NEW QUESTION # 26

BIA helps you identify

- A. Critical services and products
- B. Tangible and intangible impact of a disruption over period of time
- C. Critical interdependencies and interested parties
- D. All of the above

Answer: D

Explanation:

Explanation

BIA helps to identify all of the above aspects of an organization's functions and processes. It helps to identify the critical services and products that the organization delivers to its customers and stakeholders, and the functions and processes that support them. It also helps to identify the critical interdependencies and interested parties that are involved in or affected by the organization's functions and processes, such as suppliers, partners, regulators, or employees. Moreover, it helps to identify the tangible and intangible impacts of a disruption to the organization's functions and processes over a period of time, such as financial losses, reputational damage, legal liabilities, or customer dissatisfaction. NEW QUESTION # 27

Risk ownership must be clearly set out, documented and agreed with the individual owners at all levels of the operational risk management process.

- A. False
- **B. True**

Answer: B

Explanation:

Explanation

Risk ownership must be clearly set out, documented and agreed with the individual owners at all levels of the operational risk management process. This is true because risk ownership is one of the key principles of business continuity management. Risk ownership means that each risk has a designated person who is responsible and accountable for its identification, assessment, treatment, monitoring, and reporting. Risk owners should have the authority and resources to manage their risks effectively and efficiently. Verified References:

NEW QUESTION # 28

A consultant is a person who borrows your watch to tell you the time, charges you for doing so and then sells you back your watch.

- **A. False**
- B. True

Answer: A

Explanation:

Explanation

A consultant is a person who borrows your watch to tell you the time, charges you for doing so and then sells you back your watch. This is false because it is a cynical and unfair description of a consultant's role and value. A consultant is a person who provides professional or expert advice in a specific field or domain. A consultant can help an organization to identify problems, analyze situations, develop solutions, implement changes, improve performance, or achieve goals. A consultant can also provide knowledge, skills, tools, or resources that the organization may not have or need temporarily. Verified References:

NEW QUESTION # 29

Which of the following is a low-pressure exercise that uses presentation techniques including videos, slides, and handouts, so that participants fully understand their plans?

- A. Virtualization
- B. Single team simulation
- **C. Plan walkthrough**
- D. Facilitated discussion

Answer: C

Explanation:

A plan walkthrough is a low-pressure exercise that uses presentation techniques including videos, slides and handouts, so that participants fully understand their plans.

NEW QUESTION # 30

A disaster can also be declared for an illness pandemic where a significant portion of employees are sick.

- A. False
- **B. True**

Answer: B

Explanation:

Explanation

A disaster can also be declared for an illness pandemic where a significant portion of employees are sick. This is true because an illness pandemic is a type of natural disaster that can affect an organization's ability to continue its normal operations. An illness pandemic can cause absenteeism, reduced productivity, increased costs, supply chain disruptions, customer dissatisfaction, or regulatory compliance issues. Therefore, an organization may need to declare a disaster and activate its business continuity and disaster recovery plan if an illness pandemic impacts its critical functions and processes beyond an acceptable level.
