**Pass Guaranteed 2023 Salesforce New ADM-201 Test Testing**

Generally speaking, preparing for the ADM-201 exam is a very hard and even time consuming process. Because time is limited, sometimes we have to take time to do other things to review the material. However, if you are looking for a reliable test, our ADM-201 Reliable Test is the best choice. In view of customers, our ADM-201 Reliable Test will not let you differ from this. We have a high pass rate of our ADM-201 study materials as 99% to 100%. Our ADM-201 learning guide will be your best choice.

**Salesforce Certified Administrator Sample Questions (Q223-Q228):**

**NEW QUESTION # 223**  
Universal Contractors has purchased additional accounts for the new sales representative that will start in 30 days. The new accounts for the new representatives will not be active until they start. The new users should be set up ahead of time to assign records, list views, and other Salesforce features needed the day they start. Which method should a System Administrator use to set up the new users without sending a notification?

- A. Create the new users, and then set the start date for 30 days ahead.
- B. Create the new users and include Generate New Password, and notify the user.
- C. Create the new users, and then freeze the users.
- D. Create the new users, and then assign a permission set with a start date for 30 days ahead.

**Answer: D**

**NEW QUESTION # 224**  
Orca-Major Solar has Opportunity to track sales of solar energy products. The company has two separate sales teams that focus on different energy markets. The sales team can also want to use Opportunity to track installation. All three teams will need to use different field and stages. How should the administrator handle this?

- A. Create one sales object. Create three record types and three page layouts.
- B. Create three sales processes. Create three record types and three page layouts.
- C. Create one sales process. Create one record type and three page layouts.
- D. Create three sales processes. Create three record types and one page layout.

**Answer: A**

**NEW QUESTION # 225**  
How many roles can you create for your org?

- A. 5
- B. 10

[New ADM-201 Test Testing & ADM-201 Test Question](#)

Life is beset with all different obstacles that are not easily overcome. For instance, Analytics-Con-201 exams may be insurmountable barriers for the majority of population. However, with the help of our exam test, exams are no longer problems for you. The reason why our Analytics-Con-201 training materials outweigh other study prep can be attributed to three aspects, namely free renewal in one year, immediate download after payment and simulation for the software version. Now that using our Analytics-Con-201 practice materials have become an irresistible trend, why don't you accept Analytics-Con-201 learning guide with pleasure?

Our Analytics-Con-201 exam question is widely known throughout the education market. Almost all the candidates who are ready for the qualifying examination know our Analytics-Con-201 exam questions. Even when they find that their classmates or colleagues are preparing a Analytics-Con-201 exam, they will introduce our study materials to you. So, our learning materials help users to be assured of the Analytics-Con-201 Exam. Currently, my company has introduced three versions of Analytics-Con-201 learning materials, covering almost all the needs of the different customers.

## Analytics-Con-201 Reliable Test Testking, Authorized Analytics-Con-201 Exam Dumps

Don't let the Salesforce Certified CRM Analytics and Einstein Discovery Consultant exam stress you out! Prepare with our

Analytics-Con-201 exam dumps and boost your confidence in the Analytics-Con-201 exam. We guarantee your road toward success by helping you prepare for the Analytics-Con-201 exam. Use the best Salesforce Analytics-Con-201 practice questions to pass your Analytics-Con-201 Exam with flying colors! In this way, the Salesforce Certified CRM Analytics and Einstein Discovery Consultant certified professionals can not only validate their skills and knowledge level but also put their careers on the right track. By doing this you can achieve your career objectives.

## **Salesforce Certified CRM Analytics and Einstein Discovery Consultant Sample Questions (Q48-Q53):**

### **NEW QUESTION # 48**

A versioning feature allows CRM Analytics users to be added as Publishers and make changes separately while a 'Live' version is still being used by other users. Once the changes are complete, the user can then set their updated version as the Live version. Which CRM Analytics item is this leveraged for?

- A. App
- B. goats
- C. Dataset

### **Answer: A**

Explanation:

In CRM Analytics, the versioning feature described is typically leveraged for Apps. This feature allows:

- \* Parallel Development: Users can work on changes in a separate version without affecting the live version being accessed by others.
- \* Controlled Publishing: Once changes are finalized, the user can then promote their version to be the new live version, ensuring seamless updates without disrupting ongoing usage.
- \* Collaborative Workflows: Facilitates teamwork by allowing multiple users to propose and test changes in a controlled environment before making those changes live.

