## Oracle Sales Business Process Foundations Associate Rel 2 認定 1z0-1108-2 試験問題 (Q21-Q26):

### 質問 # 21

Which four are steps in the Final Forecast Submission process?

- A. The Sales Manager reviews the forecast and decides whether to accept or reject it.
- B. The Sales Manager can perform adjustments in the forecast and resubmit it.
- C. A Sales Representative submits the initial forecast to the Sales Manager.
- D. If the Sales Manager is not satisfied with the forecast, then they can reject it with rejection notes.
- E. The Sales Representative can bypass the Sales Manager and directly submit a forecast.

正解: A、B、C、D

解説:

The Final Forecast Submission process in Oracle CX Sales is hierarchical. "A Sales Representative submits the initial forecast" (A) starts the process. "The Sales Manager adjusts and resubmits" (C) allows refinements. "The Sales Manager reviews and decides" (D) is core to approval. "The Sales Manager rejects with notes" (E) ensures feedback. "Bypassing the Sales Manager" (B) contradicts Oracle's structured workflow, making it false. The answer (Ans: 1, 3, 4, 5) aligns with Oracle's forecasting hierarchy.

## 質問 # 22

Which two statements concerning lead score are correct?

- A. Lead score can be used as a criterion for lead ranking rules.
- B. Lead scoring rules can only be run once per week.
- C. The data points/input that form the overall score must come from the lead source data.
- D. Lead score is a score assigned to a lead that can help in its qualification for further stages.

正解: A、D

解説:

In Oracle CX Sales, "Lead score is a score assigned to a lead that can help in its qualification" (A) is true, aiding prioritization. "Lead score can be used as a criterion for lead ranking rules" (C) is also true, as scores drive rank tiers. "Must come from lead source data" (B) is false, as scores use multiple data points (e.g., behavior, profile). "Only run once per week" (D) is incorrect, as scoring can be dynamic. The answer (Ans: 1, 3) reflects Oracle's flexible scoring system.

## 質問 # 23

Which job role is responsible for qualifying channel leads?

- A. Sales Manager
- B. Channel Account Manager
- C. Partner Sales Representative
- D. Sales Director
- E. Channel Sales Manager

正解: C

解説:

In the Oracle CX Sales channel process, the "Partner Sales Representative" (D) qualifies channel leads, as they work directly with prospects to assess fit and potential. The "Channel Sales Manager" (A) and "Channel Account Manager" (B) oversee channel strategy and partner assignments, not lead qualification. The "Sales Manager" (C) manages direct sales teams, while the "Sales Director" (E) is too senior for this task. The answer (Ans: 4) reflects Oracle's partner-centric lead qualification process.

## 質問 # 24

Which are the three initial factors to be considered for forecasting output?

- A. Sales Stages
- B. Win Probability
- C. Estimated Commission
- D. Close Date

正解: A、B、D

解説:

Forecasting output in Oracle CX Sales relies on initial factors that predict revenue. "Win Probability" (B) estimates success likelihood, weighting the forecast. "Sales Stages" (C) show pipeline position, affecting timing and certainty. "Close Date" (D) determines when revenue is expected, critical for period-based forecasts. "Estimated Commission" (A) is a sales incentive, not a direct forecasting factor. The answer (Ans: 2, 3, 4) reflects Oracle's focus on probability, stage, and timing in forecasting.

#### 質問 # 25

Which three are used for creating leads in the CX Sales application?

- A. Leads can be created through integration with a marketing application, such as Oracle Eloqua.
- B. A Sales Administrator can initiate a built-in lead generation process tool.
- C. A Sales Administrator can use the Import Management process.
- D. A salesperson can manually create new leads in the UI.

正解: A、C、D

解説:

Oracle CX Sales supports multiple lead creation methods. "A Sales Administrator can use the Import Management process" (B) allows bulk lead imports. "Integration with a marketing application like Oracle Eloqua" (C) automates lead capture from campaigns. "A salesperson can manually create new leads in the UI" (D) enables direct entry. "A built-in lead generation process tool" (A) is vague and not a standard Oracle CX Sales feature; lead generation typically ties to marketing tools or manual actions. The answer (Ans: 2-3-4) reflects Oracle's lead creation options.

#### 質問 # 26
