Salesforce ED-Con-101 Test Dates & ED-Con-101 Reliable Real Test

Without a doubt, there is one thing that can assist them with perceiving this interest and clearing their Salesforce Certified Education Cloud Consultant (ED-Con-101) exam with flying colors. Salesforce ED-Con-101 dumps merge all that gigantic and the competitor doesn't require to purchase the aide or different books to review. They have this test material and need nothing else for planning Salesforce Certified Education Cloud Consultant exam.

Salesforce Certified Education Cloud Consultant Sample Questions (Q74-Q79):

NEW QUESTION # 74

A university is implementing a student community and rolling it out to 20,000 students. The IT manager is concerned about the large increase in users accessing the system at any one time.

Which step should the consultant recommend?

- A. Use a third-party testing automation tool.
- **B. Develop a Performance Testing Strategy.**
- C. Log a case with Salesforce Support to increase limits.

Answer: B

NEW QUESTION # 75

Where can a customer access the open-source common sprint project code repositories?

- **A. GitHub**
- B. Partner Community
- C. Trailblazer Community

Answer: A

Explanation:

GitHub is a web-based platform that hosts open-source code repositories for developers to collaborate on projects¹. Customers can access the common sprint project code repositories on GitHub by visiting the Salesforce.org Open Source Commons organization page². There, they can find various community projects stemming from Salesforce.org Open Source Community Sprints, such as Data Generation Toolkit, Outbound Funds Module, and Membership Schema and Benefits². These projects are compatible with Education Cloud and can be used to extend its functionality and features. Reference:

1: What is GitHub? - GitHub Docs³

2: Salesforce.org Open Source Commons - Community Sprint Projects⁴

NEW QUESTION # 76

Alumni Relations is using Salesforce with the Education Data Architecture (EDA). The department is holding an event that features a faculty member as the guest speaker. The events manager wants a report of all alumni who took a course from that faculty member. How should the consultant create this report?

- **A. Create a custom Report Type with Courses, Course Offerings, and Course Connections.**
- B. Add a Course Connections cross filter to the Program Enrollments with Contact report.
- C. Use the Course Connections with Contact's Academic Program Report Type.

Answer: A

Explanation:

The consultant should create a custom Report Type with Courses, Course Offerings, and Course Connections to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. A custom Report Type is a type of report that shows information about one or more objects and their fields, filters, and relationships. A custom Report Type with Courses, Course Offerings, and Course Connections can help the Alumni Relations office create a report of all alumni who took a course from that faculty member by showing the relationship between the Contact object and the Course object through the Course Offering object and the Course Connection object. The consultant can add fields and filters to the custom Report Type to show only the alumni who took a course from that faculty member. Using the Course Connections with Contact's Academic Program Report Type, adding a Course Connections cross filter to the Program Enrollments with Contact report, or creating a custom Report Type with Contacts, Accounts, and Affiliations are not ways to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. NEW QUESTION # 77

An elementary school wants to implement an out-of-the-box solution to track enrollments by grade. Which solution should the consultant recommend?

- A. Education Data Architecture
- B. Nonprofit Success Pack
- **C. K-12 Architecture Kit**
- D. Program Management Module

Answer: C

Explanation:

The consultant should recommend K-12 Architecture Kit as an out-of-the-box solution to track enrollments by grade for the elementary school. K-12 Architecture Kit is a solution that extends EDA to meet the needs of K-12 schools. K-12 Architecture Kit provides objects and features to track student information, such as grades, attendance, and program enrollments. The consultant can help the elementary school configure and customize K-12 Architecture Kit to track enrollments by grade using features such as

Grade Enrollment or Grade Level, Nonprofit Success Pack, Education Data Architecture, and Program Management Module are not out-of-the-box solutions to track enrollments by grade for the elementary school. Reference:

NEW QUESTION # 78

A law school wants a recruitment and admissions system with a multichannel marketing tool, Admission officers want an application portal they can brand. Marketers want an integrated social listening tool.

Which solution set should the consultant recommend?

- A. Education Cloud, Experience Cloud, Marketing Cloud
- B. Education Cloud, MuleSoft, Anypoint Platform, Pardot
- C. Education Cloud, Elevate, Experience Cloud
- D. Education Cloud, Nonprofit Cloud, Marketing Cloud

Answer: A

Explanation:

The consultant should recommend Education Cloud, Experience Cloud, and Marketing Cloud as a solution set to meet the requirement of having a multichannel marketing tool, an application portal they can brand, and an integrated social listening tool for the law school. Education Cloud is a product that provides solutions for higher education institutions to manage their recruitment, admissions, student success, and advancement processes. Experience Cloud is a product that allows users to create and manage digital experiences for customers, partners, or employees on any device or channel. Marketing Cloud is a product that allows users to create and manage personalized and targeted marketing campaigns for customers or prospects. The consultant can help the law school leverage Education Cloud, Experience Cloud, and Marketing Cloud to create a branded application portal, engage with prospects across multiple channels, and monitor social media conversations. Education Cloud, MuleSoft Anypoint Platform, Pardot; Education Cloud, Elevate, Experience Cloud; or Education Cloud, Nonprofit Cloud, Marketing Cloud are not solution sets that can meet the requirement of having a multichannel marketing tool, an application portal they can brand, and an integrated social listening tool for the law school.
