ECC101 Test 2: Exam Advice & Focus Areas (Based on Past Papers)

Disclaimer: This guide highlights how questions are typically asked and what the lecturer focuses on in the test. Please note that this guide is based on patterns observed from past papers and highlights areas that are commonly tested by the lecturer. While these focus areas will help guide your revision, the lecturer may ask questions in different formats.

CHAPTER 5: ELASTICITY (HIGH PRIORITY)

What the Lecturer Usually Asks

- Calculation of Price Elasticity of Demand (PED)
- Interpretation of the value (elastic, inelastic, unit elastic)
- Short explanations based on the results

Key Advice: Elasticity can be tested in many different ways, so you must understand the concept, not just memorise the formula.

NB: Common Mistakes to Avoid

Students often misunderstand **negative values**.

- The **negative sign** only shows the relationship between price and quantity.
- You must use the **absolute value** to interpret elasticity.

Example: If PED = -1.5

- Absolute value = 1.5
- Therefore it is **Elastic (NOT Inelastic)**
- The value is 1.5 but the relationship is **negative**.
- NB: Always classify using the number **without the sign**.

Basically, this is what I am saying. Inelasticity can be examined in many different ways. In price elasticity of demand, there is a strong emphasis on using the absolute value when interpreting results. For inelastic demand, the value must be less than 1. However, students often make the mistake of misinterpreting negative values. For example, if a student calculates elasticity as -1.5, they may incorrectly assume that since -1.5 is less than 1, the demand is inelastic.

This is incorrect. In elasticity, the negative sign only indicates the inverse relationship between price and quantity demanded. The actual value of elasticity is determined by the magnitude

P.S. Free 2026 IBM C1000-197 dumps are available on Google Drive shared by Pass4cram: <https://drive.google.com/open?id=1tgDICE1HAQoXdrxjIZPEW8sKoO39BVDD>

Pass4cram also presents desktop-based IBM C1000-197 practice test software which is usable without any internet connection after installation and only required license verification. IBM C1000-197 practice test software is very helpful for all those who desire to practice in an actual IBM Guardium Data Protection v12.x Administrator - Professional (C1000-197) exam-like environment. IBM Guardium Data Protection v12.x Administrator - Professional (C1000-197) practice test is customizable so that you can change the timings of each session. Pass4cram desktop IBM C1000-197 practice test questions software is only compatible with windows and easy to use for everyone.

Our company has always been following the trend of the C1000-197 certification. Our research and development team not only study what questions will come up in the C1000-197 exam. The content of our C1000-197 practice materials is chosen so carefully that all the questions for the exam are contained. And our study materials have three formats which help you to read, test and study anytime, anywhere. This means with our products you can prepare for exams efficiently. If you desire a C1000-197 Certification, our products are your best choice.

Free PDF C1000-197 - IBM Guardium Data Protection v12.x Administrator - Professional Useful Examinations Actual Questions

In this rapid rhythm society, the competitions among talents are growing with each passing day, some job might ask more than one's academic knowledge it might also require the professional C1000-197 certification and so on. It can't be denied that professional certification is an efficient way for employees to show their personal IBM Guardium Data Protection v12.x Administrator - Professional abilities. In order to get more chances, more and more people tend to add shining points, for example a certification to their resumes. Passing exam won't be a problem anymore as long as you are familiar with our C1000-197 Exam Material (only about 20 to 30 hours practice). High accuracy and high quality are the reasons why you should choose us.

IBM Guardium Data Protection v12.x Administrator - Professional Sample Questions (Q96-Q101):

NEW QUESTION # 96

Why is it important to group monitored databases logically within Guardium after deployment?

- A. To simplify administration and apply policies consistently
- B. To reduce storage space requirements
- C. To ensure databases automatically inherit license types
- D. To allow databases to share encryption keys

Answer: A

NEW QUESTION # 97

What is applied first to upgrade a Guardium appliance?

- A. Sniffer Update
- B. Security Update
- C. GPU Patch
