CADC EXAM FORM A

1. A wife refers her husband for substance abuse counseling. His drug of choice is cocaine, which he has been using episodically with friends at a poker game—biweekly to weekly—for some years. She is disturbed at the illicit nature of the drug and the long-standing use. He states that though he recreationally uses, he doesn't crave cocaine, doesn't seek it out but rather uses with friends at the game who bring it. He feels that other than his wife being upset, he has no other social or occupational issues. Given the information provided, how is his use of cocaine BEST described?

- a. Substance abuse
- b. Cocaine intoxication
- c. Cocaine use disorder
- d. None of the above
- d. None of the above

2. What does the experienced effect of a drug depend upon?

- a. The amount taken and past drug experiences
- b. The modality of administration
- c. Polydrug use, setting, and circumstance
- d. All of the above
- d. All of the above

It has similar specifications to the ServiceNow CAD desktop-based practice exam software, but it requires an internet connection. Our ServiceNow CAD practice exam highlights mistakes at the end of each attempt, allowing you to overcome them before it's too late. This kind of approach is great for complete and flawless ServiceNow CAD Test Preparation.

ServiceNow CAD Certification Exam is designed to test an individual's knowledge and skills in developing applications on the ServiceNow platform. CAD exam covers a range of topics including ServiceNow architecture, scripting, database structures, user interface development, and integrations. To pass the exam, candidates must demonstrate their ability to develop applications using best practices and adhere to ServiceNow's development guidelines.

Exam Content

The examination consists of 60 Questions. Candidates should attempt maximum correct answers for a better score.

Formats of Question

- Multiple Response Multiple-choice questions: Two or More Correct response from the given options best suits the statement or answers the question.
- Single Response Multiple-choice questions: Only One correct response from the given options best suits the statement or answers the question.

- True or False questions: the candidate will be presented with a statement and has to specify the correct option for the statement if the statement is either true or false

Exam Duration

Candidates will have 90 minutes for attempting 60 questions. So, it becomes important for the candidates to time-box the exam and restrict spending too much time on one question or one topic.

Exam Results

The ServiceNow CAD Certification is a pass or fail exam. The examination is scored against a minimum standard established by ServiceNow who are guided by the certification industry best practices and guidelines. On successful submission of the certification examination, result in the form of Pass or Fail result is immediately calculated and displayed to the candidate. No further details will be provided to the candidate.

Certified Application Developer-ServiceNow certification is ideal for developers, consultants, and administrators who want to advance their careers in ServiceNow development. CAD Exam consists of 60 multiple-choice questions and must be completed within 90 minutes. Candidates must score at least 70% to pass the exam.

ServiceNow Certified Application Developer-ServiceNow Sample Questions (Q186-Q191):

NEW QUESTION # 186

What do you click when you have made modifications to your report, and you want to see the results without saving?

- A. Run
- B. Preview
- C. Execute
- D. Try it
- E. Test

Answer: A

NEW QUESTION # 187

Which of the following is NOT a trigger type in Flow Designer?

- A. Outbound Email
- B. Record
- C. Schedule
- D. Application

Answer: A

Explanation:

See list of triggers on right hand side of this

webpage:<https://docs.servicenow.com/en-US/bundle/tokyo-application-development/page/administer/flow-design> The trigger types in Flow Designer are Application, Record, Schedule, and Topic. Outbound Email is not a trigger type, but an action type that can be used in a flow to send an email message. References: Flow Designer Trigger Types

NEW QUESTION # 188

Which of the following statements is true about Guided Application Creator?

- A. The welcome screen appears every time a new application is created
- B. A scope application user role is automatically created
- C. The global scope option is turned on by default
- D. Default access controls are automatically created

Answer: A

NEW QUESTION # 189

Which server-side API debug log method is available for scoped applications?

- A. `gs.print()`
- B. `gs.debuglog()`
- C. `gs.log()`
- D. `gs.info()`

Answer: D

Explanation:

The server-side API debug log method available for scoped applications is `gs.info()`. This method logs informational messages that describe the progress of the application. Older methods such as `gs.print()` and `gs.log()` are not available in scoped applications. The `gs.debuglog()` method does not exist. The `gs.info()`, `gs.warn()`, `gs.error()`, and `gs.debug()` methods work in both scoped applications and global, and are therefore more versatile going forward in future versions. Reference: Debugging best practices

NEW QUESTION # 190

A manager wants to view a snapshot of month-end Sales performance data, as compared to Sales targets. In addition, the manager wants to be able to see those monthly numbers trended over time, and forecasted into the future. What capability do you suggest for this manager?

- A. Performance Analytics
- B. Scheduled Reports a custom snapshot table and a Trend report
- C. Scheduled Reports and Excel
- D. Scheduled Reports, a custom snapshot table, and a Projection report
- E. Key Performance Indicators

Answer: A

NEW QUESTION # 191
