- Signup/Login to SALESFORCE account
- Visit to SALESFORCE Exam Registration
- Select Date and Center of examination and confirm with payment value of 200\$

Salesforce Certified Platform Developer I Sample Questions (Q209-Q214):

NEW QUESTION # 209

Refer to the component code 9fd requirements below:

Requirements

* For mobile devices, the information should display in three rows.

* For desktops and tablets, the information should display in a single row.

Requirement 2 is not displaying as desired.

Which option has the correct component code to meet the requirements for desktops end and tablets?

- A.

```
<lightning:layout multipleRows="true">
  <lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.Name}
</lightning:layoutItem>
  <lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.AccountNumber}
</lightning:layoutItem>
  <lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.Industry}
</lightning:layoutItem>
</lightning:layout>
```

- B.

```
<lightning:layout multipleRows="true">
  <lightning:layoutItem size="12" largeDeviceSize="4">{!v.account.Name}
</lightning:layoutItem>
  <lightning:layoutItem size="12" largeDeviceSize="4">{!v.account.AccountNumber}
</lightning:layoutItem>
  <lightning:layoutItem size="12" largeDeviceSize="4">{!v.account.Industry}
</lightning:layoutItem>
</lightning:layout>
```

Answer: B

Explanation:

To meet the requirements:

For mobile devices, the content should display in three rows.

For desktops and tablets, the content should display in a single row.

Explanation of Correct Option (B): The code uses `lightning:layoutItem` with appropriate sizing for `mediumDeviceSize="4"`, which ensures:

Mobile devices: Each layout item will occupy the full width (`size="12"`), resulting in three rows.

Tablets and desktops: Each layout item will occupy one-third of the row (`mediumDeviceSize="4"`), displaying in a single row.

Example Code from Option B:

```
<lightning:layout multipleRows="true">
<lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.Name}</lightning:layoutItem>
<lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.AccountNumber}</lightning:
layoutItem>
<lightning:layoutItem size="12" mediumDeviceSize="4">{!v.account.Industry}</lightning:layoutItem>
</lightning:layout>
```

Option A: Does not account for mediumDeviceSize and will not adjust for tablets/desktops.

Option C: Uses incorrect sizing for mediumDeviceSize, which may not display correctly for tablets/desktops.

NEW QUESTION # 210

A company has a custom object, Sales, }_Help_Request__c, that has a Lookup relationship to Opportunity. The Sales Help Request__c has a number field, Number_of_Hours__c, that represents the amount of time spent on the Sales Help Request__c.

A developer is tasked with creating a field, total_Hours__c, on Opportunity that should be the sum of all of the Number_of_Hours__c values for the Sales Help Request__c records related to that Opportunity.

What should the developer use to implement this?

- A. A record-triggered flow on the Sales Help Request__c object
- B. A trigger on the Opportunity object
- C. A roll-up summary field on the sales Help_Request__c object
- D. A roll-up summary field on the Opportunity object

Answer: A

NEW QUESTION # 211

A developer writes the following code:

```
List<Account> acc = [SELECT Id FROM Account LIMIT 10];
Delete acc;
Database.emptyRecycleBin(acc);

System.Debug(Limits.getDMLStatements() + ', ' + Limits.getLimitDMLStatements());
```

What is the result of the debug statement?

- A. 1, 100
- B. 1, 150
- C. 2, 200
- D. 2, 150

Answer: D

NEW QUESTION # 212

A developer needs to avoid potential system problems that can arise in a multi-tenant architecture.

Which requirement helps prevent poorly written applications from being deployed to a production environment?

- A. All validation rules must be active before they can be deployed.
- B. All Apex code must be annotated with the with sharing keyword.
- C. SOQL queries must reference sObjects with their appropriate namespace.
- D. Unit tests must cover at least 75% of the application's Apex code

Answer: D

NEW QUESTION # 213

What is the accurate statement about with sharing keyword? choose 2 answers

- A. Either inner class or outer classes can be declared as with sharing but not both
- B. Both inner and outer class can be declared as with sharing
- C. Inner class inherit the sharing setting from the container class
- D. Inner class do not inherit the sharing setting from the container class

Answer: B,D
