

# SC-401考題套裝 & SC-401考題免費下載

2025 Testpdf最新的SC-401 PDF版考試題庫和SC-401考試問題和答案免費分享：<https://drive.google.com/open?id=1OpgJ37Et54Q7EKHNZF8uput8jJ13Q1lu>

Testpdf為每個需要通過Microsoft的SC-401考試認證的考生提供了一個明確和卓越的解決方案，我們為你提供Microsoft的SC-401考試詳細的問題及答案，我們團隊的IT專家是最有經驗和資格的，我們的考試測試題及答案幾乎和真實得考試一樣，做到這樣的確很了不起，更重要的是我們Testpdf網站在全球範圍內執行這項考試培訓通過率最大。

## Microsoft SC-401 考試大綱：

主題	簡介
主題 1	<ul style="list-style-type: none"><li>• <b>Protect Data Used by AI Services:</b> This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.</li></ul>
主題 2	<ul style="list-style-type: none"><li>• <b>Implement Data Loss Prevention and Retention:</b> This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.</li></ul>
主題 3	<ul style="list-style-type: none"><li>• <b>Implement Information Protection:</b> This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.</li></ul>
主題 4	<ul style="list-style-type: none"><li>• <b>Manage Risks, Alerts, and Activities:</b> This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.</li></ul>

**使用完美的Microsoft SC-401考題套裝輕鬆地通過您的Microsoft SC-401考試**

Testpdf的 SC-401 考題和答案是最新的，由最新的考試指南編訂，增加了考生通過考試的概率。是最好的自學教

材和習題集，幫助你快速通過 SC-401 考試，實現順速獲取證書的最佳捷徑。如果SC-401 題庫有變化我們可以第一時間得知，并迅速更新 Microsoft SC-401 題庫。如果在考試過程中變題了，考生可以享受免費更新的服務。免費更新一年的 SC-401 考題服務。

## 最新的 Microsoft Certified: Information Security Administrator Associate SC-401 免費考試真題 (Q37-Q42):

### 問題 #37

You have a Microsoft 365 E5 tenant that contains a user named User1. User1 is assigned the Compliance Administrator role. User1 cannot view the regular expression in the IP Address sensitive info type. You need to ensure that User1 can view the regular expression. What should you do?

- A. Instruct User1 to use the Test function on the sensitive info type.
- B. Assign User1 to the Reviewer role group
- C. Create a copy of the IP Address sensitive info type and instruct User1 to edit the copy.
- D. Assign User1 the Global Reader role.

答案： C

#### 解題說明：

##### Step 1 - Problem statement

User1 has the Compliance Administrator role but cannot view the regular expression in the built-in IP Address sensitive info type. This is expected because:

Microsoft provides a large set of built-in sensitive info types (SITs).

For these built-in SITs, the underlying regular expressions, keywords, or detection logic are not exposed to administrators for security reasons.

As a result, even with Compliance Administrator privileges, User1 cannot directly see or modify the regex in the built-in IP Address SIT.

##### Step 2 - Microsoft solution

To view or modify the regex:

You must create a copy of the built-in SIT.

Once copied, the new custom SIT allows you to edit and view the regex and supporting elements.

This is the only supported way to customize or examine the detection logic.

# Reference: Create a custom sensitive information type

"You can't directly modify the definitions of built-in sensitive information types, but you can create a copy of an existing SIT and then edit it." Step 3 - Why not the other options?

- A). Reviewer role group # Reviewers are for records management/discovery, not SIT regex visibility.
- C). Test function # Allows you to test SIT detection but does not reveal the regex.
- D). Global Reader role # Read-only access, does not expose regex definitions either.

### 問題 #38

You have a Microsoft SharePoint Online site that contains the following files.

Name	Modified by	Data loss prevention (DLP) action
File1.docx	Manager1	None
File2.docx	Manager1	Matched by DLP
File3.docx	Manager1	Blocked by DLP

Users are assigned roles for the site as shown in the following table.

Name	Role
User1	Site owner
User2	Site member

Which files can User1 and User2 open? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

## Answer Area

User1:

User2:

答案:

解題說明:

## Answer Area

User1:

User2:

### 問題 #39

You have a Microsoft 365 IS subscription that contains the resources shown in the following table.

Name	Type	Member of
User1	User	None
User2	User	Group1
Group1	Group	None

The subscription contains a Windows 11 device named Device 1 and has the Microsoft Purview Information Protection client installed. Device 1 contains the resources shown in the following table.

Name	Type	Path
File1.png	File	C:\Temp
File2.docx	File	D:\Folder1
Folder2	Folder	D:\

You publish a sensitivity label named Label1 to User1 and Group1.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statements	Yes	No
User1 can apply Label1 to File1.png by using the information protection client.	<input type="radio"/>	<input type="radio"/>
User1 can apply Label1 to Folder2 by using the information protection client.	<input type="radio"/>	<input type="radio"/>
User2 can apply Label1 to File2.docx by using the information protection client.	<input type="radio"/>	<input type="radio"/>

答案:

解題說明:

Statements	Yes	No
User1 can apply Label1 to File1.png by using the information protection client.	<input checked="" type="radio"/>	<input type="radio"/>
User1 can apply Label1 to Folder2 by using the information protection client.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can apply Label1 to File2.docx by using the information protection client.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Statements	Yes	No
User1 can apply Label1 to File1.png by using the information protection client.	<input checked="" type="radio"/>	<input type="radio"/>
User1 can apply Label1 to Folder2 by using the information protection client.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can apply Label1 to File2.docx by using the information protection client.	<input checked="" type="radio"/>	<input type="radio"/>

#### 問題 #40

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You recently discovered that the developers at your company emailed Azure Storage Account keys in plain text to third parties.

You need to ensure that when Azure Storage Account keys are emailed, the emails are encrypted.

Solution: You configure a mail flow rule that matches a sensitive info type.

Does this meet the goal?

- A. No
- B. Yes

答案: A

解題說明:

To ensure Azure Storage Account keys are encrypted when sent via email, you need a Data Loss Prevention (DLP) policy that detects Azure Storage Account keys using a sensitive information type and automatically encrypts emails containing these keys.

Mail flow rules (transport rules) can detect sensitive info, but they are limited in encryption capabilities.

DLP policies provide more advanced protection and integration with Microsoft Purview for sensitive info detection.

#### 問題 #41

You have a Microsoft 365 ES subscription.

From the Microsoft Purview Data Security Posture Management for AI portal, you review the recommendations for AI data security.

You plan to create a one-click policy to block elevated risk users from pasting or uploading sensitive data to AI websites. How will the policy be configured? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

答案：

解題說明：

Answer Area
