Stop dithering and make up your mind at once, Google-Workspace-Administrator test prep will not let you down.

Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q31-Q36):

NEW QUESTION # 31
Your company has received help desk calls from users about a new interface in Gmail that they had not seen before. They determined that it was a new feature that Google released recently. In the future, you'll need time to review the new features so you can properly train employees before they see changes.
What action should you take?

- A. Apps > Google Workspace > Gmail > Uncheck "Enable Gmail Labs for my users"
- B. Device Management > Chrome > Device Settings > Stop auto-updates
- C. Company Profile > Profile > New User Features > Enable "Scheduled Release"
- D. Company Profile > Profile > New User Features > Enable "Rapid Release"

Answer: C

Explanation:
* Access Admin Console:
* Sign in to the Google Admin console.
* Navigate to Company Profile:
* Go to "Company Profile."
* Enable Scheduled Release:
* Click on "Profile."
* Find the "New User Features" section.
* Enable the "Scheduled Release" option to ensure new features are released on a scheduled basis rather than immediately.
* Inform Users:
* Communicate with users about the scheduled release and the timing of new features.
* Prepare training materials and sessions based on the upcoming features.
References:
* Manage New Features

NEW QUESTION # 32
You act as the Google Workspace Administrator for a company that has just acquired another organization. The acquired company will be migrated into your Workspace environment in 6 months. Management has asked you to ensure that the Google Workspace users you currently manage can efficiently access rich contact information in Workspace for all users. This needs to occur before the migration, and optimally without additional expenditure. What step do you take to populate contact information for all users?

- A. Prepare an uploadable file to be distributed to your end users that allows them to add the acquired company's user contact information to their personal contacts.
- B. Use the Domain Shared Contacts API to upload contact information for the acquired company's users.
- C. Bulk-upload the contact information for these users via CSV into the Google Directory.
- D. Provision and license Google Workspace accounts for the acquired company's users because they will need accounts in the future.

Answer: B

Explanation:
The Domain Shared Contacts API lets your applications get and update external contacts that are shared with all users in a Google Workspace domain. Shared contacts are visible to all users of a Google Workspace domain and all Google services have access to the contact list.

NEW QUESTION # 33
You have implemented a data loss prevention (DLP) policy for a specific finance organizational unit. You want to apply the same security policy to a shared drive owned by the finance department in the most efficient manner. What should you do?

- A. In the Admin console sharing settings, select the finance organizational unit and deselect Allow users outside the domain to access files in shared drives
- B. Create a new DLP policy for shared drive users
- C. Assign the Shared Drive to the finance organizational unit
- D. Change the scope of the policy to apply to all in the domain

Answer: B

Explanation:
Access the Admin Console: Sign in to your Google Admin console.
Navigate to DLP Settings: Click on "Security" and then "Data protection" to access Data Loss Prevention (DLP) settings.
Create New DLP Policy: Click on "Create policy" and configure the policy specifically for shared drive data.
Define Rules: Set up the necessary rules and conditions to match the existing DLP policy for the finance organizational unit.
Apply to Shared Drive: Apply this new policy to the shared drive used by the finance department.
Save and Activate: Save the policy and ensure it is active and enforced for the shared drive.

NEW QUESTION # 34
Your organization's legal team is conducting a legal review of an employee. The default retention period for your organization is indefinite. You must assist your legal team with retrieving the employee's emails for a one month period. What should you do?

- A. Create a new Matter inside Google Vault. Specify Gmail, the user, and the timeframe to retrieve messages.
- B. Specify the time frame and user by using Google Vault's audit reports. Export the report as a CSV file.
- C. Restore the user's deleted Gmail messages from the Admin console and export the user's inbox messages by using an API.
- D. Create a new retention rule inside Google Vault. Specify Gmail and the timeframe to retain messages.

Answer: A

Explanation:
Every legal search regarding an employee needs to start with a new Matter creation in Google Vault. Given the retention policy is indefinite, all the employees' data is intact.

NEW QUESTION # 35
Your organization is concerned with the increasing threat of phishing attacks that may impact users.
Leadership has declined to force-enable 2-Step verification. You need to apply a security measure to prevent unauthorized access to user accounts.
What should you do?

- A. Enable Enforce Strong Password policy.
- B. Revoke token authorizations to external applications.
- C. Decrease the Maximum User Session Length.
- D. Enable Employee ID Login Challenge.

Answer: D

Explanation:
* Sign in to the Google Admin console.

* From the Admin console Home page, go to "Security" and then "Login challenges."
* Enable the "Employee ID login challenge" setting.
* Configure the challenge by defining the employee IDs that users need to provide during the login process.
Enabling Employee ID login challenges adds an additional layer of security without requiring 2-Step verification. This helps prevent unauthorized access by ensuring that users provide an additional piece of information known only to them.
References:
* Google Workspace Admin Help - Configure login challenges
* "?>>?b GF\]\rom the Admin console Home page, go to "Security."
* Under "Security," select "API controls."
* In the "API controls" section, click on "Manage Third-Party App Access."
* Find the Google Drive API in the list.
* Choose "Disable All Access" for Google Drive to ensure that no third-party apps have OAuth permissions to Google Drive.
This configuration adheres to the policy set by the Chief Information Security Officer by preventing third-party apps from accessing Google Drive via OAuth.