This approach ensures that CRM Analytics apps remain dynamic and can evolve over time while maintaining stability and continuity for end-users.

### **NEW QUESTION # 49**

CRM Analytics team plans to enable data sync.

Which limit specific to data sync should the team consider before enabling the feature because it may impact existing jobs?

- A. Maximum number of objects that can be enabled for data sync
- B. Maximum number of Full Sync connection mode enabled
- C. Maximum number of data sync jobs cannot exceed the limit

### **Answer: A**

Explanation:

In CRM Analytics, when planning to enable data sync, one of the critical considerations is the limit on the number of objects that can be enabled for data sync. This limit is essential because it determines how many different Salesforce objects (like Accounts, Opportunities, etc.) can be synchronized concurrently. Exceeding this limit could impact the performance of existing sync jobs or prevent new sync jobs from being configured.

Key points to consider include:

- \* Performance Impact: Syncing too many objects simultaneously can lead to increased load times and potential delays in data availability, impacting users' ability to access up-to-date information.
- \* Resource Allocation: CRM Analytics allocates resources based on the number of objects being synchronized, and there are practical limits to these resources to ensure stable and efficient operation.

For a more detailed understanding and to manage these limits effectively, Salesforce provides documentation and guidelines within the CRM Analytics resources, which can be further explored in the Trailhead modules specifically focusing on data management and synchronization practices.

### **NEW QUESTION # 50**

Universal Containers asks a CRM Analytics consultant to review the performance of its local data sync.

After removing unused objects and fields from connected data, what else should the consultant do to improve performance of the data sync?

- A. Evaluate connection mode for each connected object.
- B. Enable fast sync in analytics settings.
- C. Contact Salesforce Support to increase sync speed.

**Answer: A**

Explanation:

To improve the performance of local data sync in Universal Containers, evaluating the connection mode for each connected object is a practical approach. Here's the rationale:

- \* Optimization of Resources: Different connection modes (e.g., Full Sync, Incremental Sync) use different amounts of resources. Choosing the right mode for each object based on how frequently its data changes can optimize the sync process and reduce load times.
- \* Efficient Data Handling: By tailoring the connection mode to the needs of specific data objects, the overall efficiency of the data sync process is improved, leading to faster refresh rates and more timely data availability.
- \* Cost and Performance Balance: Evaluating and selecting the appropriate connection mode can also help balance performance needs with cost constraints, as some modes may consume more compute resources than others.

**NEW QUESTION # 51**

In a dataset, there are multiple boolean fields. When displayed on any dashboard, the boolean fields should all be displayed in the same way: a value of true should result in the display of the word "Yes" in green; a value of false should result in the display of the word "No" in red.

How should the consultant accomplish this?

- A. Create an XMD node in the recipe to change the label and color of the values in the fields.
- B. In the explorer's field panel, select the boolean fields and use the "edit values" option on the fields to change values and colors.
- C. Select the boolean fields in the explorer's field panel, select the boolean fields, then create a derived dimension.

**Answer: B**

**NEW QUESTION # 52**

Universal Containers' sales team is looking to build a dashboard that shows the total revenue from their top 10 accounts (based on revenue) and make it dynamic with the filters of the dashboard.

Which action is required to accomplish this?

- A. Create 2 query with a selection based interaction as a filter using the limit query to pass in the 10 Account IDs.
- B. Create a query and sort descending by revenue and limit it to 10 results.
- C. Create a query with a results based interaction as a filter using the limit query to pass in the 10 Account IDs.

**Answer: B**

Explanation:

To create a dashboard showing the top 10 accounts by revenue dynamically, the best approach is to create a query that sorts the accounts in descending order by revenue and limits the results to the top 10. This query can then be used as the data source for the widget, ensuring that it dynamically adjusts based on the filters applied to the dashboard.

This method efficiently handles the task because sorting by revenue and limiting the results to 10 ensures that only the top accounts are displayed, and it remains dynamic with dashboard filters.

**NEW QUESTION # 53**

.....

our Salesforce Analytics-Con-201 actual exam has won thousands of people's support. All of them have passed the exam and got the certificate. They live a better life now. Our Analytics-Con-201 study guide can release your stress of preparation for the test. Our Analytics-Con-201 Exam Engine is professional, which can help you pass the exam for the first time.
