

# 100% Pass Quiz 2026 Nutanix NCA-6.10: Nutanix Certified Associate v6.10–Trustable Mock Exams

DOWNLOAD the newest BraindumpStudy NCA-6.10 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=16TwdG\\_DyOE\\_oAoqEwn2xFOGgeVaR3n\\_\\_](https://drive.google.com/open?id=16TwdG_DyOE_oAoqEwn2xFOGgeVaR3n__)

As the development of the science and technology is fast, so the information of the NCA-6.10 exam materials changes fast accordingly. The updated version of the NCA-6.10 study guide will be different from the old version. Some details will be perfected and the system will be updated. You will enjoy learning on our NCA-6.10 Exam Questions for its wonderful and latest design with the latest technologies applied.

For the convenience of the users, the NCA-6.10 test materials will be updated on the homepage and timely update the information related to the qualification examination. Annual qualification examination, although content broadly may be the same, but as the policy of each year, the corresponding examination pattern grading standards and hot spots will be changed, as a result, the NCA-6.10 Test Prep can help users to spend the least time, you can know the test information directly what you care about on the learning platform that provided by us, let users save time and used their time in learning the new hot spot concerning about the knowledge content.

## 100% Pass 2026 The Best Nutanix NCA-6.10 Mock Exams

Some people prefer to read paper materials rather than learning on computers. Of course, your wish can be fulfilled in our company. We have PDF version NCA-6.10 exam guides, which are printable format. You can print it on papers after you have downloaded it successfully. If you want to change the fonts, sizes or colors, you can transfer the NCA-6.10 exam torrent into word format files before printing. There are many advantages of the PDF version. Firstly, there are no restrictions to your learning. You can review the NCA-6.10 Test Answers everywhere. Your spare time can be made good use. Secondly, you can make notes on your materials, which will accelerate your understanding of the NCA-6.10 exam guides. In a word, our company seriously promises that we do not cheat every customer.

## Nutanix Certified Associate v6.10 Sample Questions (Q69-Q74):

### NEW QUESTION # 69

An administrator receives the alert:  
What is the most likely cause?

- A. Another node in this cluster is already in maintenance mode.
- B. This node in the cluster is already in maintenance mode.
- C. This node in the cluster may not have enough resources available.
- **D. Other nodes in the cluster may not have enough resource available.**

**Answer: D**

Explanation:

When a Nutanix cluster alert occurs, indicating maintenance mode issues, the most likely cause is that another node in the cluster is already in maintenance mode. Nutanix clusters enforce restrictions to prevent more than one node from entering maintenance mode simultaneously. This ensures the cluster can maintain resiliency and availability, adhering to the redundancy factor (RF) policy. If another node is already in maintenance mode, the cluster cannot afford to have additional nodes enter maintenance without compromising data and service availability.

:

Nutanix Cluster Best Practices Documentation - Maintenance Mode.  
Nutanix Alerts and Events Guide, accessible via Prism UI.

### NEW QUESTION # 70

Which option is supported by Nutanix for Data-at-Rest encryption?

- A. Data-only Encryption
- B. Cluster-only Encryption
- C. Storage Pool-only Encryption
- **D. Software-only Encryption**

**Answer: D**

Explanation:

The correct answer is D. Software-only Encryption.

Nutanix supports Data-at-Rest Encryption (DARE) through both hardware-based and software-based methods. Among the supported solutions, software-only encryption is a widely used and officially supported method, especially when Self-Encrypting Drives (SEDs) are not in use.

Key facts about Nutanix DARE:

- \* Enables encryption of data written to physical media.
- \* Works at the CVM and controller layer, ensuring all I/O is encrypted before being persisted.
- \* Software-based encryption can be enabled via Prism Central or command-line using Native Key Management (NKM) or external KMIP-compliant key managers.
- \* Hardware encryption (SED) is optional and not required for DARE.

Clarifications:

- \* A. Storage Pool-only Encryption: Not valid; encryption applies at the cluster level, not only to storage pools.
- \* B. Data-only Encryption: Ambiguous and not a Nutanix-supported term.
- \* C. Cluster-only Encryption: Misleading; encryption is applied to data at rest, not to the "cluster" object.

Prism UI Navigation Path:

Settings > Security > Encryption

Official Reference:

- \* Nutanix Security Guide - Data-at-Rest Encryption
- \* Nutanix Bible - Encryption Section
- \* Excerpt: "Nutanix supports software-only data-at-rest encryption using Native Key Management or external KMIP key managers, without requiring self-encrypting drives."

### NEW QUESTION # 71

Which feature should be enabled to prevent password access to the CVM for both the nutanix and admin user accounts?

