Peoplecert ITIL 4 Specialist: Business Relationship Management Sample Questions (Q23-Q28):

NEW QUESTION # 23
What is an output of the 'managing business relationship journeys' process?

- A. BRM training and awareness material
- B. Updated relationship records
- C. A review of the organization's culture
- D. Business relationship principles and models

Answer: B

Explanation:
An output of managing business relationship journeys is updated relationship records, which capture the current status and outcomes of those journeys for ongoing management.

NEW QUESTION # 24
An organization is observing the interactions they have with their customers when negotiating service targets.
Which technique is this an example of?

- A. Voice of the customer
- B. Stakeholder analysis and mapping
- C. Gemba walk
- D. Value stream mapping

Answer: C

Explanation:
A Gemba walk involves directly observing work and interactions in the real environment such as customer negotiations to gain firsthand insights into processes.

NEW QUESTION # 25
Which activity is NOT likely to be performed by a partner or supplier in support of the business relationship management practice?

- A. Performing and analyzing satisfaction surveys of business relationships.
- B. Providing tools to assist the business relationship management practice.
- C. Advising the internal IT service provider on experience management techniques.
- D. Being accountable for the business relationships and the BRM practice.

Answer: D

Explanation:
Accountability for the organization's business relationships and the BRM practice remains an internal responsibility; partners and suppliers support but do not hold that accountability.

NEW QUESTION # 26
An organization is performing a stakeholder analysis.
Which is an example of a stakeholder that should be monitored?

- A. A financial controller who has little interest in a project
- B. End users who have no control over or interest in the software they use
- C. A business relationship manager who wants to ensure that a service fulfils the customer's needs
- D. A senior manager who has control of a project

Answer: B

Explanation:
End users with neither control (power) nor interest fit the "monitor" category in stakeholder analysis, requiring minimal effort to track their status.

NEW QUESTION # 27
Which business relationship activity is MOST LIKELY to need leadership competency?

- A. Identifying stakeholders and relationship model
- B. Reviewing and adjusting business relationship models
- C. Embedding business relationship models into service value streams
- D. Following a business relationship model

Answer: C

Explanation:
Embedding business relationship models into service value streams requires leadership competency to influence organizational change, secure buy-in, and guide teams through adoption.
