PRINCE2 7 Foundation written Exam Sample Questions (Q376-Q381):

NEW QUESTION # 376

Which of the following statements about lines of authority and reporting are true?

1. The Project Manager has day-to-day control for a management stage within the limits laid down by the Project Board.
2. If a Team Manager forecasts a deviation beyond Work Package tolerances, this should be referred to the Project Manager.

- A. Both 1 and 2 are true
- B. Neither 1 or 2 are true
- C. Only 1 is true
- D. Only 2 is true

Answer: A

NEW QUESTION # 377

Which is an objective of the quality review technique?

- A. To determine the quality responsibilities of a project team
- B. To provide a common understanding of what products a project will create
- C. To baseline a product
- D. To define the quality methods required within a project

Answer: C

NEW QUESTION # 378

To meet the minimum requirements for applying the progress theme, when must the business justification be reviewed?

- A. Throughout each stage
- B. At the start of the project
- C. In exception situations
- D. When a change is raised

Answer: A

Explanation:

According to PRINCE2, the business justification, or the continued viability of the project, must be reviewed continually throughout each stage of the project. This ensures that the project remains aligned with business needs and objectives and that it is still worth pursuing in light of any developments or changes that may occur. NEW QUESTION # 379

How does the project plan help to support the 'manage by stages' principle?

- A. By defining products to ensure they are fit for purpose
- B. By estimating the timescales and costs of the project
- **C. By identifying the major control points and milestones**
- D. By identifying the customer's quality expectations

Answer: C

Explanation:

The project plan supports the 'manage by stages' principle in PRINCE2 by identifying major control points and milestones. These serve as points at which the project board can review progress and decide whether to continue with the project. This principle ensures that the project is manageable, controllable, and that decisions can be made with proper governance at each stage.

NEW QUESTION # 380

Which is a feature of PRINCE2?

- A. It promotes improving processes for every project
- B. It focuses on completing the project on time as its main objective
- C. It replaces the need to apply specialist Industry-specific lifecycles
- **D. It is naturally right-sized to the scale of every project**

Answer: D

Explanation:

PRINCE2 is flexible and can be tailored to fit the size, complexity, importance, capability, and risk of the project. This adaptability is a key feature of PRINCE2, ensuring that the methodology can be scaled up or down to suit the specific demands of different projects.
