**300-740 Practice Materials & 300-740 Training Guide Torrent - Pass4sures**

In this way, you can clear all your doubts and understand each topic well. Cisco Dumps PDF are customizable and simulate the real Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) test scenario. The desktop-based 300-740 Practice Exam software works on Windows. The web-based 300-740 practice exam is compatible with all operating systems and browsers.

## Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q166-Q171):

### NEW QUESTION # 166

Refer to the exhibit. An engineer must implement a remote access VPN solution that provides user and device verification. The company uses Active Directory for user authentication and ID certificates for device identity. Users are currently able to connect using only a valid username and password, even if their computer is missing the required certificate.

Which command from the Cisco ASA tunnel-group completes the requirement of verifying device identity in addition to user identity?

- A. ldap-attribute-map PolicyAllow
- B. authentication aaa certificate
- C. authentication mfa
- D. webvpn authorize-device

**Answer: B**

Explanation:

To enforce both user-based and device-based authentication on Cisco ASA, the tunnel group must include the command: authentication aaa certificate. This configuration requires that both a valid username/password (authenticated via AAA, such as Active Directory) and a trusted certificate (device identity) are present before allowing VPN access. Without this directive, only username/password credentials are validated, which leads to the scenario described in the question.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 2: User and Device Security, Pages 40-44.

### NEW QUESTION # 167

Lateral movement prevention within an application environment aims to:

- A. Reduce the need for authentication
- B. Increase the complexity of the network topology
- C. Limit attackers' ability to move between compromised systems
- D. Allow unrestricted access between services

**Answer: C**

#### NEW QUESTION # 168

Microsegmentation helps in cloud security by:

- A. Creating secure zones in data centers and cloud environments to isolate workloads from one another
- B. Centralizing all applications into a single network segment
- C. Reducing the number of security policies needed
- D. Allowing unrestricted traffic flow within the cloud environment

Answer: A

#### NEW QUESTION # 169

Policies derived from security audit reports often lead to:

- A. Focusing solely on external audit compliance
- B. Dismantling existing security infrastructure
- C. Strengthening of security measures and protocols
- D. Ignoring recommendations for improvements

Answer: C

#### NEW QUESTION # 170

Implementing endpoint posture policies is crucial for:

- A. Decreasing network traffic
- B. Allowing all devices to access network resources without checks
- C. Ensuring devices comply with security standards before accessing the network
- D. Making the network accessible without a password

Answer: C

#### NEW QUESTION # 171

.....

The Cisco 300-740 exam questions pdf is properly formatted to give candidates the asthenic and unformatted information they need to succeed in the 300-740 exam. In addition to the comprehensive material, a few basic and important questions are highlighted and discussed in the 300-740 Exam Material file. These questions are repeatedly seen in past Designing and Implementing Secure Cloud Access for Users and Endpoints exam papers. The Designing and Implementing Secure Cloud Access for Users and Endpoints practice questions are easy to access and can be downloaded anytime on your mobile, laptop, or MacBook.
