- A. Select the 'Admin-approved users are pre-authorized' option under Permitted Users.
- B. Select the 'Require Secret for Web Flor' option
- C. Select the minimum required scope for the integration
- D. Select all available options to enable package reuse for the future integrations

Answer: C

NEW QUESTION # 170

Northern Trail Outfitters uses a Send Log and sends more than one million emails per day. They want to execute daily reports on all subscriber activity without impacting send performance.
Which set of best practices should be implemented"

- A. Add a data retention policy to the Send Log. then run reports from the Send Log data extension.
- B. Copy new Send Log records to an Archive data extension, then run reports from the Archive data extension.
- C. Add a data retention policy to the Send Log. then run reports from the _Opens data view.
- D. Copy new Send Log records to an Archive data extension, then run reports from the Send Log data extension.

Answer: B

Explanation:
To execute daily reports on all subscriber activity without impacting send performance, the best practice is to copy new Send Log records to an Archive data extension, then run reports from the Archive data extension (C). This approach ensures that the reporting activity does not interfere with the performance of ongoing send operations.
