Router ID of this device	10.0.2.2
Router ID of the peer device	10.0.1.1
The interface IP address of this device	0.0.0.0
District City 1D where this equipment is held	10.0.123.1

P.S. Free & New H12-821_V1.0 dumps are available on Google Drive shared by TestInsides: <https://drive.google.com/open?id=1feeDZbMysu67aXYuxsohBhLybtBLRlbq>

TestInsides customizable practice exams (desktop and web-based) help students know and overcome their mistakes. The customizable Huawei H12-821_V1.0 practice test means that the users can set the HCIP-Datacom-Core Technology V1.0 (H12-821_V1.0) Dumps and time according to their needs so that they can feel the real-based H12-821_V1.0 exam scenario and learn to handle the pressure.

If you are new to our H12-821_V1.0 exam questions, you may doubt about them a lot. And that is normal. Many of our loyal customers first visited our website, or even they have bought and studied with our H12-821_V1.0 practice engine, they would worried a lot. But when they finally passed the exam with our H12-821_V1.0 simulating exam, they knew that it is valid and helpful. And we also have free demos on our website, then you will know the quality of our H12-821_V1.0 training quiz.

>> H12-821_V1.0 Valid Test Topics <<

H12-821_V1.0 Exam Fees, H12-821_V1.0 Reliable Dumps Book

The research and production of our H12-821_V1.0 exam questions are undertaken by our first-tier expert team. The clients can have a free download and tryout of our H12-821_V1.0 test practice materials before they decide to buy our products. They can use our products immediately after they pay for the H12-821_V1.0 Test Practice materials successfully. There are so many advantages of our H12-821_V1.0 learning guide that we can't summarize them with several simple words. You'd better look at the introduction of our H12-821_V1.0 exam questions in detail as follow by yourselves.

Huawei HCIP-Datacom-Core Technology V1.0 Sample Questions (Q985-Q990):

NEW QUESTION # 985

BGP is generally applied to complex networks where routes change frequently. Frequent route flapping consumes a large number of bandwidth and CPU resources, and even affects the normal operation of the network. This is an unavoidable problem that cannot be solved in BGP.

- A. FALSE
- B. TRUE

Answer: A

Explanation:

BGP Route Flapping and Mitigation

* While route flapping is a concern in large-scale networks, BGP employs mechanisms such as Route Dampening to mitigate its impact. Route dampening suppresses frequently flapping routes for a period of time to reduce resource consumption and network instability.

* Therefore, it is incorrect to state that the issue cannot be resolved in BGP.

HCIP-Datacom-Core Reference

* The mechanism of route dampening is detailed in the BGP optimization chapters.

NEW QUESTION # 986

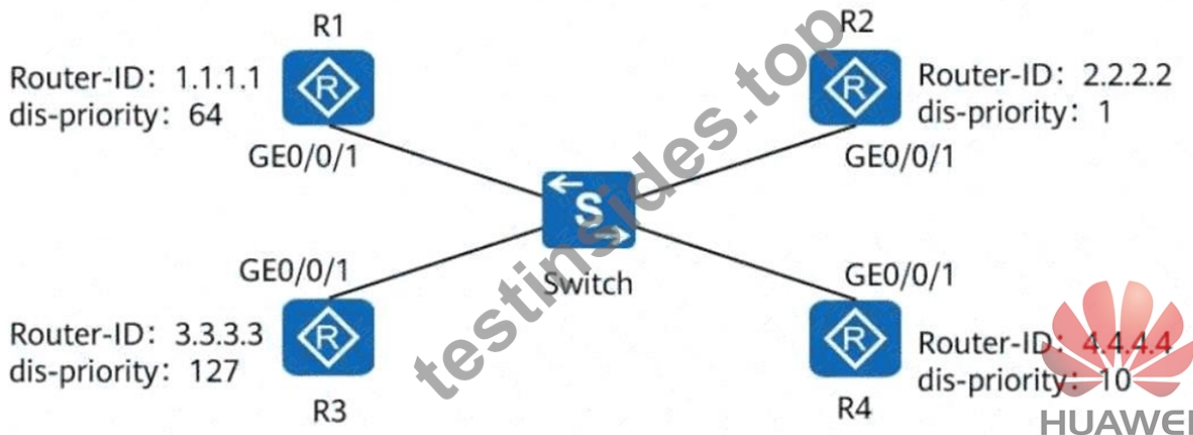

In the IS-IS broadcast network, which multicast MAC address does the Level-2 router use as the destination address for sending IH?

