

PRINCE2 Test PRINCE2Practitioner Price Exam | Best Way to Pass PRINCE2 PRINCE2Practitioner

For PRINCE2 PRINCE2Practitioner exam applicants who don't always have access to the internet, desktop-based practice exam software is appropriate. This PRINCE2 PRINCE2Practitioner practice test software is compatible with Windows computers. Much like the web-based practice exam, our desktop practice test simulates the actual test. This PRINCE2 Practitioner Exam (PRINCE2Practitioner) exam simulation software has the same features as our web-based practice exam, including most probable real exam questions, customizable practice test sessions, and quick result on how you did. To eliminate mistakes and exam anxiety, we advise using this PRINCE2 PRINCE2Practitioner practice test software.

PRINCE2 Practitioner exam is a certification exam that tests the knowledge and understanding of the PRINCE2 project management methodology. PRINCE2 is a widely used project management framework that has been developed by the UK government and is now widely used in both the public and private sectors. The aim of PRINCE2 is to provide a structured approach to project management, with defined roles and responsibilities, as well as clear stages and processes.

PRINCE2 Practitioner certification exam is highly regarded in the project management industry and is recognized globally. PRINCE2 Practitioner Exam certification demonstrates that the holder has the knowledge and skills required to manage projects using the PRINCE2 methodology. PRINCE2 Practitioner Exam certification is highly valued by organizations that use PRINCE2 methodology in their project management approach, making the PRINCE2 Practitioner certification a highly sought-after qualification for project managers. The PRINCE2 Practitioner certification exam is challenging, and candidates are required to have extensive knowledge and practical experience in project management to pass the exam.

PRINCE2 Practitioner Exam Sample Questions (Q117-Q122):

NEW QUESTION # 117

While preparing the Risk Management Strategy, the Project Manager considered the commercial customer/supplier environment and how this may affect the management of risk. Which approach should the Outsourcing project adopt?

- A. All project risks associated with the specialist deliverables should be owned by the selected service provider.
- B. Plan to use the selected service provider's risk management procedures.
- C. Due to the sensitive nature of this project, consideration should be given to creating a separate Risk Register to be held by MFH and the selected supplier.

Answer: C

NEW QUESTION # 118

Which 2 statements apply to either the Techniques, processes and procedures or Constraints sections?

- A. Delete entry 1 because this section should contain the techniques, processes and procedures required for specialist product development.
- **B. Delete entry 7 because this should be contained in the Quality skills required section of the Product Description.**
- C. Add 'There must be minimum disruption to current services' to Constraints.
- D. Move entry 5 to Techniques, processes and procedures because this is a technique which staff should be aware of.
- **E. Delete entry 6 because this applies to Office Moves Limited and is therefore outside the Work Package.**

Answer: B,E

NEW QUESTION # 119

Scenario:

The Ministry of Food Hygiene (MFH) has a quality management system which contains a document control process to manage all documentation requirements. The document control process was created by the MFH Quality Manager, who now maintains all of MFH's documents and performs an organization-wide configuration management role. The MFH Quality Manager will administer the configuration management procedure for the Restructuring project since this must comply with the MFH document control process.

According to PRINCE2, which statement about appointing the MFH Quality Manager to administer the configuration management procedure is correct?

- A. The MFH Quality Manager should only administer the configuration management procedure on one project at a time. If the MFH Quality Manager already performs this task on another project, another individual should be appointed.
- B. The MFH Quality Manager should administer the configuration management procedure on this project because this task should always be assigned to corporate or programme management.
- **C. The MFH Quality Manager would be suitable to perform this task because he is the author of the document control process and is likely to have the knowledge required for this role.**

Answer: C

NEW QUESTION # 120

Who is responsible for appointing the Project Manager?

- A. The Project Board
- **B. The Executive**
- C. Corporate or Programme Management
- D. Project Assurance

Answer: B

NEW QUESTION # 121

The project is approaching the end of stage 3, and stage 4 is being planned as part of the 'managing a stage boundary' process. Which action should the project manager carry out as part of the 'update the project plan' activity?

- A. Include the tolerances for the work package 'delivered pilot courses' in the project plan.
- B. Ensure that the team manager for the work package 'delivered pilot courses' is included as a resource.
- C. Update the project's business case to show any new key risks that have been identified.
- **D. Include the actual time and cost of the work to prepare the 'marketing materials' in the project plan.**

Answer: D
