Many of our worthy customers worried that it will take a long time to get our ASIS-PSP study braindumps, but in fact as long as your payment is successful, we will send a link of the ASIS-PSP learning guide to your e-mail within five to ten minutes. You can download and study with our ASIS-PSP practice engine immediately.

ASIS Physical Security Professional Exam Sample Questions (Q82-Q87):

NEW QUESTION # 82

Pandemics affect people, not infrastructure.

- A. False
- **B. True**

Answer: B

Explanation:

Comprehensive Detailed Explanation:

Pandemics primarily impact human health and workforce availability rather than directly damaging physical infrastructure. The effects on infrastructure are typically secondary, such as reduced staffing at utilities or service providers, rather than structural destruction (as in natural disasters).

Infrastructure remains physically intact, but operations may be disrupted due to workforce shortages.

NEW QUESTION # 83

In its organizational functions, security encompasses which basic activities with varying degrees of emphasis?

- A. managerial, training, preventive, detective
- **B. managerial, administrative, preventive, investigative**
- C. managerial, detective, preventive, investigative
- D. supervising, administrative, preventive, training

Answer: B

Explanation:

In the organizational structure of a security function, the core activities typically include:

Managerial: Oversight, policy development, leadership.

Administrative: Recordkeeping, personnel management, compliance.

Preventive: Strategies and operations to deter incidents before they occur.

Investigative: Reactive efforts to determine the cause of incidents or breaches.

These functions vary depending on the organization and risk profile but represent the foundational elements of an effective security program.

NEW QUESTION # 84

_____ defines the problem, set the requirements, discuss solutions and set out punishment for infractions.

- A. Physical security
- **B. Network Security Policy**
- C. Forensic investigations
- D. Spam filtering

Answer: B

Explanation:

A network security policy defines the scope of security measures within an organization's network. It sets the rules for behavior, outlines acceptable use, identifies protected resources, defines responses to security breaches, and lays out disciplinary measures for violations.

Physical security (A) focuses on tangible access control.

Forensic investigations (C) deal with post-incident evidence gathering.

Spam filtering (D) is a specific technical control, not a policy framework.

NEW QUESTION # 85

A legal research generally involves locating:

- A. the applicable statute
- B. related articles in professional journals
- C. the applicable case law
- **D. All of the above**

Answer: D

Explanation:

Legal research typically involves multiple resources:

Statutes (A) to determine the applicable law.
Case law (B) to understand how courts interpret and apply the statute.
Professional journals and articles (C) to gather expert opinions and commentary.
Effective legal research ensures thorough understanding and proper application of legal principles.

NEW QUESTION # 86

Threats are generally classified as:

- A. Man-made or natural
- B. Internal or external
- C. Overt or covert
- D. High risk or low risk

Answer: A

Explanation:

Threats in security risk assessments are typically classified as either man-made (e.g., vandalism, terrorism) or natural (e.g., earthquakes, floods). This distinction helps define appropriate mitigation strategies.

A, B, and C describe other possible classifications but are not the foundational categories.
