

DA0-002 Premium Exam | Certification DA0-002 Test Answers

We are benefiting more and more candidates for our excellent DA0-002 exam materials which is compiled by the professional experts accurately and skillfully. We are called the best friend on the way with our customers to help pass their DA0-002 exam and help achieve their dreaming certification. The reason is that we not only provide our customers with valid and reliable DA0-002 study questions, but also offer best service online since we uphold the professional ethical.

We make sure that the CompTIA DA0-002 exam questions prices are affordable for everyone. All three ActualTestsIT DA0-002 exam practice test questions formats are being offered at the lowest price. Just get benefits from this cheap CompTIA Data+ Exam (2025) DA0-002 Exam Questions price and download it right now.

>> DA0-002 Premium Exam <<

100% Pass CompTIA - DA0-002 –High Hit-Rate Premium Exam

We often regard learning for DA0-002 exam as a torture. Actually, learning also can become a pleasant process. With the development of technology, learning methods also take place great changes. With our DA0-002 study materials, all of your study can be completed on your computers because we have developed a kind of software which includes all the knowledge of the exam. The simulated and interactive learning environment of our DA0-002 Practice Engine will greatly arouse your learning interests.

CompTIA Data+ Exam (2025) Sample Questions (Q102-Q107):

NEW QUESTION # 102

A database administrator needs to implement security triggers for an organization's user information database. Which of the following data classifications is the administrator most likely using? (Select two).

- A. Open
- B. Encrypted
- C. Sensitive
- D. Private
- E. Public
- F. Non-Sensitive

Answer: C,D

Explanation:

This question pertains to the Data Governance domain, focusing on data classification for security purposes.

User information databases typically contain personal data, and security triggers (e.g., alerts for unauthorized access) require classifying data to determine protection levels.

* Public (Option A): Public data is openly accessible (e.g., company brochures), not suitable for user information requiring security triggers.

* Open (Option B): Open isn't a standard data classification; it's similar to public and not applicable here.

* Sensitive (Option C): Sensitive data includes information that, if exposed, could cause harm (e.g., user emails, roles), which fits user information and warrants security triggers.

* Non-Sensitive (Option D): Non-sensitive data doesn't require protection, so it wouldn't need security triggers.

* Private (Option E): Private data includes PII (e.g., names, addresses) in user information databases, requiring security measures like triggers to protect against breaches.

* Encrypted (Option F): Encrypted refers to a data state, not a classification; data can be classified as private or sensitive and then encrypted.

The DA0-002 Data Governance domain includes "data quality control concepts," such as classifying data to apply appropriate security measures. Sensitive and private classifications are most relevant for user information.

NEW QUESTION # 103

Software end users are happy with the quality of product support provided. However, they frequently raise concerns about the long wait time for resolutions. An IT manager wants to improve the current support process. Which of the following should the manager use for this review?

- A. UAT
- B. Survey
- C. Infographic
- D. KPI

Answer: B

Explanation:

This question falls under the Data Analysis domain, focusing on methods to gather data for process improvement. The IT manager needs to review user concerns about wait times, which requires collecting feedback.

* Infographic (Option A): An infographic visualizes data but isn't a method for gathering feedback.

* KPI (Option B): KPIs (e.g., average resolution time) measure performance but don't directly gather user feedback.

* Survey (Option C): A survey collects detailed feedback from users about their experiences, such as wait times, making it the best method for this review.

* UAT (Option D): User Acceptance Testing validates software functionality, not support processes.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and surveys are a standard method for collecting user feedback to analyze and improve processes.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 104

Which of the following best describes the function of a data type?

- A. To provide a generic identifier for files used in analysis
- B. To make the addition of individual records simpler

- C. To differentiate the real value of the field in its context
- D. To identify the program needed to open a file

Answer: C

Explanation:

This question falls under the Data Concepts and Environments domain, focusing on the purpose of data types in data management. Data types define how data is stored and interpreted.

- * To provide a generic identifier for files used in analysis (Option A): Data types apply to fields within datasets, not files.
- * To identify the program needed to open a file (Option B): File extensions (e.g., .csv) identify programs, not data types.
- * To differentiate the real value of the field in its context (Option C): Data types (e.g., integer, string, date) define how a field's value is interpreted (e.g., "123" as a number vs. text), ensuring its real meaning in context, making this the correct answer.
- * To make the addition of individual records simpler (Option D): Data types don't directly simplify record addition; they ensure proper data handling.

The DA0-002 Data Concepts and Environments domain includes understanding "data schemas and dimensions," and data types ensure fields are interpreted correctly in their context.

NEW QUESTION # 105

Given the following dataset:

Day

Number of Guests

Monday

455

Tuesday

346

Wednesday

382

Thursday

563

Friday

887

Saturday

934

Sunday

346

Which of the following is the mode?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

This question falls under the Data Analysis domain, focusing on statistical measures. The mode is the value that appears most frequently in a dataset.

- * Monday: 455
- * Tuesday: 346
- * Wednesday: 382
- * Thursday: 563
- * Friday: 887
- * Saturday: 934
- * Sunday: 346

The value 346 appears twice (Tuesday and Sunday), while all other values (455, 382, 563, 887, 934) appear once. Thus, the mode is 346.

- * Option A: 346- Correct, as it's the most frequent value.
- * Option B: 446- Incorrect, as 446 doesn't appear in the dataset.
- * Option C: 455- Incorrect, as 455 appears only once.

* Option D: 559- Incorrect, as 559 doesn't appear in the dataset.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and the mode is a fundamental measure of central tendency.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 106

Which of the following is found in metadata?

- **A. Variable types**
- B. Syntax
- C. Data lineage
- D. Transformations

Answer: A

Explanation:

This question pertains to the Data Concepts and Environments domain, focusing on the content of metadata.

Metadata describes data attributes, and the task is to identify what it typically includes.

* Transformations (Option A): Transformations (e.g., data cleaning steps) are part of data lineage, not metadata.

* Data lineage (Option B): Data lineage tracks data flow and transformations, which is related to metadata but not a direct component.

* Syntax (Option C): Syntax refers to code structure, not a metadata component.

* Variable types (Option D): Metadata includes information about data fields, such as variable types (e.g., integer, string), which is a standard component.

The DA0-002 Data Concepts and Environments domain includes understanding "data schemas and dimensions," and metadata typically contains details like variable types to describe the dataset.

NEW QUESTION # 107

.....

With our DA0-002 exam materials, you will find that the difficult topics have been given special attention by our professional experts and explained with the help of examples, simulations and graphs. Our DA0-002 study braindumps will certainly help candidates to enrich their knowledge in their daily work and be ready to answer all questions in the real exam. The benefits of studying our DA0-002 learning guide is doubled to your expectation.

Certification DA0-002 Test Answers: <https://www.actualtestsit.com/CompTIA/DA0-002-exam-prep-dumps.html>

If you really want to pass the DA0-002 real test and get the certification, Our ActualTestsIT Certification DA0-002 Test Answers have owned more resources and experiences after development for years, CompTIA DA0-002 Premium Exam And this is the most important, The experts in our company have been focusing on the DA0-002 examination for a long time and they never overlook any new knowledge, CompTIA DA0-002 Premium Exam So it is difficult for them to try new things.

We will not let you down once you make your choice of DA0-002 New Questions, That is component X, If you really want to pass the DA0-002 real test and get the certification?

Our ActualTestsIT have owned more resources and DA0-002 experiences after development for years, And this is the most important, The experts in our company have been focusing on the DA0-002 examination for a long time and they never overlook any new knowledge.

Pass Guaranteed 2026 CompTIA Authoritative DA0-002 Premium Exam
