Practice AP Precalculus Exam
Exam A
Part I

Name: _____
Period: _____

Section I Part A - Multiple Choice No Calculator
25 Questions - 40 Minutes

Directions: Read each question carefully and select only one choice that best answers each question. Mark your answers on the answer sheet, if provided. All other work besides your answer is not graded. Your total score is based on the number of questions correct, with no points being deducted for incorrect or unanswered questions. A calculator is not allowed on this section of the exam.

1. In the odd function $f(x)$, the $\lim_{x \rightarrow 2^-} f(x) = -\infty$. Which one of the following must also be true?

a. $\lim_{x \rightarrow 2^+} f(x) = -\infty$ b. $\lim_{x \rightarrow 2^+} f(x) = \infty$
c. $\lim_{x \rightarrow 2^-} f(x) = \infty$ d. $\lim_{x \rightarrow 2^-} f(x) = -\infty$

2. If the function $f(x) = \sqrt{x}$ and $g(x) = \frac{1}{x-2}$ were combined according to the descriptions below, then which of the following would be a combined function with a domain of $[0, 2) \cup (2, \infty)$?

i. $f(x) + g(x)$
ii. $(g \circ f)(x)$
iii. $\frac{f(x)}{g(x)}$

a. i only c. i and ii only
b. ii only d. i, ii, and iii

3. Which one of these intervals could g have an average rate of change of -2 and have rates of change that are changing at a rate of -2 ?

a. $[A, B]$
b. $[C, D]$
c. $[E, F]$
d. $[G, H]$

4. Which one of these intervals could g have a point of inflection?

a. $[A, C]$
b. $[D, E]$
c. $[G, H]$
d. The function g does not have a point of inflection between $[A, H]$

We are leading company and innovator in this AP-217 exam area. We are grimly determined and confident in helping you pass the AP-217 exam. With professional experts and brilliant teamwork, our AP-217 exam dumps have helped exam candidates succeed since the beginning. To make our AP-217 Practice Engine more precise, we do not mind splurge heavy money and effort to invite the most professional teams into our group. They are the core value and truly helpful with the greatest skills.

We have a group of experts dedicated to the AP-217 exam questions for many years. And the questions and answers of our AP-217 practice materials are closely related with the real exam. Besides, they constantly keep the updating of products to ensure the accuracy of questions. All AP-217 Actual Exams are 100 percent assured. Besides, we price the AP-217 actual exam with reasonable fee without charging anything expensive.

Get Help From Real Salesforce AP-217 Exam Questions in Preparation

You can change the time and type of questions of the Salesforce AP-217 exam dumps. Media Cloud Accredited Professional practice questions improve your confidence and ability to complete the exam timely. The Salesforce AP-217 real questions are an advanced strategy to prepare you according to the test service. The Salesforce AP-217 Practice Exam software keeps track of previous attempts and shows the changes in each attempt. Knowing your weaknesses and overcoming them before the Salesforce AP-217 exam is easy.

Salesforce Media Cloud Accredited Professional Sample Questions (Q25-Q30):

NEW QUESTION # 25

A Media Cloud customer needs to integrate Google Ad Manager (GAM) with an existing middleware system using an integration procedure.

What is the most secure way for a Consultant to implement the authentication and credentialing requirements for the integration, while also minimizing customization?

- A. Create a remote action in the integration procedure that calls a custom Apex Class.
- B. Implement a custom OAuth to authenticate with middleware, storing credentials in the integration procedure.
- **C. Create a new authentication provider with custom metadata and use it within a named credential.**
- D. Modification on integration procedure is not needed since this is through middleware and the existing named credential is not utilized.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Using a Named Credential with a custom Authentication Provider that stores client credentials in custom metadata ensures secure storage and easy maintenance. This reduces the need for custom OAuth flows in the integration procedure or Apex code, which increases complexity and maintenance.

https://help.salesforce.com/s/articleView?id=sf.media_cloud_named_credential_auth.htm&type=5

NEW QUESTION # 26

A client is looking to adopt a new CRM solution to sell advertising products, starting with their Digital Content line of business. They sell standard digital ad products (digital banners, video inserts).

Using Media Cloud Advertising Sales Management (ASM), what is the most efficient approach for modeling these products?

- A. Create a new Salesforce object for the Digital Ad Products specifications, link that object to the Product2 object, and configure the required products using the Product page layout.
- B. Configure an OmniScript that will retrieve the products from Google Ad Manager and will be used in sales processes.
- **C. Configure a product using Product Designer and associate the product to an Ad Space Specification.**
- D. Create the required characteristics of the products in the Product object and configure the required products using the Product page layout.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Product Designer in Media Cloud allows modeling complex advertising products efficiently by associating them with Ad Space Specifications, ensuring correct mapping to ad inventory. This approach streamlines product configuration for sales users. Creating custom objects or relying solely on Product page layouts is less efficient and lacks native support for media-specific attributes.

NEW QUESTION # 27

A customer has a requirement to allow the Operations team to edit Quote records in order to perform 'Create and Submit Order' action only when the corresponding opportunity has reached a specific status called 'Closed Won'. Sales users will remain as the record owners of Quotes and Orders for reporting purposes. The organization wide default setting for Quote and Order object is private.

How should a Consultant solve this requirement with minimal customization?

- A. Sales users will use manual sharing in order to share order records once Opportunity status is 'Closed Won'.
- B. Configure role hierarchy, such that the Operations team is higher than the Sales users in the same hierarchy group.
- C. Share order records programmatically using Apex whenever Opportunity status is 'Closed Won'.
- **D. Configure a criteria-based sharing rule to share order records once Opportunity status is 'Closed Won'.**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Since the OWD for Quote and Order is private, sharing must be explicitly granted for the Operations team to edit records when Opportunity status is 'Closed Won'. Criteria-based sharing rules are the preferred low-maintenance Salesforce declarative approach for this scenario, sharing records based on field values without custom code. Manual sharing is less scalable, role hierarchy changes may affect ownership and reporting, and Apex sharing is a heavier customization.

NEW QUESTION # 28

A B2B advertising publishing company is exploring Salesforce to manage its advertising sales business. They require Sales Representatives and Media Planners to sell their digital ad products with targeting selections for geo targeting, day/time targeting, content targeting, and user's OS targeting.

Which type of targeting is available with Media Cloud?

- A. Content Targeting
- B. Day/Time Targeting
- C. User's OS Targeting
- **D. Geo Targeting**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Media Cloud supports Geo Targeting as part of its standard digital ad targeting capabilities, allowing advertisers to specify geographic locations for their ads. Content Targeting, Day/Time Targeting, and User's OS Targeting are generally managed by the Ad Server or external DSP platforms, not Media Cloud out-of-the-box.

NEW QUESTION # 29

A Media Publisher is using Advertising Sales Management (ASM) to manage their B2B Ad Sales business. During the creation of a media plan, a Consultant wants to see analytical insights using the View Insights button on the Add and Configure Placements screen.

Which system should the Consultant use to achieve this?

- A. Tableau
- B. Google Ad Manager
- **C. Marketing Cloud Intelligence**
- D. Custom Ad Server

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Marketing Cloud Intelligence provides advanced analytical insights integrated into Media Cloud ASM, including the View Insights feature in media plan placement. This system offers cross-channel campaign performance data, which cannot be achieved through custom ad servers or GAM alone.
