Topic - Invoice and Revenue Rates: How They Are Determined

Oracle Fusion Project Billing uses bill rates, burdening, and transfer price schedules to derive standard bill rates, multipliers, markups, and bases for calculating potential revenue when the revenue method classification on a revenue plan is as billed, as incurred, or rate based. Similarly, bill rates derive invoice amounts when the invoice method classification on a bill plan is rate based.

QUESTION: 3

What is the precedence order in which cost rates are determined for a planning resource when deriving raw costs for rate-based planning resources?

- Option A : Resource class rate schedule > Override rate > Job rate schedule > Person rate schedule
- Option B : Override rate > Job rate schedule > Resource class rate schedule > Person rate schedule
- Option C : Person rate schedule > Job rate schedule > Resource class rate schedule > Override rate
- Option D : Override rate > Person rate schedule > Job rate schedule > Resource class rate schedule
- Option E : Job rate schedule > Resource class rate schedule > Override rate > Person rate schedule

Correct Answer: D

QUESTION: 4

You have four resources in your organization: P, Q, R, and S. Resource P – Project or resource calendar is active. Resource Q – Project resource request dates are within the project or resource calendar effective dates. Resource R – Resource calendar is complex. It does not contain seven days, and it contains more than one pattern and shift. Resource S – Number of working days within the requested date range is not zero on the project or resource calendar. Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- Option A : P
- Option B : Q
- Option C : R
- Option D : S

On Itcertmaster website you can free download part of the exam questions and answers about Oracle Certification 1z0-1057-25 Exam to quiz our reliability. Itcertmaster's products can 100% put you onto a success away, then the pinnacle of IT is a step closer to you.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q104-Q109):

NEW QUESTION # 104

While opening an organization tree on the Manage Organization Trees page, you notice that the hierarchy status is displayed as Inactive. Identify the two reasons for the organization tree to be in Inactive status. (Choose two.)

- A. You selected the Edit icon for opening the hierarchy.
- B. You used **Create Tree Version** in the action menu.
- C. You used **Create Tree** in the action menu.
- D. You used View Tree Version in the action menu.
- E. You opened the hierarchy by clicking the name.

Answer: B,C

Explanation:

When you use Create Tree or Create Tree Version in the action menu, you create a new organization tree or a new version of an existing tree, respectively. These actions result in an Inactive status for the organization tree, until you activate it. When you use View Tree Version or select the Edit icon or click the name of the tree, you open an existing organization tree that has an Active status.

NEW QUESTION # 105

As you go through the first-quarter close for your customer, you notice that the burden amounts calculated do not seem to be right. Based on the calculations, you notice that the amounts calculated are not considering the burden schedule override at a task level, which was done during the second month of the quarter.

What is the reason for this problem?

- A. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier cannot be reprocessed.
- B. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier can be manually marked for reprocessing.
- C. You can enable automatic reprocessing of expenditure items processed before the burden schedule change.
- D. All expenditure items charged to the task use the new burden schedule.

Answer: B

NEW QUESTION # 106

You have four resources in your organization: P, Q, R, and S.

Resource P - Project or resource calendar is active.

Resource Q - Project resource request dates are within the project or resource calendar effective dates.

Resource R - Resource calendar is complex, it does not contain seven days, and it contains more than one pattern and shift.

Resource S - Number of working days within the requested date range is not zero on the project or resource calendar.

Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- A. P
- B. Q
- C. R

- D. S

Answer: C

How the Resource Available Capacity Score Is Calculated

NEW QUESTION # 107

Your customer has different accounting and project accounting periods, and sometimes enters invoices with an invoice date in the open project accounting and closed accounting periods. Which two statements are true about how project accounting and accounting dates will be populated in such invoices? (Choose two.)

- A. Accounting date is the same as the original invoice date.
- B. Project accounting date is the same as the original invoice date.
- C. Project accounting date is the last day of the open project accounting period.
- D. Project accounting date is the first day of the first open project accounting period.
- E. Accounting date is the first day of the first open accounting period.

Answer: A,D

Explanation:

When an invoice is entered with an invoice date in the open project accounting and closed accounting periods, the accounting date is the same as the original invoice date, but the project accounting date is the first day of the first open project accounting period. This ensures that the invoice is accounted in the correct accounting period and recognized in the correct project accounting period.

NEW QUESTION # 108

Your customer started operations and all projects in January 2015. They implemented Enterprise Project Structure for calculating project labor demand by using the Annual option. When they view the labor demand on 15-Dec-2015, the project hierarchy viewer shows data only for the year 2015. The client expected the demand to be shown for a year, from 15-Dec-2015 to 15-Dec-2016. Identify how the project hierarchy viewer displays labor demand information. (Choose the best answer.)

- A. The project start date of Jan-2015 was used for calculating labor demand, and hence it calculated the demand for the year 2015.
- B. The current date is used for calculating labor demand for the current year.
- C. The date entered by a user as a parameter when running the Update EPS job was set to 01-Jan-2015, and hence the calculations show results for the year 2015.
- D. The current period start date is used for calculating labor demand for the current year.

Answer: B

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/analyze-project-management-performance.html#OAPEM1313471> Topic - Project Labor Demand: How It's Calculated Settings That Affect Project Labor Demand Project application administrators must do the following to set up how project labor demand is calculated:

* Organize projects into hierarchical groups on the Manage Enterprise Project Structure page.

* Change the quarterly FTE hours for the organization on the Define Project Management Implementation Options page, if different from 520 hours.

Note: You can choose to view labor demand annually instead of quarterly. The Project Hierarchy Viewer uses the current date to determine which year or quarter to display.