- A. STIG
- B. Data-at-Rest Encryption

- C. RBAC Policy on PC
- **D. Cluster lockdown**

**Answer: D**

Explanation:

To prevent password access to the CVM for both the nutanix and admin user accounts, Cluster Lockdown should be enabled. Cluster Lockdown restricts SSH access to the Controller VM (CVM), effectively disabling password-based logins for enhanced security. Access is then managed through more secure means, such as console access or specific tools like Nutanix Support.

- \* A. Cluster Lockdown: Correct, as this prevents SSH-based access to the CVM.
- \* B. STIG: Incorrect, as STIG (Security Technical Implementation Guide) focuses on broader compliance measures.
- \* C. RBAC Policy on PC: Incorrect, as RBAC (Role-Based Access Control) controls Prism Central permissions, not CVM access.
- \* D. Data-at-Rest Encryption: Incorrect, as this secures stored data, not access credentials.

### NEW QUESTION # 72

An administrator wants to change from Redundancy Factor 2 to 3, but it is not allowed. What must the administrator check?

- A. Check AOS version and upgrade, if needed.
- B. Check hardware availability of the nodes.
- C. Check that the cluster has been properly licensed.
- **D. Check that the cluster has five or more nodes.**

**Answer: D**

Explanation:

Redundancy Factor 3 (RF3) requires a minimum of five nodes in the cluster to ensure that data can be distributed across enough nodes to tolerate the failure of two nodes. If the cluster has fewer than five nodes, RF3 cannot be enabled.

- \* A. Check that the cluster has been properly licensed: Licensing is not directly related to enabling RF3.
- \* B. Check that the cluster has five or more nodes: Correct, as RF3 requires at least five nodes.
- \* C. Check hardware availability of the nodes: While hardware health is important, it does not determine RF3 eligibility.
- \* D. Check AOS version and upgrade, if needed: RF3 requirements are not specific to an AOS version.

### NEW QUESTION # 73

Which storage container option reduces the available storage to other containers?

- A. Erasure Coding
- **B. Reserved Capacity**
- C. Capacity Deduplication
- D. Advertised Capacity

**Answer: B**

Explanation:

The Reserved Capacity option in a storage container explicitly reserves a portion of cluster storage for that container. This reservation reduces the amount of storage available for other containers. Reserved Capacity ensures that specific workloads have guaranteed storage resources, preventing resource contention or overcommitment.

Other options:

- \* Advertised Capacity: Defines the storage limit displayed to users but does not reserve storage.
- \* Erasure Coding: Optimizes storage efficiency but does not reduce available capacity.
- \* Capacity Deduplication: Reduces space consumption by eliminating duplicate data but does not affect other containers' storage.

## NEW QUESTION # 74

.....

If you want to ace the Nutanix Certified Associate v6.10 (NCA-6.10) test, the main problem you may face is not finding updated NCA-6.10 practice questions to crack this test quickly. After examining the situation, the BraindumpStudy has come with the idea to provide you with updated and actual Nutanix NCA-6.10 Exam Dumps so you can pass Nutanix Certified Associate v6.10 (NCA-6.10) test on the first attempt. The product of BraindumpStudy has many different premium features that help you use this product with ease. The study material has been made and updated after consulting with a lot of professionals and getting customers' reviews.

**NCA-6.10 Passing Score:** [https://www.braindumpstudy.com/NCA-6.10\\_braindumps.html](https://www.braindumpstudy.com/NCA-6.10_braindumps.html)

You should practice with actual NCA-6.10 exam questions that are aligned with the latest content of the NCA-6.10 test, Nutanix NCA-6.10 Mock Exams 100% pass rate is our aim, Nutanix NCA-6.10 Mock Exams Common aim with customers, We exclusively offer instant download NCA-6.10 free sample questions & answers which can give right guidance for the candidates, Nutanix NCA-6.10 Mock Exams We are still striving for achieve our ambitious goals.

Next, depending on the source of your data, one of two namespaces PdfNCA-6.10 Version needs to be included, But shocked" or not, reality probably will not excuse the company from action, especially if there are many users like Judy who, having archived her NCA-6.10 data and deleted her account, found that, The interesting thing is that I only missed the site for one or two days.

## Valid NCA-6.10 exam training material & cost-effective NCA-6.10 PDF files

You should practice with actual NCA-6.10 exam questions that are aligned with the latest content of the NCA-6.10 test, 100% pass rate is our aim, Common aim with customers.

We exclusively offer instant download NCA-6.10 free sample questions & answers which can give right guidance for the candidates, We are still striving for achieve our ambitious goals.
