

CTS-D Reliable Test Duration & CTS-D Actual Dump

Amazon AWS Certified Solutions Architect - Associate (SAA-C03) Exam Sample Questions (Q136-Q141):

NEW QUESTION # 136
 A company is preparing to store customer e data in Amazon S3 for compliance reasons the data must be encrypted at rest if any other key usage must be logged for auditing purposes Keys must be rotated every year.
 Which solution meets these requirements and is the MOST operationally efficient?

- A. Server side encryption with AWS KMS (SSE KMS) customer master keys (CMK) with automatic rotation
- B. Server side encryption with customer provided keys (SSE CK)
- C. Server side encryption with Amazon S3 managed keys (SSE S3)
- D. Server side encryption with AWS KMS (SSE KMS) customer master keys (CMK) with manual rotation

Answer: A
 Explanation
 https://aws.amazon.com/blogs/aws/servicecatalog-lets-you-rotate-keys/

When you enable automatic key rotation for a customer managed key, AWS KMS generates new cryptographic material for the CMK key every year. AWS KMS also saves the CMK key's unique cryptographic material in permanent storage. This can be used to decrypt data that the CMK key encrypted. Key rotation in AWS KMS is a cryptographic best practice that is designed to be transparent and easy to use. AWS KMS supports optional automatic key rotation only for customer managed CMKs. Enable and enable key rotation. Automatic key rotation is disabled by default on customer managed CMKs. When you enable automatic key rotation, AWS KMS automatically rotates the CMK 365 days after the enable date and every 365 days thereafter.

NEW QUESTION # 137
 A startup plans to develop a multiplayer game that uses UDP as the protocol for communication between clients and game servers. The data of the users will be stored in a key value store. As the Solutions Architect, you need to implement a solution that will distribute the traffic across a number of servers.
 Which of the following could help you achieve this requirement?

- A. Distribute the traffic using Application Load Balancer and store the data in Amazon ElastiCache
- B. Distribute the traffic using Application Load Balancer and store the data in Amazon DynamoDB
- C. Distribute the traffic using Network Load Balancer and store the data in Amazon Aurora
- D. Distribute the traffic using Network Load Balancer and store the data in Amazon ElastiCache

Answer: D
 Explanation
 A Network Load Balancer functions at the fourth layer of the Open System Interconnection (OSI) model. It can handle millions of requests per second. After the load balancer receives a connection request,

Time and tides wait for no man. Take away your satisfied CTS-D preparation quiz and begin your new learning journey. You will benefit a lot after you finish learning our CTS-D study materials just as our other loyal customers. Live in the moment and bravely attempt to totally new things. You will harvest meaningful knowledge as well as the shining CTS-D Certification that so many candidates are dreaming to get.

AVIXA CTS-D Exam Certification Details:

Schedule Exam	Pearson VUE
Exam Name	AVIXA Certified Technology Specialist - Design (CTS-D)
Books / Training	Candidate Handbook
Number of Questions	135
Passing Score	350 / 500
Exam Code	CTS-D

Quiz 2026 AVIXA CTS-D: Perfect Certified Technology Specialist - Design Reliable Test Duration

When you buy things online, you must ensure the security of online purchasing, otherwise your rights will be harmed. Our CTS-D study tool purchase channel is safe, we invite experts to design a secure purchasing process for our CTS-D qualification test, and the performance of purchasing safety has been certified, so personal information of our clients will be fully protected. All customers can feel comfortable when they choose to buy our CTS-D Study Tool. We have specialized software to prevent the leakage of your information and we will never sell your personal information because trust is the foundation of cooperation between both parties. A good reputation is the driving force for our continued development. Our company has absolute credit, so you can rest assured to buy our CTS-D test guides.

AVIXA CTS-D Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Conduct a Needs Assessment: This domain focuses on gathering and analyzing client requirements before any design work begins. It covers identifying functional requirements, reviewing or developing a technology master plan, and generating a program report that captures the project's AV needs and expectations.
Topic 2	<ul style="list-style-type: none">• Develop and Document AV Designs: This is the most heavily weighted domain and addresses the full design development process. It spans creating a conceptual AV design, refining it to align with site conditions and architectural drawings, producing the final design package, and completing all project documentation including bill of materials, bid specifications, drawings, and scope of work.
Topic 3	<ul style="list-style-type: none">• Deploy AV Designs: This domain covers the transition from design to implementation and project completion. It includes supporting project execution, verifying that installed systems meet performance requirements, and conducting closeout activities such as as-built documentation, system manuals, user training, and programming information.
Topic 4	<ul style="list-style-type: none">• Coordinate with Other Professionals: This is the largest domain and covers the AV designer's responsibility to collaborate with a wide range of project stakeholders. It includes coordination with architectural, structural, mechanical<ul style="list-style-type: none">• electrical• plumbing, IT• network, acoustical, life safety, and project-specific professionals such as content creators or exhibit designers.

AVIXA Certified Technology Specialist - Design Sample Questions (Q56-Q61):

NEW QUESTION # 56

Which type of projector placement is best for minimizing shadows on the screen?

- A. Tabletop front projection
- B. Rear projection
- C. Floor projection
- **D. Ceiling-mounted front projection**

Answer: D

NEW QUESTION # 57

A video system design to transmit 4K at 60 fps, with 4:4:4 chroma sampling and 10 bits per color, requires about _____ of throughput.

Response:

- A. 10 Gbps
- **B. 22 Gbps**

- C. 32 Gbps
- D. 16 Gbps

Answer: B

NEW QUESTION # 58

Which of the following is a key consideration when designing a room for video conferencing?

- A. Ambient lighting and acoustics
- B. Number of electrical outlets in the server room
- C. The type of ceiling tiles used
- D. The color of furniture

Answer: A

NEW QUESTION # 59

Which technology allows AV equipment to be controlled over IP networks?

- A. USB
- B. HDMI
- C. XLR
- D. TCP/IP protocol

Answer: D

NEW QUESTION # 60

If a font height is 2 in (50 mm), the screen height is 60 in (1,525 mm), and screen resolution is 1080 pixels high, what is the font size in pixels?

Response:

- A. 32 point
- B. 40 point
- C. 28 point
- D. 36 point

Answer: D

NEW QUESTION # 61
