## C\_WME\_2506 Book Free 100% Pass | Reliable C\_WME\_2506: SAP Certified Associate - WalkMe Digital Adoption Consultant 100% Pass

Whatever your professional, working towards a SAP Certified Associate - WalkMe Digital Adoption Consultant C\_WME\_2506 certification or designation takes a significant amount of effort and time. Once you have put all your effort, and investment and prepared well then you will be in a position to pass the SAP Certified Associate - WalkMe Digital Adoption Consultant C\_WME\_2506 Certification Exam. But once you get success in the SAP Certified Associate - WalkMe Digital Adoption Consultant C\_WME\_2506 test you'll be eligible to avail all the personal and professional benefits associated with SAP Certified Associate - WalkMe Digital Adoption Consultant C\_WME\_2506 certification.

### SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q13-Q18):

#### NEW QUESTION # 13

How would you write a jQuery selector for the following HTML element: `<div class="button" id="blueBtn">Click Here</div>`?

- A. `div.blueBtn`
- B. `div#button`
- C. `#blueBtn`
- D. `div#blueBtn`

**Answer: D**

Explanation:

In jQuery, selectors are used to target HTML elements based on their tag, class, ID, or other attributes. The HTML element `<div class="button" id="blueBtn">Click Here</div>` has both an ID (blueBtn) and a class (button). The most specific and efficient selector is one that uses the ID, as IDs are unique within a webpage.

The syntax `div#blueBtn` targets a `<div>` element with the ID blueBtn, ensuring precision while also specifying the element type for clarity, which is a best practice in WalkMe for robust selector reliability.

The other options are incorrect or less optimal:

\* Option A (`div#button`) incorrectly uses the class name as an ID.

\* Option B (`#blueBtn`) is valid but less specific, as it doesn't confirm the element is a `<div>`.

\* Option D (`div.blueBtn`) targets the class, which is less specific than the ID and could match multiple elements.

Extract from Official WalkMe Documentation:

Per the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.7:

jQuery Selectors):

"When writing jQuery selectors for WalkMe, prioritize specificity and reliability. For elements with unique IDs, use the format `tag#id` (e.g., `div#blueBtn`) to ensure accurate targeting while clarifying the element type." The course Advancing Your Skills in Building WalkMe Solutions states:

"For an HTML element like `<div id="blueBtn" class="button">`, the selector `div#blueBtn` is preferred in WalkMe, as it combines the

unique ID with the tag name for maximum reliability." Option C, div#blueBtn, is the correct jQuery selector.

Course: Advancing Your Skills in Building WalkMe Solutions, Module 10: Advanced Selector Techniques.

#### NEW QUESTION # 14

What is the purpose of using the small ghost icon in the WalkMe Editor when customizing an invisible Launcher?

- A. To add animations to the Launcher.
- **B. To automatically make all colors of the Launcher transparent.**
- C. To adjust the size of the Launcher.
- D. To change the Launcher's shape.

**Answer: B**

Explanation:

In the WalkMe Editor, the small ghost icon is a tool used when customizing Launchers to make them invisible by setting their colors to fully transparent. This feature is particularly useful for creating invisible Launchers that overlay and block interaction with specific UI elements without being visible to users. By clicking the ghost icon, the Launcher's colors (background, border, etc.) are automatically set to transparent, ensuring it blends seamlessly into the webpage while still functioning as an interactive element.

The other options are incorrect:

\* Adding animations(A) is handled through other customization settings, not the ghost icon.

\* Adjusting the size(B) is done via resizing controls, not the ghost icon.

\* Changing the shape(C) is managed through shape settings, not transparency.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.3: Launchers):

"The ghost icon in the WalkMe Editor's Launcher customization panel sets all colors of the Launcher to fully transparent, creating an invisible Launcher. This is ideal for scenarios where the Launcher needs to block interaction with an underlying element without being visible." The course Advancing Your Skills in Building WalkMe Solutions notes:

"To create an invisible Launcher, use the ghost icon to automatically apply transparency to all color settings, ensuring the Launcher is undetectable to users while maintaining its functionality." Option D correctly describes the purpose of the ghost icon.

Course: Advancing Your Skills in Building WalkMe Solutions, Module 5: Advanced Launcher Configurations.

#### NEW QUESTION # 15

Which is the most preferred Unique User ID setting and the one you should explore first for UUID setup?

- A. WalkMe ID
- B. Cookie
- C. jQuery
- **D. Variable**

**Answer: D**

#### NEW QUESTION # 16

You are building a WalkMe solution to help your users self-serve and prevent common support tickets from being opened repeatedly. You want to add guidance for the top three support tickets to a page on your website and make it stand out for the end user.

What is the best solution to allow for quick and easy access?

- A. Add it to your list of WalkMe content in the Menu.
- B. Create a Survey to ask end users about their feedback.
- C. Create a large ShoutOut to appear in the middle of the page each time the user visits the page.
- **D. Create a Mini Menu of content from the top three support tickets and place it next to the support ticket form.**

**Answer: D**

### NEW QUESTION # 17

What is the primary purpose of Digital Adoption?

- A. To increase the number of applications used in an organization
- B. To reduce IT support teams by automating all processes
- **C. To ensure employees and customers use digital platforms and capabilities effectively**
- D. To eliminate the need for employee training on new software

**Answer: C**

Explanation:

The primary purpose of Digital Adoption is to ensure employees and customers use digital platforms and capabilities effectively, maximizing the value of software investments. Digital Adoption Platforms (DAPs) like WalkMe achieve this through guidance, analytics, and automation, helping users navigate and master digital tools to achieve business outcomes.

The other options are incorrect:

- \* Eliminating training (A) is not realistic; DAPs support training, not replace it.
- \* Increasing applications (B) is not the goal; it's about effective use of existing tools.
- \* Reducing IT support teams (C) is a secondary benefit, not the primary purpose.

Extract from Official WalkMe Documentation:

According to the SAP WalkMe Digital Adoption Consultant Study Guide (Section 1.1: Introduction to Digital Adoption):

"Digital Adoption aims to ensure that employees and customers effectively utilize digital platforms, enhancing productivity and user satisfaction through tools like DAPs." The course WalkMe Fundamentals states:

"The core purpose of Digital Adoption is to enable effective use of digital tools by employees and customers, driving efficiency and value." Option D is the primary purpose of Digital Adoption.
