Fortinet - Efficient Test FCSS_ADA_AR-6.7 Questions Fee

Itcerttest has designed Itcerttest which has actual exam Dumps questions, especially for the students who are willing to pass the Fortinet FCSS_ADA_AR-6.7 exam for the betterment of their future. The study material is available in three different formats. Fortinet FCSS_ADA_AR-6.7 Practice Exam are also available so the students can test their preparation with unlimited tries and pass FCSS—Advanced Analytics 6.7 Architect (FCSS_ADA_AR-6.7) certification exam on the first try.

Fortinet FCSS—Advanced Analytics 6.7 Architect Sample Questions (Q25-Q30):

NEW QUESTION # 25
Refer to the exhibit.

Edit SubPattern

Name: DomainAcctLockout

Filters:	Paren	Attribute	Operator	Value	Paren	Next	Row
	+	Event Type	IN	EventTypes: Domain Account Locked	+	AND	+
	+	Reporting IP	IN	Applications: Domain Controller	+	AND	+

Aggregate:	Paren	Attribute	Operator	Value	Paren	Next	Row
	+	COUNT(Matched Events)		1	+	AND	+

Group By:	Attribute	Row	Move
	Reporting Device	+	+
	Reporting IP	+	+
	User	+	+

Which statement about the rule filters events shown in the exhibit is true?

- A. The rule filters events with an event type that equals Domain Account Locked and a reporting IP that equals Domain Controller applications.
- B. The rule filters events with an event type that belong to the Domain Account Locked CMDB group or a reporting IP that belong to the Domain Controller applications group.
- C. The rule filters events with an event type that belong to the Domain Account Locked CMDB group and a reporting IP that belong to the Domain Controller applications group.
- D. The rule filters events with an event type that belong to the Domain Account Locked CMDB group and a user that belongs to the Domain Controller applications group.

Answer: C

NEW QUESTION # 26

Refer to the exhibit.

1 FortiSIEM Agent Operational Error Incident for Last 2 Hours

Severity Category	Last Occurred	Incident	Reporting	Target	Detail
HIGH	Sep 14 2021, 09:10:00 AM	FortiSIEM Agent Operational Error	HOST-10.0.1.130	AGENT, Server, 2019	Component Event Type: PH_AUDIT_AGEN Type: Windows

How long has the UEBA agent been operationally down?

- A. 21 Hours
- B. 9 Hours
- C. 2 Hours
- D. 20 Hours

Answer: D

Explanation:

Based on the provided exhibit, we can determine how long the UEBA agent has been operationally down by looking at the "First Occurred" and "Last Occurred" timestamps.

First Occurred: Sep 13, 2021, at 01:10 PM

Last Occurred: Sep 14, 2021, at 09:10 AM

From Sep 13, 01:10 PM to Sep 14, 01:10 AM # 12 hours

From Sep 14, 01:10 AM to Sep 14, 09:10 AM # 8 hours

Total downtime = 12 + 8 = 20 hours

NEW QUESTION # 27

Refer to the exhibit.

Which deployment type is shown in the exhibit?

- A. Enterprise cloud deployment
- B. Service provider without collectors
- C. Service provider with collectors
- D. Hybrid deployment with and without collectors

Answer: D

Explanation:

The exhibit shows a FortiSIEM cluster deployed in a multi-tenant service provider environment, serving multiple customers. The architecture includes:

1. Customers with Collectors

Customer A and Customer B (AWS) have collectors deployed within their environments.

Collectors gather and forward logs to the FortiSIEM cluster for centralized analysis.

2. Customers Without Collectors

Customer C does not have a collector; instead, it sends logs directly to the FortiSIEM cluster.

3. Super Organization Managing Infrastructure

The service provider infrastructure devices (e.g., networking and security appliances) are managed directly by the FortiSIEM cluster.

This mixed setup, where some customers use collectors while others send logs directly, represents a hybrid deployment with and without collectors.

NEW QUESTION # 28

FortiSIEM's UEBA capabilities primarily focus on:

- A. Providing encryption algorithms for data transfers?
- B. Monitoring and analyzing behavior patterns to identify potential risks?
- C. Ensuring all users have similar access privileges?
- D. Streamlining the software update process?

Answer: B

NEW QUESTION # 29

What is the disadvantage of automatic remediation?

- A. Threat behavior occurring during the night could take hours to respond to.
- **B. It can make a disruptive change to a user, block access to an application, or disconnect critical systems from the network.**
- C. It is equivalent to running an IPS in monitor-only mode-watches but does not block.
- D. External threats or attacks detected by FortiSIEM will need user interaction to take action on an already overworked SOC team.

Answer: B

Explanation:

Automatic remediation in FortiSIEM enables real-time response to security threats without manual intervention.

While this can improve response times, it also introduces risks because actions are taken automatically based on predefined rules, without human verification.

Automated responses could mistakenly block legitimate users from critical systems or applications.

Misconfigured rules might disconnect essential systems, causing business disruptions.

If an incident is a false positive, automatic remediation may interfere with normal operations unnecessarily.

NEW QUESTION # 30

.....

Our FCSS—Advanced Analytics 6.7 Architect test torrent has been well received and have reached 99% pass rate with all our dedication. As a powerful tool for a lot of workers to walk forward a higher self-improvement, our FCSS_ADA_AR-6.7 certification training continued to pursue our passion for advanced performance and human-centric technology. Only 20-30 hours are needed for you to learn and prepare our FCSS_ADA_AR-6.7 test questions for the exam and you will save your time and energy. No matter you are the students or the in-service staff you are busy in your school learning, your jobs or other important things and can't spare much time to learn. But you buy our FCSS_ADA_AR-6.7 Exam Materials you will save your time and energy and focus your attention mainly on your most important thing. You only need several hours to learn and prepare for the exam every day.
