## Certification L5M9 Questions, L5M9 Relevant Exam Dumps

We attract customers by our fabulous L5M9 certification material and high pass rate, which are the most powerful evidence to show our strength. We are so proud to tell you that according to the statistics from our customers' feedback, the pass rate of our L5M9 exam questions among our customers who prepared for the exam with our L5M9 Test Guide have reached as high as 99%, which definitely ranks the top among our peers. Hence one can see that the L5M9 learn tool compiled by our company are definitely the best choice for you.

## CIPS Operations Management Sample Questions (Q49-Q54):

### NEW QUESTION # 49

Below are details of 4 local manufacturing companies. For each company you must decide what the main objective is for the organisation and what layout their manufacturing plant has.

Company 1: This company creates large, delicate products which are hard to move. The main aim of the company is to stand out from competitors due to the superior level of materials used and by using the latest forms of technology to create the items.

Company 2: This company produces 72 different items and has designated zones within its premises for the creation of each item. The zones are organised based on the technology used and some products may be passed between different zones to be completed. The company creates many different items in response to changing customer demands, with many product lines only lasting a single season.

Company 3: Company 3 creates one product which flows along a single production line, with staff members adding to the product on four different occasions. The company must produce a high volume of this singular product in order to break even. Therefore, there is always a steady flow of items through the plant and it is important there is no stoppage in production.

Company 4: This company produces small batches of products, as and when they are ordered by customers. Due to uncertainty in demand, a high profit margin is added to the cost of each item. Teams in the factory are grouped into different areas depending on the technological process they are using.

Complete the table below by listing the objective criteria and plant layout for each company. Each response should only be used once: flexibility, speed, quality, cost, functional layout, cell layout, product layout, fixed-position layout

	Objective Criteria	Plant Layout
Company 1	1	5
Company 2	2	6
Company 3	3	7
Company 4	4	8

Which of the following will you put into box 5?

- A. product layout
- B. cell layout
- C. functional layout
- D. fixed-position layout

**Answer: D**

Explanation:

The correct answers are as follows:

	Objective Criteria p.4 LO 1.1	Plant Layout p.17 LO 1.1
Company 1	<b>1 quality</b> The company uses superior levels of materials to stand out from competitors	<b>5 fixed- position layout</b> The product is large and delicate, indicating that it shouldn't be moved- the product will stay in the same fixed position with the team working around each item (rather than the item moving through the factory).
Company 2	<b>2 flexibility</b> The company changes its product lines frequently (every season) depending on customer demands	<b>6 cell layout</b> Production is grouped into zones, or cells, with products transferring between the cells if & Supply needed.
Company 3	<b>3 speed</b> The company needs to work quickly to produce the item, with no stoppage in production	<b>7 product layout</b> This is also known as a line or flow layout- products travel around the plant to different teams. This is the most common form of layout in mass-produced manufacturing.
Company 4	<b>4 cost</b> There is a high profit margin added to each item	<b>8 functional layout</b> this is also known as 'job shop' or 'process' layout. Processes are clustered into different areas depending on the technology being used

### NEW QUESTION # 50

Little Joy Ltd is a large company with several functional departments. Below are details of four departments. For each, you must decide which functional area of the business the department is, as well as the SERVQUAL Gap that each Department Lead is concerned with.

Department 1: This department is concerned with the creation of products. The products are created in line with BS EN 716-1 and undergo vigorous tests before they leave the factory. Many customers are unaware of the additional costs of testing to BS EN 716-1 and complain about the price of this product line.

Department 2: Other departments of the business are internal customers of this functional area and approach the Department Lead when they require something to be bought. Often the internal customers have unrealistic expectations of the timescales involved in the process and the Department Lead spends a lot of time explaining lead times and logistics.

Department 3: This functional area creates the budgets for the company and emails these to the Department Leads at the beginning of every quarter. Due to the complexity of the documents, other functional areas of the business often don't understand the information provided.

Department 4: This area of the business is concerned with revenue, which has recently slumped. The Department Lead is conducting market surveys to find out the reason for this.

Complete the table below by listing the Functional Area of the business, and the corresponding SERVQUAL Gap. Each response should only be used once: procurement, finance, sales, production, satisfaction gap, delivery gap, standards gap, communication gap.

	Functional Area	SERVQUAL Gap
Department 1	1	5
Department 2	2	6
Department 3	3	7
Department 4	4	8

Which of the following will you put into box 6?

- A. standards gap
- B. satisfaction gap
- C. communication gap
- D. delivery gap

**Answer: D**

Explanation:

The correct answers are as follows:

	Functional Area LO 1.1 p.9	SERVQUAL Gap LO 1.3 p.56
<b>Department 1</b>	<b>1 Production</b> The department creates products	<b>5 Standards Gap</b> BS EN 716-1 is a Standard (its to do with safety requirements of baby cribs- but you're not expected to know this! You should guess this is a standard because it talks about 'vigorous tests')
<b>Department 2</b>	<b>2 Procurement</b> This department buys stuff	<b>6 Delivery Gap</b> This talks about timescales, lead times and logistics
<b>Department 3</b>	<b>3 Finance</b> This department creates budgets	<b>7 Communication Gap</b> The issue here is a lack of understanding due to the method of communication (email)
<b>Department 4</b>	<b>4 Sales</b> This department is concerned with revenue	<b>8 Satisfaction Gap</b> Market research is being done to find out why customers are not buying the product (which signals they're not satisfied).

**NEW QUESTION # 51**

A bread factory is introducing a 'Poka yolk' methodology to reduce defects. What will be the focus of this?

- A. staff- the reduction of human error
- B. inputs such as the quality of raw materials
- C. outputs- which will be measured against strict criteria
- D. machinery- ensuring there is little to no downtime in machinery use

**Answer: A**

Explanation:

Poka Yolk is about reducing human / user errors. This is from p.134

**NEW QUESTION # 52**

An 'Order Qualifying' Objective contributes to the success of a business in that it is a criteria that will guarantee a customer will purchase an item. Is this sentence TRUE?

- A. no- order qualifying is the process of accepting an order from a client, which may be rejected by the organisation
- **B. no- this means a customer will buy from the organisation, but not this particular product**
- C. yes- these objectives always guarantee a sale
- D. yes- this means the product is superior to that of competitors

**Answer: B**

Explanation:

3 is correct- the sentence is false. 'Order Qualifying' is 'not a major factor in determining business success but plays a role in determining whether a customer will consider buying from the business or not'. This is a direct quote from p.43. 'Order Winners' is something that will guarantee a customer buys that product.

### NEW QUESTION # 53

Which of the following will increase 'order winning' objectives of a retail organisation?

- A. streamlined operations procedures
- B. improved supplier relations
- C. increased costs
- **D. customer loyalty**

**Answer: D**

Explanation:

4 is the correct answer. Here you're looking for the answer which will ensure a customer always picks this business over competitors. Of the four options given, loyalty is the only one that would make sense. Remember 'order winners' are the 'customers' justification for their purchase of a product or service'- this is a direct quote from P.43

### NEW QUESTION # 54

.....

Our L5M9 test questions are available in three versions, including PDF versions, PC versions, and APP online versions.