- A. 0180-c200-0014
- B. 0180-c200-0016
- C. 0180-c200-0015
- D. 0100-5E00-0002

Answer: C

NEW QUESTION # 987

On a broadcast IS-IS network shown in the following figure, a DIS needs to be elected to create and update pseudonodes. Which of the following routers is elected as the DIS?

- A. R2
- B. R4
- C. R3
- D. R1

Answer: C

Explanation:

* Understanding DIS Election in IS-IS:

* On an IS-IS broadcast network, a Designated Intermediate System (DIS) is elected to create and update pseudonodes for efficient communication.

* The election is based on the following criteria:

* DIS Priority: The router with the highest priority is elected as the DIS.

* Router ID (tie-breaker): If priorities are equal, the router with the highest Router ID is elected.

* Analyzing the DIS Priorities and Router IDs:

* R1: Priority = 64, Router ID = 1.1.1.1

* R2: Priority = 1, Router ID = 2.2.2.2

* R3: Priority = 127, Router ID = 3.3.3.3

* R4: Priority = 10, Router ID = 4.4.4.4

* Among the routers, R3 has the highest DIS priority (127), making it the DIS.

* Correct Option:

* Option B (R3): Correct, as R3 has the highest priority.

* Option A (R1): Incorrect, as its priority is lower (64).

* Option C (R4): Incorrect, as its priority is lower (10).

* Option D (R2): Incorrect, as its priority is the lowest (1).

NEW QUESTION # 988

Depending on the type of algorithms used, routing protocols are classified into distance-vector protocols and link-state protocols. Which of the following routing protocols are link-state protocols?

- A. BGP
- B. IS-IS
- C. OSPF
- D. RIP

Answer: B,C

Explanation:

Comprehensive and Detailed Step-by-Step Explanation:

* Distance-Vector Protocols:

* Distance-vector protocols determine the best path based on the distance to a destination and periodically share the entire routing table with neighbors.

* Example: RIP is a distance-vector protocol.

* Link-State Protocols:

* Link-state protocols share information about directly connected links, enabling routers to build a complete map of the network.

* OSPF (Open Shortest Path First) and IS-IS (Intermediate System to Intermediate System) are link-state protocols that use Dijkstra's algorithm to calculate the shortest path.

* Border Gateway Protocol (BGP):

* BGP is neither a distance-vector nor a link-state protocol. Instead, it is classified as a path-vector protocol that selects the best path based on attributes such as AS-path, next-hop, and local preference.

NEW QUESTION # 989

During the operation of the DHCP protocol, the process from when the client applies to obtain an IP address is:

- ① The host sends a DHCP Request to request an IP address
- ② Server sends DHCP Offer message response
- ③ The host sends a DHCP Discover message to find DHCP
- ④ Server 4 Server responds with ACK response request after receiving the request

- A. ①-②-③-④
- B. ③-④-①-②
- C. ③-②-①-④
- D. ①-④-③-④

Answer: C

NEW QUESTION # 990

.....

Today the pace of life is increasing with technological advancements. It is important for ambitious young men to arrange time properly. As busy working staff good H12-821_V1.0 test simulations will be helper for your certification. Keeping hard working and constantly self-enhancement make you grow up fast and gain a lot of precious opportunities. Our H12-821_V1.0 test simulations will help you twice the result with half the effort. Chance favors the one with a prepared mind.
