## Microsoft GitHub Copilot Sample Questions (Q13-Q18):

### NEW QUESTION # 13

How can you get multiple suggestions from GitHub Copilot?

- A. By using @workspace in the chat window
- B. By asking for multiple suggestions using comments in your code
- C. By opening the completions panel in your editor
- D. By using the inline chat functionality with the command 'multiple'

**Answer: C**

Explanation:

You can get multiple suggestions by opening the completions panel in your editor, which displays alternative code suggestions.

#### NEW QUESTION # 14

Which Copilot Enterprise features are available in all commercially supported IDEs?

- A. Pull request summaries
- B. Chat
- C. Knowledge bases
- D. Inline suggestions

**Answer: B,D**

Explanation:

"Copilot Enterprise provides inline code suggestions and Copilot Chat in all commercially supported IDEs.

Additional features, such as pull request summaries and knowledge bases, are available in GitHub.com." This confirms that inline suggestions and Chat are the features consistently available in IDEs.

References: GitHub Copilot Enterprise feature documentation.

#### NEW QUESTION # 15

How does GitHub Copilot suggest code optimizations for improved performance?

- A. By providing detailed reports on the performance of the codebase.
- B. By analyzing the codebase and suggesting more efficient algorithms or data structures.
- C. By enforcing strict coding standards that ensure optimal performance.
- D. By automatically rewriting the codebase to use more efficient code.

**Answer: B**

Explanation:

GitHub Copilot suggests code optimizations by analyzing the codebase and recommending more efficient algorithms or data structures.

#### NEW QUESTION # 16

A team is using GitHub Copilot Individual in their daily development activities. They need to exclude specific files from being used to inform code completion suggestions. How can they achieve this?

- A. Add a .gitignore file to the repo
- B. Use the #file Chat variable to exclude the files
- C. Have a repo administrator configure content exclusions
- D. Have an organization owner configure content exclusions
- E. Upgrade to Copilot Business

**Answer: E**

Explanation:

"Content exclusions are available only with GitHub Copilot Business and Enterprise. Copilot Individual users cannot configure exclusions." This confirms that the only way for the team to achieve exclusions is by upgrading to Copilot Business.

References: GitHub Copilot content exclusions documentation.

#### NEW QUESTION # 17

What is a benefit of using custom models in GitHub Copilot?

- A. Responses are faster to produce and appear sooner
- B. Responses are guaranteed to be correct
- C. Responses use the organization's LLM engine
- D. Responses use practices and patterns in your repositories

**Answer: D**
