Valid Braindumps NS0-901 Ppt - Successfully Pass The NetApp Certified AI Expert Exam

Our NS0-901 exam training material is organized by high experienced IT workers. Our IT elite team offer new version of NS0-901 Exam real questions gradually, which aims to ensure examinees pass NS0-901 test in one time.

Network Appliance NetApp Certified AI Expert Exam Sample Questions (Q59-Q64):

NEW QUESTION # 59

A pharmaceutical company is creating a "digital twin" of its manufacturing process. This involves running complex simulations (an HPC workload) that generate massive datasets.

The company wants to use this data immediately for two other purposes:

1. Analytics: Business analysts need to run complex queries on the simulation output using tools like Spark.
2. AI Training: Data scientists need to use the same output as a training set for a predictive maintenance model.

The company wants to avoid creating separate data silos for each workload.

Which two NetApp technologies are best suited for building a unified data lake that can efficiently serve all three workloads (HPC, Analytics, AI)? (Choose 2.)

- A. NetApp SnapCenter to create application-consistent backups of the data.
- B. NetApp ONTAP with FlexGroup volumes to provide high-throughput, parallel NFS access for the HPC and AI training workloads.
- C. NetApp Keystone to provide a flexible, pay-as-you-go consumption model for the infrastructure.
- D. NetApp StorageGRID to provide a scalable, S3-native object store that integrates directly with modern analytics platforms like Spark.
- E. NetApp Autonomous Ransomware Protection to secure the data from modification.

Answer: B,D

NEW QUESTION # 60

The company's compliance officer mandates that all raw simulation data in the StorageGRID data lake must be protected from modification or deletion for a period of seven years. Which two StorageGRID features should be implemented to meet this strict, long-term data immutability requirement? (Choose 2.)

- A. Configure an Information Lifecycle Management (ILM) rule that applies to the bucket and sets a retention period of seven years.
- B. Enable Autonomous Ransomware Protection (ARP) on the StorageGRID system.
- C. Encrypt all objects in the bucket using server-side encryption (SSE).
- D. Use NetApp SnapMirror to replicate the data to a second StorageGRID system.
- E. Create a new S3 bucket with Object Lock enabled in Compliance mode.

Answer: A,E

NEW QUESTION # 61

The firm's data science team needs to run a high-priority, interactive model analysis job that requires immediate access to two GPUs. However, all GPUs in the cluster are currently allocated to long-running, lower-priority batch training jobs.

The MLOps platform, Run:AI, shows the following queue status:

```
JOB_ID | PROJECT | STATUS | PRIORITY | GPU_ALLOCATED
```

```
||--|
```

```
batch_job_1 | team_a | Running | Low | 2
```

```
batch_job_2 | team_a | Running | Low | 2
```

```
batch_job_3 | team_b | Running | Low | 4
```

```
interactive_1 | team_c | Pending | High | 2 (requested)
```

How does the Run:AI platform address this resource contention to allow the high-priority job to run?

- A. It automatically pauses one of the low-priority jobs, saves its state, and allocates its GPUs to the high-priority job, placing the paused job back in the queue.
- B. It sends an email notification to the administrator to manually reallocate the GPUs.
- C. It keeps the high-priority job in a pending state until the low-priority jobs complete naturally.
- D. It automatically terminates all low-priority jobs to free up the entire cluster.

Answer: A

NEW QUESTION # 62

A security administrator is reviewing the configuration of a production ONTAP cluster after a compliance audit. The audit requires that all volumes containing financial data must be protected against ransomware. The administrator runs a command to check the status of Autonomous Ransomware Protection (ARP) on a critical volume.

The command and its output are as follows:

```
cluster-1:~> security ransomware anti-ransomware show -vserver svm_finance -volume finance_q1_data
Vserver: svm_finance
Volume: finance_q1_data
Autonomous Ransomware Protection Status: disabled
Learning Mode: normal
Dry Run Mode: false
Action on Detection: notify
Based on this output, what is the primary security risk for the 'finance_q1_data' volume?
```

- A. The action on detection is set only to "notify," which will not block the attack.
- **B. The volume is vulnerable to ransomware because Autonomous Ransomware Protection is not enabled.**
- C. The learning mode is set to "normal," which may not detect zero-day attacks.
- D. The volume is not part of any Snapshot schedule.

Answer: B

NEW QUESTION # 63

An MLOps team uses a variety of platforms to manage their AI workloads. They need to understand the primary function of each tool within their ecosystem. Which statement best describes the role of an MLOps/LLMOps platform like Kubeflow or Run:AI?

- A. They are integrated development environments (IDEs) used exclusively for writing Python code.
- B. They are networking protocols designed to accelerate data transfer between GPUs.
- C. They are specialized storage systems designed to hold large datasets for training.
- **D. They are orchestration and management platforms that automate and streamline the entire AI/ML lifecycle, from data preparation and model training to deployment and monitoring.**

Answer: D

NEW QUESTION # 64

.....

Whereas the other two NetApp Certified AI Expert Exam (NS0-901) exam questions formats are concerned both are the easy-to-use and compatible mock NS0-901 exam that will give you a real-time environment for quick Network Appliance Exams preparation. Now choose the right NetApp Certified AI Expert Exam (NS0-901) exam questions format and start this career advancement journey.

NS0-901 Latest Exam Price: https://www.itexamguide.com/NS0-901_braindumps.html

So you really do not need to worry about your money, you might as well have a try, our Network Appliance NS0-901 exam braindumps are the best choice for you, And our pass rate of the NS0-901 training engine is high as 98% to 100%, it is the data that proved and tested by our loyal customers, Network Appliance Valid Braindumps NS0-901 Ppt Reliable support from customer service agent, Network Appliance Valid Braindumps NS0-901 Ppt Our thoughtful service is also part of your choice of buying our learning materials.

Best Practices, Downloadable Version, Everything is difficult at beginning, So you really do not need to worry about your money, you might as well have a try, our Network Appliance NS0-901 Exam Braindumps are the best choice for you.

Free PDF Network Appliance - NS0-901 Authoritative Valid Braindumps Ppt

And our pass rate of the NS0-901 training engine is high as 98% to 100%, it is the data that proved and tested by our loyal customers, Reliable support from customer service agent.

Our thoughtful service is also part of your choice of buying our learning materials, Before making a final purchase, Itexamguide customers can try the features of the NS0-901 practice material with a free demo.
