If you are also planning to attempt the Salesforce Certified Experience Cloud Consultant (EX-Con-101) exam and are confused about where to prepare yourself for it then you are at the right place.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q36-Q41):

NEW QUESTION # 36

What accurately sequences the necessary steps to create a partner user from an enabled partner account?

- A. 1) Edit the user record to assign the correct role/profile. 2) View the partner account contact. 3) Select Manage External User. 4) Select Enable Partner User. 5) Save.
- B. 1) Edit the user record to assign the correct role/profile. 2) View the partner account contact. 3) Select Manage External User. 4) Select Enable Partner Account. 5) Save.
- C. 1) View the partner account contact. 2) Select Manage External User. 3) Select Enable Partner User. 4) Edit the user record to assign the correct role/profile. 5) Save.
- D. 1) View the partner account contact. 2) Select Manage External User. 3) Select Enable Partner Account. 4) Edit the user record to assign the correct role and profile. 5) Save.

Answer: C

Explanation:

To create a partner user from an enabled partner account, the correct sequence of steps is C. A partner user is a user who has access to your Experience Cloud site through a partner account. A partner account is an account that has the Is Partner checkbox enabled. To enable a partner user, you need to view the partner account contact, select Manage External User, select Enable Partner User, edit the user record to assign the correct role and profile, and save.

NEW QUESTION # 37

Northern Trail Outfitters would like to display a different Hero component on the Home page for United States and EMEA. How should an administrator accomplish this?

- A. Create a page variation for EMEA, configure the flexible page layout, and include a different Hero component.
- B. Use the same page variation for EMEA and include multiple targeted HTML components.
- C. Create a page variation for EMEA, configure the Theme, and include a different Hero component.
- D. Use the same page variation for EMEA, include multiple Hero components, and target each component.

Answer: A

Explanation:

Page variations allow you to create different versions of a page for different audiences. You can use the flexible page layout to customize the components and layout of each page variation. You can also target each page variation to a specific audience based on criteria such as location, profile, or record type.

NEW QUESTION # 38

What are two Salesforce recommendations for setting up partner roles in large orgs? Choose 2 answers

- A. Create partner roles in a separate branch in your Role Hierarchy.
- B. Grant partner users access to the partner account using a Sharing Rule.
- C. Create partner roles in the same branch in your Role Hierarchy.
- D. Reduce the number of roles to one to improve system performance.

Answer: A,B

Explanation:

Two Salesforce recommendations for setting up partner roles in large orgs are B and C. Partner roles are roles that are assigned to partner users who access your Experience Cloud site through a partner account. A partner account is an account that has the Is Partner checkbox enabled. To set up partner roles, you should create them in a separate branch in your Role Hierarchy, which allows you to isolate partner data from internal data and control partner visibility and access. You should also grant partner users access to the partner account using a Sharing Rule, which allows you to share records owned by internal users with partner users based on criteria that you define.

NEW QUESTION # 39

No More Homelessness (NMH) is about to create a public site for volunteers where they will be able to sign up for volunteering opportunities at local events. Each registration will result in a record being created for a custom Event Registration object.

Which three considerations should NMH keep in mind for records created by guest users?

Choose 3 answers

- A. When possible, one should create and assign queues as owners of records created by guest users.
- B. Default owner does not need Read/Write access to view the records created by guest users.
- C. Queues cannot be assigned as owners of records created by guest users.
- D. Setting the default owner for records created by guests is an option in Experience Cloud sites.
- E. Any active user in an org can be assigned as the default owner of records created by guest users.

Answer: C,D,E

Explanation:

For records created by guest users, NMH should keep in mind that queues cannot be assigned as owners, setting the default owner is an option in Experience Cloud sites, and any active user in an org can be assigned as the default owner. A queue is a location where records can be routed to await processing by a group of users. However, queues cannot be assigned as owners of records

created by guest users because guest users do not have access to queues. Setting the default owner for records created by guests is an option in Experience Cloud sites that allows NMH to specify who will own the records created by guest users on their public site. Any active user in an org can be assigned as the default owner of records created by guest users, as long as they have the appropriate permissions and access to the object.

NEW QUESTION # 40

universal Containers UC maintains multiple customer-facing sites, but only one profile for all customer users.

No customer has access to more than one site.

Which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- **A. Create a permission set.**
- B. Select the profile for a given site.
- C. Edit the applicable user profile.
- **D. Select a permission set for a given site.**

Answer: A,D

Explanation:

To grant access to each customer to only one site, UC should create a permission set and select a permission set for a given site. A permission set is a collection of settings and permissions that give users access to various tools and functions. UC can create a permission set for each site that specifies the site access and the object permissions for the customer users. UC can then select a permission set for a given site in the Experience Builder, which will assign the permission set to all new and existing users of that site.

NEW QUESTION # 41

.....

By virtue of our EX-Con-101 practice materials, many customers get comfortable experiences of Whole Package of Services and of course passing the EX-Con-101 study guide successfully.
