PRINCE2 Practitioner Exam Sample Questions (Q75-Q80):

NEW QUESTION # 75

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered. ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

End of the Project scenario.

Who should approve this update?

- A. Corporate management
- B. Project manager
- C. Project assurance
- **D. Project board**

Answer: D

NEW QUESTION # 76

Based on lessons from previous projects that used the ABC Company standard development model, the project board has set low cost and time tolerances for stage 2. As a result, the project manager plans to set very low tolerances for time and cost for all work packages to be carried out during stage 2.

Is this an appropriate application of the 'manage by exception' principle, and why?

- A. Yes, because the project manager should set tolerance equally for all work packages in a stage.
- **B. Yes, because setting appropriate tolerances for work packages will help keep the stage within tolerances.**
- C. No, because tolerances set by the project manager should be the same as those set by the project board.
- D. No, because the project manager should divide the stage tolerances between the team managers.

Additional Information

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits Ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.
