Salesforce Certified Advanced Administrator Sample Questions (Q164-Q169):

NEW QUESTION # 164

What should an administrator do to keep secure fields protected in email templates'?

- A. Use classic encrypted fields.
- B. Set up an approval process for email alerts.
- **C. Remove the fields from the email.**
- D. Implement GDPR.

Answer: C

Explanation:

Explanation

The best way to keep secure fields protected in email templates is to remove them from the email altogether.

Classic encrypted fields are not supported in email templates, and implementing GDPR or setting up an approval process for email alerts do not prevent unauthorized users from viewing sensitive data in emails.

NEW QUESTION # 165

A custom object called Item has a many-to-many relationship with the Account and Quota objects. At Cloud Kicks, account owners are changed frequently while ownership of Quota records remains unchanged. When an account owner is updated, the new account owner can only see Item records if they are also the owner of the Quota record.

What step should the administrator take to give access to all Item records?

Change the data format of the Quota relationship field from master-detail to lookup.

- **A. Give the account owner Read access to both the Account and the Quota objects**
- B. Create a Quota criteria-based sharing rule using ISCHANGED for the Account Owner field.
- C. Re-assign the Quota master-detail to the primary and the
- D. Account master-detail to secondary.

Answer: A

Explanation:

Giving the account owner Read access to both the Account and the Quota objects will give access to all Item records. Since Item is a junction object between Account and Quota, users need to have at least Read access to both parent objects to see Item records. If users have access to only one parent object, they will not be able to see Item records related to the other parent object.
