CISA Test Registration - CISA Exam Actual Tests

The industry experts hired by CISA exam materials are those who have been engaged in the research of CISA exam for many years. They have a keen sense of smell in the direction of the exam. Therefore, they can make accurate predictions on the exam questions. Therefore, our study materials specifically introduce a mock examination function. With CISA exam materials, you can not only feel the real exam environment, but also experience the difficulty of the exam. You can test your true level through simulated exams. At the same time, after repeated practice of CISA study braindumps, I believe that you will feel familiar with these questions during the exam and you will feel that taking the exam is as easy as doing exercises in peace.

ISACA Certified Information Systems Auditor Sample Questions (Q27-Q32):

NEW QUESTION # 27

Following a security breach in which a hacker exploited a well-known vulnerability in the domain controller, an IS audit has been asked to conduct a control assessment. the auditor's BEST course of action would be to determine if:

- A. the patches were updated.
- B. The network traffic was being monitored.
- C. The logs were monitored.
- D. The domain controller was classified for high availability.

Answer: A

NEW QUESTION # 28

Which of the following is a feature of an intrusion detection system (IDS)?

- A. Identifying weaknesses in the policy definition
- B. Gathering evidence on attack attempts

- C. Blocking access to particular sites on the Internet
- D. Preventing certain users from accessing specific servers

Answer: B

Explanation:

An IDS can gather evidence on intrusive activity such as an attack or penetration attempt. Identifying weaknesses in the policy definition is a limitation of an IDS. Choices C and D are features of firewalls, while choice B requires a manual review, and therefore is outside the functionality of an IDS.

NEW QUESTION # 29

During the design phase of a software development project, the PRIMARY responsibility of an IS auditor is to evaluate the:

- A. future compatibility of the design.
- B. development methodology employed.
- C. controls incorporated into the system specifications.
- D. proposed functionality of the application.

Answer: C

NEW QUESTION # 30

Which of the following reduces the potential impact of social engineering attacks?

- A. Effective performance incentives
- B. Security awareness programs
- C. Compliance with regulatory requirements
- D. Promoting ethical understanding

Answer: B

Explanation:

Because social engineering is based on deception of the user, the best countermeasure or defense is a security awareness program. The other choices are not user-focused.

NEW QUESTION # 31

Which of the following tasks should be performed FIRST when preparing a disaster recovery plan?

- A. Appoint recovery teams with defined personnel, roles and hierarchy.
- B. Perform a business impact analysis.
- C. Develop a recovery strategy.
- D. Map software systems, hardware and network components.

Answer: B

Explanation:

Explanation/Reference:

Explanation:

The first step in any disaster recovery plan is to perform a business impact analysis. All other tasks come afterwards.

NEW QUESTION # 32

.....
