NEW QUESTION # 19
Which system in place enables you to balance risk and entrepreneurial energy with appropriate internal control procedures to manage that risk?

- A. Banking System
- B. Corporate Governance
- C. Auditing Report
- D. Quality Management System

Answer: B

Explanation:
Corporate governance is the system of rules, practices, and processes by which an organization is directed and controlled. It involves balancing the interests of various stakeholders, such as shareholders, management, customers, suppliers, regulators, and the community. It also enables an organization to balance risk and entrepreneurial energy with appropriate internal control procedures to manage that risk. Effective corporate governance can enhance performance, accountability, transparency, and trust. Verified References:

NEW QUESTION # 20
In the event of a disaster that destroys the physical office site operations will be relocated to a temporary site.

- A. True
- B. False

Answer: A

Explanation:
In the event of a disaster that destroys the physical office site operations will be relocated to a temporary site.
This is true because one of the recovery strategies for a disaster is to have an alternate site where the critical functions and processes can be resumed until the primary site is restored or replaced. The alternate site can be a pre-arranged location, such as a rented

office space, a hotel, or another branch of the same organization, or a mobile facility, such as a trailer or a container. The alternate site should have the necessary equipment, systems, data, and resources to support the continuity of the business.
