
- B. CIFS shares for hosting VM disks
- **C. VMFS datastores on block storage**

- D. NFS datastores over IP network

Answer: A,C,D

Explanation:

VMware supports VMFS (on block storage), NFS (file-based), and vSAN (distributed storage). CIFS (option C) is typically not used to host VMware virtual disks.

NEW QUESTION # 96

An administrator needs to ensure that all ESXi hosts in a cluster have a consistent configuration. Which three steps are necessary to achieve this? (Choose three.)

- A. Detach the host profile from all hosts in the cluster.
- B. Extract the host profile from the configured reference host.
- C. Configure the desired settings on an ESXi host.
- D. Manually configure each host to match the reference host settings.
- E. Attach the host profile to all hosts in the cluster.
- F. Right-click the host profile from the reference host and select duplicate host profile.

Answer: B,C,E

Explanation:

You extract a host profile from the reference host that has the desired configuration.

Before extraction, you configure the reference ESXi host with the settings you want standardized. You attach the extracted host profile to all other hosts in the cluster to enforce a consistent configuration.

NEW QUESTION # 97

An administrator is tasked with deploying several VMware ESX hosts in a new VMware environment. The administrator wants to understand the general flow of a manual ESX installation and setup process in VMware Cloud Foundation (VCF). What are the stages of the ESX deployment process?

- A. Boot from installation media Select target disk Configure management network Set root password
- B. Install vCenter Server Configure cluster settings Deploy ESX using VCF Installer Create virtual machines
- C. Hardware validation Network configuration ESX installation Join vCenter
- D. Install ESX using VCF Installer Configure host settings Perform hardware compatibility check Create datastores

Answer: A

Explanation:

Boot from installation media: The host is started from the ESXi ISO image, either via physical media, virtual media through iLO/iDRAC, or PXE boot.

Select target disk: During setup, administrators select the disk or device where ESXi will be installed.

Configure management network: After installation, the Direct Console User Interface (DCUI) is used to set up basic network parameters for the management interface (IP address, DNS, gateway).

Set root password: A secure root password is set to complete the initial setup of the host.

NEW QUESTION # 98

Which statement describes a Container Storage Interface (CSI) in vSphere Supervisor?

- A. It is a plug-in that allows providers to expose storage as persistent storage.
- B. It is a plug-in that only works with vSphere object storage.
- C. It is a plug-in that is only used for clusters which require cloud native storage.
- D. It is a plug-in that is required for ephemeral storage.

Answer: A

Explanation:

The vSphere CSI driver allows vSphere storage to be exposed as persistent storage to containerized applications running on

Kubernetes clusters. The driver implements the Kubernetes CSI specification and enables dynamic provisioning, attach/detach, and snapshot operations for persistent volumes.

NEW QUESTION # 99

.....

This is your right to have money-back guarantee, namely once but a full refund with the transcript. Some people worry about the complex refund of our 2V0-17.25 exam practice, as a matter of fact, our refunding procedures are very simple. We will immediately refund if the buyer provide failure test proof just like failure score scan or screenshots. If you have any questions about our 2V0-17.25 Preparation quiz, please contact us by online service or email, we will reply as soon as possible.
