SAP Certified Associate - Security Administrator Sample Questions (Q23-Q28):

NEW QUESTION # 23

What can be assigned directly to a user when using the SAP Launchpad service in SAP BTP?

- A. Catalogs
- B. Spaces
- C. Role collections
- D. Launchpad roles

Answer: C

Explanation:

In the SAP Launchpad service within SAP Business Technology Platform (BTP), Role collections can be assigned directly to a user. Role collections are groups of roles that define access to specific applications, services, or functionalities within the Launchpad, allowing administrators to grant users the necessary permissions to access content, such as Fiori apps or custom applications. By assigning role collections directly to users in the SAP BTP subaccount, administrators ensure that users have the appropriate access rights tailored to their responsibilities. Spaces, which organize apps in the Launchpad, and Catalogs, which group apps and tiles, are assigned to roles or role collections, not directly to users. Launchpad roles are not a distinct entity in SAP BTP; roles are part of role collections. This direct assignment of role collections simplifies access management, ensuring secure and efficient user access to the SAP Launchpad service while aligning with SAP BTP's security and authorization framework.

NEW QUESTION # 24

Which protocol is the industry standard for provisioning identity and access management in hybrid landscapes?

- A. SAML
- **B. SCIM**
- C. OIDC
- D. SSL

Answer: B

Explanation:

SCIM (System for Cross-domain Identity Management) is the industry-standard protocol for provisioning and managing identity information in hybrid landscapes. It simplifies integration between identity providers and systems.

NEW QUESTION # 25

Which of the following are Security Goals? Note: There are 2 correct answers to this question.

- A. Repudiation
- B. Encryption
- **C. Information Integrity**
- **D. Identity Authentication**

Answer: C,D

Explanation:

* Context: Security goals encompass ensuring user authentication, data integrity, and system confidentiality.

* Solution Descriptions:

- * Identity Authentication: Confirms the legitimacy of user identities.
- * Information Integrity: Ensures data accuracy and consistency, a cornerstone of security.

SAP Security References:

- * SAP Security Framework Documents
- * SAP Identity Authentication Service Guidelines

NEW QUESTION # 26

You are evaluating startable applications. Which of the following can you use to check if there is an application start lock on an application contained in a PFCG role? Note: There are 2 correct answers to this question.

- **A. Transaction SUIM - Transactions Executable with Profile report**
- B. Transaction SM01_DEV
- C. Transaction SM01_CUS
- **D. Transaction SUIM-Executable Transactions report**

Answer: A,D

Explanation:

* Context:Application start locks prevent certain transactions or applications from being executed. SUIM provides reporting functionalities to analyze these locks.

* Solution Descriptions:

* A. SUIM-Executable Transactions report:Identifies executable transactions linked to roles and checks for start locks.

* D. SUIM - Transactions Executable with Profile report:Provides detailed insights into transactions executable via specific profiles, also highlighting start locks.

SAP Security References:

* SAP SUIM Documentation

* SAP Help Portal for Transaction Analysis

NEW QUESTION # 27

Which application in SAP S/4HANA Cloud Public Edition allows you to upload employee information independent of the customers' HR system?

- A. Maintain Business User app
- B. Identity and Access Management app
- C. Manage Workforce app
- D. Display Technical Users app

Answer: C

Explanation:

* Context:In SAP S/4HANA Cloud Public Edition, employee information can be uploaded independently of external HR systems for workforce management.

* Solution Explanation:

* TheManage Workforce appallows customers to manage and upload employee-related data without requiring integration with an external HR system.

SAP Security References:

* SAP S/4HANA Cloud Documentation

* SAP Workforce Management Guidelines
