Latest CAD Valid Braindumps Free - Pass CAD in One Time - Free PDF CAD Authorized Test Dumps

The last format is desktop CAD practice test software that can be accessed easily just by installing the software on the Windows Pc or Laptop. The desktop software format can be accessed offline without any internet so the students who don't have internet won't struggle in the preparation for CAD Exam. These three forms are specially made for the students to access them according to their comfort zone and CAD exam prepare for the best.

ServiceNow Certified Application Developer-ServiceNow Sample Questions (Q174-Q179):

NEW QUESTION # 174
What are web services?

- A. Methods used to create and maintain Ul Pages
- B. Methods used to allow applications to connect to other software applications over a network
- C. Methods used to discover a wide variety of systems and applications
- D. They provide a customer-facing view of available service and product offerings provided by departments within the organization

Answer: B

Explanation:
Web services are software systems that use standardized protocols and formats, such as XML and HTTP, to exchange data and messages between different applications or systems over the Internet or other networks12. Web services enable interoperability and integration among diverse software components, regardless of their programming languages, platforms, or architectures34. Reference = 1: What are Web Services? - GeeksforGeeks 2: Web service - Wikipedia 3: What are Web Services? - Online Tutorials Library 4: What is a Web Service? | Webopedia

NEW QUESTION # 175
Which one of the following is the correct Link Type to select when creating a module that opens the Record Producer UI for a user rather than the ServiceNow form UI?

- A. Script (from Arguments)
- B. URL (from Arguments)
- C. HTML (from Arguments)
- D. Content Page

Answer: B

Explanation:
Comprehensive and Detailed Step-by-Step Explanation:
* Record Producer Overview:Record Producers in ServiceNow are a way to create records through a simplified user interface. Instead of displaying a typical form, a Record Producer uses a user-friendly UI tailored for quick and intuitive data entry.
* Correct Link Type:
* The URL (from Arguments) option is used to direct the user to a specific URL, such as the Record Producer interface. You can configure the URL in the module to point to the Record Producer by providing its unique sys_id or name.Example URL: /catalog.do?sys_id=<record_producer_sys_id>
* Incorrect Options Explained:
* Content Page (Option A): This opens a CMS page and is not used for Record Producers.
* Script (from Arguments) (Option B): This runs a custom script but does not link directly to a Record Producer.
* HTML (from Arguments) (Option D): This is used for rendering custom HTML, not for linking to a Record Producer.
References:
* ServiceNow Developer Documentation on Modules and URL Arguments.

NEW QUESTION # 176
Which of the following is NOT a trigger type in Flow Designer?

- A. Application
- B. Record
- C. Schedule
- D. Outbound Email

Answer: D

Explanation:
Explanation/Reference: https://docs.servicenow.com/bundle/orlando-servicenow-platform/page/administer/flow-designer/ reference/flow-triggers.html

NEW QUESTION # 177
When crafting a scoped application that contains flow actions, what is the application called?

- A. Row
- B. Bundle
- C. Spoke
- D. Action

Answer: C

Explanation:
A spoke is a scoped application that contains flow actions that can be used in Flow Designer. Spokes allow developers to create reusable actions that can be shared across applications and instances.
Reference:
Spokes - Product Documentation: San Diego - ServiceNow
Create a spoke - Product Documentation: San Diego - ServiceNow
Flow Designer Spokes - ServiceNow Developers

NEW QUESTION # 178
How can an application link to a repository behind a firewall?

- A. Link an application to source control through a MID Server.
- B. Link an application to source control with multi-factor authentication.
- C. Link an application to source control through an access token.
- D. This option is not supported.

Answer: A

Explanation:
"Use an existing MID Server to connect to a Source Control repository. Linking or importing an application through a MID Server enables access to repositories behind a firewall."https://docs.servicenow.com/bundle/tokyo-application-development/page/build/applications/concept/c_

NEW QUESTION # 179
......
